Los Dominados Y El Arte De La Resistencia By James C Scott:

Los dominados y el arte de la resistencia James C. Scott, 2003-04 Con base en un conocimiento profundo de la historia y la literatura James C Scott ofrece una propuesta original para el estudio de las relaciones de poder Parte de un hecho incuestionable que los actores de la vida social y la política no reducen sus intervenciones al escenario público Por el contrario los temas de mayor importancia se dirimen fuera del alcance del adversario y los mecanismos con que los dominados ocultan o disimulan sus propósitos resultan vitales aun en situaciones de relativa estabilidad Esta obra ha suscitado el replanteamiento de las nociones de subordinación y resistencia hegemonía cultura popular y movimientos sociales Est considerada como una de las mayores contribuciones teóricas al debate contemporáneo sobre las relaciones de poder

Domination and the Arts of Resistance James C. Scott, 2008-10-01 Play fool to catch wise proverb of Jamaican slaves Confrontations between the powerless and powerful are laden with deception the powerless feign deference and the powerful subtly assert their mastery Peasants serfs untouchables slaves laborers and prisoners are not free to speak their minds in the presence of power These subordinate groups instead create a secret discourse that represents a critique of power spoken behind the backs of the dominant At the same time the powerful also develop a private dialogue about practices and goals of their rule that cannot be openly avowed In this book renowned social scientist James C Scott offers a penetrating discussion both of the public roles played by the powerful and powerless and the mocking vengeful tone they display off stage what he terms their public and hidden transcripts Using examples from the literature history and politics of cultures around the world Scott examines the many guises this interaction has taken throughout history and the tensions and contradictions it reflects Scott describes the ideological resistance of subordinate groups their gossip folktales songs jokes and theater their use of anonymity and ambiguity He also analyzes how ruling elites attempt to convey an impression of hegemony through such devices as parades state ceremony and rituals of subordination and apology Finally he identifies with quotations that range from the recollections of American slaves to those of Russian citizens during the beginnings of Gorbachev's glasnost campaign the political electricity generated among oppressed groups when for the first time the hidden transcript is spoken directly and publicly in the face of power His landmark work will revise our understanding of subordination resistance hegemony folk culture and the ideas behind revolt

Resistance in the Iberian Worlds from the Fifteenth to the Eighteenth Century Pablo Sánchez León, Benita Herreros Cleret de Langavant, 2024-10-01 This book highlights the broad scope and span of resistance as a contentious practice in the early modern Iberian world In this context from the late Middle Ages onwards resistance rooted in the political and legal language of the old regime that provided agents with legitimacy and resources for their actions occurred mainly within the established jurisdictional system These resources for litigation and demand made resistance a widespread kind of contesting practice related to wider protests The authors assess the wide array of actions developed by individuals and communities to preserve their rights and identities

demonstrating how the Portuguese and Hispanic polities and their colonial possessions experienced resistance from below over a long period of change that marked the rise of more complex communities and institutional systems This book offers a comprehensive overview of the variety of forms and expressions of resistance developed in different social cultural and territorial contexts thus shedding additional light on the relationship between order and conflict within early modern European empires Chapter 3 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

Reseña de "'Los dominados y el arte de la resistencia. Discursos ocultos'" de Scott James C. Bruno Lutz Bachère, 2006 Interacting Francoism José M. Faraldo, Gutmaro Gómez Bravo, 2023-06-23 The book presents various investigation into 20th century European dictatorships with its focus on Franco's dictatorship and the Spanish Civil War Francisco Franco's dictatorship in Spain 1936-1939-1975-1978 was a modern form of authoritarianism with a strong totalitarian period like many other dictatorships of the time Francoism occupies a place in history alongside other different dictatorships of its age and a comparative analysis might prove to be a powerful tool in order to understand how in the middle of the 20th century such a repressive and authoritarian form of political control emerged One of the most forgotten fascisms which at the same time was influenced by and influenced other dictatorships there are many aspects of the transnational connections of Francoism that remain under researched Following this methodology thus an attempt is made to situate Francoism in the context of the other dictatorships of the time in an attempt to transcend explanations centered on the nation The chapters cover groundbreaking topics such as the Spanish Civil War as one of the first total wars or Spanish fascism in context as one of the main European totalitarianisms The chapters always have more than one dimension they speak of interrelation entanglement collaboration and diffusion and in general put the different dictatorships essentially Francoism diverse Fascisms and Communism in context and comparison Handbook on Human Security, Borders and Migration Natalia Ribas-Mateos, 2021-02-26 Drawing on the concept of the politics of compassion this Handbook interrogates the political geopolitical social and anthropological processes which produce and govern borders and give rise to contemporary border violence
