Mail Art Collection Sarah Jackson, 1982 Small Scale Subversion: Mail Art & Artistamps John Held Jr., 2015 Although increasingly appreciated in fine art and stamp collecting circles artist postage stamps or artistamps are more likely to be traded between the people who create them than they are to be exhibited in commercial art galleries or read about in philatelic journals Artistamps are part and parcel of the grassroots network known as Mail Art an alternative art of creative long distance communication that intuited the demand for cross cultural exchange long before the Internet Although seemingly rigid the postage stamp format allows flexible approaches in painting watercolor offset photography photocopy rubber stamping engraving digitization and sculpture **Brain in the Mail**, 1980 *Email and the Everyday* Esther Milne, 2024-07-02 An exploration of how email is experienced understood and materially structured as a practice spanning our everyday domestic and work lives Despite its many obituaries email is not dead As a global mode of business and personal communication email outstrips newer technologies of online interaction it is deeply embedded in our everyday lives And yet perhaps because the ubiquity of email has obscured its study this is the first scholarly book devoted to email as a key historical social and commercial site of digital communication in our everyday lives In *Email and the Everyday* Esther Milne examines how email is experienced understood and materially structured as a practice spanning the domestic and institutional spaces of daily life Email experiences range from the routine and banal to the surprising and shocking Drawing on interviews and online surveys Milne focuses on both the material and the symbolic properties of email She maps the development of email as a technology and as an industry considers institutional uses of email including bureaucratic intensity of workplace email and the continuing vibrancy of email groups and examines what happens when private emails end up in public archives discussing the Enron email dataset and Hillary Clinton's infamous private server Finally Milne explores the creative possibilities of email connecting eighteenth century epistolary novels to contemporary email novels discussing the vernacular expression of ASCII art and mail art and examining email works by Carl Steadman Miranda July and others
