Suburban Alchemy Nicholas Dagen Bloom, 2001 In *Suburban Alchemy* 1960s New Towns and the Transformation of the American Dream Nicholas Dagen Bloom examines the new town movement of the 1960s which sought to transform the physical and social environments of American suburbs by showing that idealism could be profitable Bloom offers case studies of three of the movement's more famous examples Reston Virginia Columbia Maryland and Irvine California to flesh out his historical account In each case innovative planners mixed land uses and housing types refined architectural graphic and landscape design offered well defined village and town centers and pioneered institutional planning As Bloom demonstrates these efforts did not uniformly succeed and attempts to reshape community life through design notably faltered However despite frequent disappointments and compromises the residents have kept the new town ideals alive for over four decades and produced a vital form of suburban community that is far more complicated and interesting than the early vision promoted by the town planners Lively chapters illustrate efforts in local politics civic spirit social and racial integration feminist innovations and cultural sponsorship

Suburban Alchemy should be of interest to scholars of U S urban history planning history and community development as well as the general reader interested in the development of alternative communities in the United States

Visions of Place Zane L. Miller, 2001 These structural shifts involved a variety of familiar nineteenth and twentieth century urban phenomena including not only the switch from suburban village to city neighborhood and the salience of interracial fears but also the rise of formal city planning and conflicts among Protestants Catholics and Jews over the future of Clifton's religious and ethnic ambiance

Annals of Iowa, 1999 **Boss Cox's Cincinnati** Zane L. Miller, 2000 Miller carefully explores both the nature and the significance of bossism showing how it and municipal reform were both essential components of the modern

urban political system *Merchant of Illusion* Nicholas Dagen Bloom, 2004 **A Right to Representation** Kathleen L. Barber, 2000 From this practice stems the endemic underrepresentation of minorities in our political life Enforcement of the Voting Rights Act has led to increased minority electoral success but the strategy most commonly used creation of majority minority districts has come under attack in the Supreme Court America, History and Life , 2001 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide **Cincinnati in 1840** Walter Glazer, 1999 During the pre Civil War period Cincinnati was the fastest growing and according to many contemporary observers most interesting city in America This classic study completed in the early 1970s focusses on the community in 1840 to explain its success but also to suggest some broader patterns in the city s development and American urbanization Using local census records city directories Walter Stix Glazer describes the demographic social economic and political structure of the adult white male population in 1840 and then develops a unified model of its social and functional organizations This analysis based on computerized records of thousands of Cincinnatians also documents some broader trends between 1820 and 1860 the volatility of Cincinnati s labor force the career patterns of its homeowners and the leadership of a small group of successful citizens active in a broad range of voluntary associations This statistical analysis is complemented with sections of traditional historical narrative and biographical profiles that illustrate the general themes of the book Glazer argues that Cincinnati s success up to 1840 was due to a unified booster vision and a cohesive community elite that gradually broke down as a result of ethnic and economic division over the next twenty years This story has broader implications in terms of the character of Jacksonian democracy and American urbanization
