Dominus Mundi Pier Giuseppe Monateri, 2018-09-06 This monograph makes a seminal contribution to existing literature on the importance of Roman law in the development of political thought in Europe In particular it examines the expression dominus mundi following it through the texts of the medieval jurists the Glossators and Post Glossators up to the political thought of Hobbes Understanding the concept of dominus mundi sheds light on how medieval jurists understood ownership of individual things it is more complex than it might seem and this book investigates these complexities The book also offers important new insights into Thomas Hobbes especially with regard to the end of dominus mundi and the replacement by Leviathan Finally the book has important relevance for contemporary political theory With fading of political diversity Monateri argues that the actual setting of globalisation represents the reappearance of the Ghost of the Dominus Mundi a political refool repressed a reappearance of its sublime nature and a struggle to restore its universal legitimacy and take its place In making this argument the book adds an important original vision to current debates in legal and political philosophy

Signs and Cities Madhu Dubey, 2007-11-01 Signs and Cities is the first book to consider what it means to speak of a postmodern moment in African American literature Dubey argues that for African American studies postmodernity best names a period beginning in the early 1970s marked by acute disenchantment with the promises of urban modernity and of print literacy Dubey shows how black novelists from the last three decades have reconsidered the modern urban legacy and thus articulated a distinctly African American strain of postmodernism She argues that novelists such as Octavia Butler Samuel Delany Toni Morrison Gloria Naylor Ishmael Reed Sapphire and John Edgar Wideman probe the disillusionment of urban modernity through repeated recourse to tropes of the book and scenes of reading and writing Ultimately she demonstrates that these writers view the book with profound ambivalence construing it as an urban medium that cannot

recapture the face to face communities assumed by oral and folk forms of expression
