

LOSING CONTROL

Global Security in the
Twenty-first Century

Paul Rogers

"A most important book,
all the more convincing
because of its calm and
factual presentation."

Bruce Kent, former President,
International Peace Bureau

Losing Control Global Security In The Twenty First Century

Paul Rogers

Losing Control Global Security In The Twenty First Century:

Losing Control Paul Rogers,2000 A radical analysis of global security which argues that elite societies cannot maintain their power and position in an increasingly divided and environmentally constrained world Losing Control Paul Rogers,2010-04-15 When *Losing Control* was first published a decade ago it was years ahead of its time Its argument was simple the real causes of global insecurity were the widening socio economic divide global marginalization and environmental limitations especially climate change and conflict over energy resources Paul Rogers one of the most original thinkers on international security pointed to a world in which irregular warfare from the margins would prevent powerful states from maintaining their position He even predicted accurately how the United States would respond to a catastrophic attack The new edition brings the whole analysis right up to date arguing persuasively that the world s elite cannot maintain control and that a far more emancipatory and sustainable approach to global security has to be developed The Palgrave Encyclopedia of Global Security Studies ,2023-02-15 This encyclopedia provides an authoritative guide intended for students of all levels of studies offering multidisciplinary insight and analysis of over 500 headwords covering the main concepts of Security and Non traditional Security and their relation to other scholarly fields and aspects of real world issues in the contemporary geopolitical world Losing Control Paul Rogers,2010-03-03 When *Losing Control* was first published a decade ago it was years ahead of its time Its argument was simple the real causes of global insecurity were the widening socio economic divide global marginalisation and environmental limitations especially climate change and conflict over energy resources Paul Rogers one of the most original thinkers on international security pointed to a world in which irregular warfare from the margins would prevent powerful states from maintaining their position He even predicted accurately how the United States would respond to a catastrophic attack The new edition brings the whole analysis right up to date arguing persuasively that the world s elite cannot maintain control and that a far more emancipatory and sustainable approach to global security has to be developed American Journal of Islamic Social Sciences 21:3 Christopher Allen,Tahir Abbas,Halil Ibrahim Yenigun,Nancy Gallagher,Nancy L. Stockdale,Jasmin Zine, The American Journal of Islamic Social Sciences AJISS is an interdisciplinary journal that publishes a wide variety of scholarly research on all facets of Islam and the Muslim world anthropology economics history philosophy and metaphysics politics psychology religious law and traditional Islam Submissions are subject to a blind peer review process *Understanding Global Security* Peter Hough,2014-01-03 Fully revised to incorporate recent developments this third edition of *Understanding Global Security* analyses the variety of ways in which people s lives are threatened and or secured in contemporary global politics The traditional focus of Security Studies texts war deterrence and terrorism are analysed alongside non military security issues such as famine crime disease disasters environmental degradation and human rights abuses to provide a comprehensive survey of how and why people are killed in the contemporary world New to this edition Greater coverage of the evolving theoretical literature on security

including more analysis of critical theory perspectives and emerging schools of thought A revamp of the sections examining the causes of inter state war and counter terrorism strategies Analysis of key recent developments including the global economic recession Haiti earthquake of 2010 and Fukushima nuclear disaster of 2011 New quantitative analysis of the impact of global crime and environmental change Greater evaluation of the divergences in how human security is interpreted and the future prospects for this way of thinking and acting in international relations User friendly and easy to follow this textbook is designed to make a complex subject accessible to all Key features include Top ten tables highlighting the most destructive events or forms of death in that areas throughout history Boxed descriptions elaborating key concepts in the fields of security and International Relations Biographical boxes of key individuals who have shaped security politics Further reading and websites at the end of each chapter guiding you towards the most up to date information on the various topics Glossary of political terminology This highly acclaimed and popular academic text will continue to be essential reading for everyone interested in security

Environmental Security Peter Hough, 2021-06-29 This textbook offers a student friendly survey of the global politics of the environment through the prism of security studies This book is divided into three thematic sections The first part sets out the key theoretical and practical arguments for and against bringing together environmental and security issues The second part examines why environmental issues have been framed by some as national security concerns in the context of the effects of overpopulation resource depletion climate change and the role of the military as both a cause and a solution to problems of pollution and natural disasters Finally the third section explores the case for treating the key issues of environmental change as matters of human security The chapters have been updated to include the 2015 Paris Climate Change Accords the Trump and Sendai Framework for Disaster Risk Reduction and there is a new chapter on environmental history Overall the book provides a clear systematic and thorough overview of an area of great academic and real world political interest This book will be essential reading for students of environmental studies critical and human security human geography development studies and International Relations in general

