Longman Companion To The European Reformation C 1500 1618:

The Longman Companion to the European Reformation, C. 1500-1618 Mark Greengrass, 1998 Of the dates for Luther's career and evidence for his theological development The indulgences dispute 1514 18 Broadening conflict 1518 19 Luther's excommunication 1520 21 Sect 4 The implantation of the reformation in Germany Scandinavian lands and Swiss cantons The Holy Roman Empire Reformation and reaction in selected German principalities The Great Peasants War 1524 26 The German reformation in its urban setting Imperial leagues The reformation in Baltic lands The reformation in Switzerland Sect 5 Sectarian lineages Radical typologies Early enthusiasts and lay preachers Anabaptist persecution and diaspora The anabaptist rising at Munster Spiritualists Refugee radicals Unitarian churches **The Longman Companion to Renaissance Europe, 1390-1530** Stella Fletcher, 2014-02-04 This new Companion is the ideal reference guide It fills a gap by providing an authoritative but accessible reference on political economic religious social as well as cultural developments in this crucial period It contains information on all major topics including the church war and diplomacy civic life learning and letters printing the economy science and technology the arts across Europe and the wider world

Longman Companion to European Decolonisation in the Twentieth Century Muriel E. Chamberlain, 2014-06-11 This new Companion brings together in one single volume all the essential facts and figures relating to European decolonisation in the twentieth century Professor Chamberlain has taken each European empire in turn the British French Dutch Portuguese Spanish Belgian and Italian and for each one she has provided a detailed chronology of the process of decolonisation in the individual states The European Reformation Euan Cameron, 2012-03-01 Since its first appearance in 1991 The European Reformation has offered a clear integrated and coherent analysis and explanation of how Christianity in Western and Central Europe from Iceland to Hungary from the Baltic to the Pyrenees splintered into separate Protestant and Catholic identities and movements Catholic Christianity at the end of the Middle Ages was not at all a uniformly decadent or corrupt institution it showed clear signs of cultural vigour and inventiveness However it was vulnerable to a particular kind of criticism if ever its claims to mediate the grace of God to believers were challenged Martin Luther proposed a radically new insight into how God forgives human sin In this new theological vision rituals did not purify people priests did not need to be set apart from the ordinary community the church needed no longer to be an international body For a critical Reformation moment this idea caught fire in the spiritual political and community life of much of Europe Lay people seized hold of the instruments of spiritual authority and transformed religion into something simpler more local more rooted in their own community So were born the many cultures liturgies musical traditions and prayer lives of the countries of Protestant Europe This new edition embraces and responds to developments in scholarship over the past twenty years Substantially rewritten and updated with both a thorough revision of the text and fully updated references and bibliography it nevertheless preserves the distinctive features of the original including its clearly thought out integration of theological ideas and political

cultures helping to bridge the gap between theological and social history and the use of helpful charts and tables that made the original so easy to use

The Tactics of Toleration Jesse Spohnholz, 2010-12-28 The Tactics of Toleration examines the preconditions and limits of toleration during an age in which Europe was sharply divided along religious lines During the Age of Religious Wars refugee communities in borderland towns like the Rhineland city of Wesel were remarkably religiously diverse and culturally heterogeneous places Examining religious life from the perspective of Calvinists Lutherans Mennonites and Catholics this book examines how residents dealt with pluralism during an age of deep religious conflict and intolerance Based on sources that range from theological treatises to financial records and from marriage registries to testimonies before secular and ecclesiastical courts this project offers new insights into the strategies that ordinary people developed for managing religious pluralism during the Age of Religious Wars Historians have tended to emphasize the ways in which people of different faiths created and reinforced religious differences in the generations after the Reformation's break up of Christianity usually in terms of long term historical narratives associated with modernization including state building confessionalization and the subsequent rise of religious toleration after a century of religious wars In contrast Jesse Spohnholz demonstrates that although this was a time when Christians were engaged in a series of brutal religious wars against one another many were also learning more immediate and short term strategies to live alongside one another This book considers these tactics for toleration from the vantage point of religious immigrants and their hosts who learned to coexist despite differences in language culture and religion It demands that scholars reconsider toleration not only as an intellectual construct that emerged out of the Enlightenment but also as a dynamic set of short term and often informal negotiations between ordinary people regulating the limits of acceptable and unacceptable behavior Published by University of Delaware Press Distributed worldwide by Rutgers University Press

Calvinism Darryl Hart, 2013-05-30 DIV This briskly told history of Reformed Protestantism takes these churches through their entire 500 year history from sixteenth century Zurich and Geneva to modern locations as far flung as Seoul and S o Paulo D G Hart explores specifically the social and political developments that enabled Calvinism to establish a global presence divDIV divDIV Hart's approach features significant episodes in the institutional history of Calvinism that are responsible for its contemporary profile He traces the political and religious circumstances that first created space for Reformed churches in Europe and later contributed to Calvinism's expansion around the world He discusses the effects of the American and French Revolutions on ecclesiastical establishments as well as nineteenth and twentieth century communions particularly in Scotland the Netherlands the United States and Germany that directly challenged church dependence on the state Raising important questions about secularization religious freedom privatization of faith and the place of religion in public life this book will appeal not only to readers with interests in the history of religion but also in the role of religion in political and social life today div
