U S Senate s ratification of enlargement Asmus documents how the Clinton Administration sought to develop a rationale for a new NATO that would bind the U S and Europe together as closely in the post Cold War era as they had been during the fight against communism For the Clinton Administration NATO enlargement became the centerpiece of a broader agenda to modernize the U S European strategic partnership for the future That strategy reflected an American commitment to the spread of democracy and Western values the importance attached to modernizing Washington s key alliances for an increasingly globalized world and the fact that the Clinton Administration looked to Europe as America s natural partner in addressing the challenges of the twenty first century As the Alliance weighs its the future following the September 11 terrorist attacks on the U S and prepares for a second round of enlargement this book is required reading about the first post Cold War effort to modernize NATO for a new era