Research Handbook on Intellectual Property and Climate Change Joshua D. Sarnoff, 2016-04-29 Written by a global group of leading scholars this wide ranging Research Handbook provides insightful analysis useful historical perspective and a point of reference on the controversial nexus of climate change law and policy intellectual property law and policy innovation policy technology transfer and trade The contributors provide a unique review of the scientific background international treaties and political and institutional contexts of climate change and intellectual property law They further identify critical conflicts and differences of approach between developed and developing countries Finally they put forward and analyse the relevant intellectual property law doctrines and policy options for funding developing disseminating and regulating the required technologies and their associated activities and business practices The book will serve as a resource and reference tool for scholars policymakers and practitioners looking to understand the issues at the interface of intellectual property and climate

change The Limits of Global Governance Jim Whitman, 2005 This book provides a thorough overview of global governance exploring the key conceptual issues and illustrating them with international case studies as well as offering a provocative critique of the research in the field **Rethinking World Politics** Philip G. Cerny, 2010-03-24 Rethinking World Politics is a major intervention into a central debate in international relations how has globalization transformed world politics Most work on world politics still presumes the following in domestic affairs individual states function as essentially unified entities and in international affairs stable nation states interact with each other In this scholarship the state lies at the center it is what politics is all about However Philip Cerny contends that recent experience suggests another process at work transnational neopluralism In the old version of pluralist theory the state is less a cohesive and unified entity than a varyingly stable amalgam of competing and cross cutting interest groups that surround and populate it Cerny explains that contemporary world politics is subject to similar pressures from a wide variety of sub and supra national actors many of which are organized transnationally rather than nationally In recent years the ability of transnational governance bodies NGOs and transnational firms to shape world politics has steadily grown Importantly the rapidly growing transnational linkages among groups and the emergence of increasingly influential even powerful cross border interest and value groups is new These processes are not replacing nation states but they are forging new transnational webs of power States he argues are themselves increasingly trapped in these webs After mapping out the dynamics behind contemporary world politics Cerny closes by prognosticating where this might all lead Sweeping in its scope Rethinking World Politics is a landmark work of international relations theory that upends much of our received wisdom about how world politics works and offers us new ways to think about the forces shaping the contemporary world **Environmental Security** Rita Floyd, Richard Matthew, 2013-01-04 Economic development population growth and poor resource management have combined to alter the planet's natural environment in dramatic and alarming ways For over twenty years considerable research and debate have focused on clarifying or disputing linkages between various forms of environmental change and various understandings of security At one extreme lie sceptics who contend that the linkages are weak or even non-existent they are simply attempts to harness the resources of the security arena to an environmental agenda At the other extreme lie those who believe that these linkages may be the most important drivers of security in the 21st century indeed the very future of humankind may be at stake This book brings together contributions from a range of disciplines to present a critical and comprehensive overview of the research and debate linking environmental factors to security It provides a framework for representing and understanding key areas of intellectual convergence and disagreement clarifying achievements of the research as well as identifying its weaknesses and gaps Part I explores the various ways environmental change and security have been linked and provides principal critiques of this linkage Part II explores the linkage through analysis of key issue areas such as climate change energy water food population and development Finally the book concludes with a discussion of the value of this

subfield of security studies and with some ideas about the questions it might profitably address in the future This volume is the first to provide a comprehensive overview of the field With contributions from around the world it combines established and emerging scholars to offer a platform for the next wave of research and policy activity It is invaluable for both students and practitioners interested in international relations environment studies and human geography *Security and Environment in the Mediterranean* Hans Günter Brauch, Peter H. Liotta, Antonio Marquina, Paul F. Rogers, Mohammad El-Sayed Selim, 2012-12-06 In this volume security specialists peace researchers environmental scholars demographers as well as climate desertification water food and urbanisation specialists from the Middle East and North Africa Europe and North America review security and conflict prevention in the Mediterranean They also analyse NATO's Mediterranean security dialogue and offer conceptualisations on security and perceptions of security challenges as seen in North and South The latter half of the book analyses environmental security and conflicts in the Mediterranean and environmental consequences of World War II the Gulf War the Balkan wars and the Middle East conflict It also examines factors of global environmental change population growth climate change desertification water scarcity food and urbanisation issues as well as natural disasters Furthermore it draws conceptual conclusions for a fourth phase of research on human and environmental security and peace as well as policy conclusions for cooperation and partnership in the Mediterranean in the 21st century

Corporate Security Surveillance Richard J. Chasdi, 2024-03-05 In a world of globalization and technological change terrorism continues to pose grave threats not only to more traditional targets such as civilians and government targets but according to many experts increasingly to multinational corporations and other international economic enterprises This book broadens the understanding of the threats posed to the private sector thereby helping business executives in charge of security affairs prepare for new threats and unconventional threats in a continuously evolving world Chasdi's Terrorist Assault Business Vulnerability Index TABVI now provides C class executives with a way to measure potential host country and host country industry vulnerability and thus contributes a critical new standard to help appraise where and when MNCs and other international enterprises should marshal Foreign Direct Investment FDI and other resources In addition his statistical findings about different country operational environments work to frame TABVI findings and provide in depth understandings of risk in several different potential host countries While the focus is on traditional terrorist groups and criminal syndicalist organizations that use terrorism in particular developing world host countries Chasdi's research also informs the business community about the context of political issues of contention defined by terrorist groups and their constituent supporters Business leaders government officials at national and local government levels the academic community and the media benefit from ideas proposed in this book Brian M Jenkins writes a carefully reasoned comprehensive and insightful Foreword that describes the importance of this topic about Chasdi he writes I am an admirer of his uniquely imaginative approaches and always rigorous analysis His work is invariably intellectually challenging and

thought provoking Read on *Contemporary Conflict Resolution* Oliver Ramsbotham, Tom Woodhouse, Hugh Miall, 2005-12-08 Offering an assessment of the theory and practice of conflict resolution in post Cold War conflicts this book addresses a number of questions It explores the nature of contemporary conflict and the development of conflict resolution

