Magic Shop:

The Magic Shop Ishiqaa Mishra, 2022-07-30 When we say memories the instant thought which arises in our brain is the happy days of our lives Those happy days which we have spent with our favourite person But is it always about the person and not about the place And if it is so what if that cherished place of yours becomes the reason of your torment Shama is a 25 years old girl living her life at the country side She owns a little bookstore The magic shop which is her forever comfort place and also the source of her lively hood It has been eight long years since she has stepped into the town The town which once used to be her most cherished place has now left her with no reasons to return back One common day while she is on her way to close her book store she finds a diary into the crowd of several books The diary belongs to her good old days of the town Those days when she used to enjoy every single moment of her school days with her friends and love Turning those pages she is reminded of her past days and there where the story begins The Novella The Magic Shop is a fusion of the present and the past The whole of the story is a reflection of the past happenings which connects the present You have to be a little attentive while reading to make out which past incidence is relating to its present scene indicates the termination of the present tale and excites the reader for the beginning of the history