Globalization and Security G. Honor Fagan, Ronaldo Munck, 2009-10-27 A unique set provides an up to date overview of the impact of globalization on international security by examining how the interrelationships of economics politics and culture determine levels of stability within regions around the world Globalization and Security An Encyclopedia addresses the need for an authoritative but accessible analysis of the impact of globalization on security and its multifaceted aspects Broad in scope this two volume set covers the economic and political aspects of globalization as well as its social and cultural impacts More importantly it is the first work to focus explicitly on security including human security broadly conceived and the role that globalization plays in the world s new and ever evolving security environment While more books on globalization are becoming available none focus on the impact of globalism on security related issues as this set does Drawing on the expertise of specialists from many disciplines and nations Globalization and Security directly addresses the needs of one of the fastest growing areas of study the intersection of globalization and security worldwide

Vulnerability and Violence Peadar Kirby, 2005-12-20 Vulnerability is now a key term in globalisation studies It is used to describe how globalisation impacts on individual security local communities and even global flows of trade finance and investment Yet there has been little attempt to interrogate the term and what it is trying to express about globalisation Peadar Kirby examines what is really meant by vulnerability and links it to new forms of violence that have resulted from decreased security and social cohesion He argues that vulnerability and violence are characteristic features of a new world order dominated by neoliberal globalisation Illustrating his argument with a wealth of examples taken from all over the world from the sudden collapse of the middle class in Argentina to increased levels of poverty internationally he offers a robust theoretical grounding that will be of use to anyone studying vulnerability and violence and their relation to contemporary globalisation

Design and impact of water treaties Matthew Zentner, 2011-10-13 This study presents a unique way to utilize the existing literature to explain the success of treaties in managing hydrologic stress Literature derived core concepts are summarized as seven treaty mechanisms categories specificity uncertainty management enforcement communications flexibility integrativeness and scale and are hypothesized as important for shaping the institutional resiliency of a treaty Treaty design is shown to have a relevant and important role in shaping basin management so that nations may better achieve their goals in a changing climate

Geopolitics Jason Dittmer, Jo Sharp, 2014-06-27 It has been increasingly impossible to think about our changing world without coming across the term geopolitics In the wake of the invasion and occupation of Iraq by the United States United Kingdom and others geopolitics has been offered as an explanation for the occupation s failure to reinvent the Iraqi state and as a blueprint for future action But what is geopolitics Drawing both on academic and political material this book

introduces readers to the concept of geopolitics from the first usage of the term to its more recent reconceptualisations The concept of geopolitics is introduced through four thematic sections Imperial Geopolitics Cold War Geopolitics Geopolitics after the Cold War and Reconceptualising Geopolitics Each section includes key writings from a range of diverse and leading authors such as Said Agnew Dalby O Tuathail Gregory Barnett and Kaplan and is accompanied by a critical introduction by the editors to guide the reader through the material This Reader establishes the foundations of geopolitics while also introducing readers to the continuing significance of the concept in the 21st century This Reader provides an essential resource that exposes students to original writing The Editors provide a pathway through the material with Section Introductions to assist the readers understanding of the context of the material and impacts of the writings The readings included draw from a range of authors writing from a range of locations The Reader concludes with the latest changes in geopolitical thought incorporating feminist and other perspectives

Beyond Terror Chris Abbott, John Sloboda, Paul Rogers, 2011-11-30 Is international terrorism really the single greatest threat to world security Since the 9 11 attacks many Western governments assume terrorism to be the greatest threat we face In response their dangerous policies attempt to maintain control and keep the status quo by using overwhelming military force This important book shows why this approach has been such a failure and how it distracts us from other much greater threats of climate change competition over resources marginalisation of the majority of the world and global militarisation Unless urgent coordinated action is taken in the next 5 10 years on all these issues it will be almost impossible to avoid the earth becoming a highly unstable place by the middle years of this century Beyond Terror offers an alternative path for politicians journalists and concerned citizens alike

Global Political Economy John Ravenhill, 2008 An authoritative introduction to Global Political Economy The book covers all bases contemporary theory introductions to particular issue areas and an extended debate on globalization that reflects a variety of perspectives The book is accompanied by an Online Resource Centre Student resources Timeline Web links Glossary Instructor resources Tables and figures from the book to download 2 in depth case studies

Losing Control Global Security In The Twenty First Century Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Losing Control Global Security In The Twenty First Century PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Losing Control Global Security In The Twenty First Century PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property.

rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Losing Control Global Security In The Twenty First Century free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Losing Control Global Security In The Twenty First Century Books

1. Where can I buy Losing Control Global Security In The Twenty First Century books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores.
