**The Quest for Identity in so-called Mainline Churches in South Africa** Ernst M Conradie, John Klaasen, 2014-05-01 This volume of essays forms part of a series on the interface between ecumenical theology and social ethics in the South African context This contribution is the result of a public conference hosted at the University of the Western Cape in May 2013 under the same title It explores the quest for identity in so called mainline churches in South Africa given the history of the establishment of various denominations of mainly European origin in Southern Africa ecumenical efforts to find common ground between such churches and breakaway movements among independent and Pentecostal churches where this search for identity is evidently found wanting

**Change and Conflict in the U.S. Army Chaplain Corps since 1945** Anne Loveland, 2014-07-30 Army chaplains have long played an integral part in America s armed forces In addition to conducting chapel activities on military installations and providing moral and spiritual support on the battlefield they conduct memorial services for fallen soldiers minister to survivors offer counsel on everything from troubled marriages to military bureaucracy and serve as families points of contact for wounded or deceased soldiers all while risking the dangers of combat alongside their troops In this thoughtful study Anne C Loveland examines the role of the army chaplain since World War II revealing how the corps has evolved in the wake of cultural and religious upheaval in American society and momentous changes in U S strategic relations warfare and weaponry From 1945 to the present Loveland shows army chaplains faced several crises that reshaped their roles over time She chronicles the chaplains initiation of the Character Guidance program as a remedy for the soaring rate of venereal disease among soldiers in occupied Europe and Japan after World War II as well as chaplains response to the challenge of increasing secularism and religious pluralism during the culture wars of the Vietnam Era Religious accommodation evangelism and proselytizing public prayer and spiritual fitness provoked heated controversy among chaplains as well as civilians in the ensuing decades Then early in the twenty first century chaplains themselves experienced two crisis situations one the result of the Vietnam era antichaplain critique the other a consequence of increasing religious pluralism secularization and sectarianism within the Chaplain Corps as well as in the army and the civilian religious community By focusing on army chaplains evolving sometimes conflict ridden relations with military leaders and soldiers on the one hand and the civilian religious community on the other Loveland reveals how religious trends over the past six decades have impacted the corps and in turn helped shape American military culture

**American Evangelicals and the 1960s** Axel R. Schäfer, 2013-08-23 In the late 1970s the New Christian Right emerged as a formidable political force boldly announcing itself as a unified movement representing the views of a moral majority But that movement did not spring fully formed from its predecessors American Evangelicals and the 1960s refutes the thesis that evangelical politics were a purely inflammatory backlash against the cultural and political upheaval of the decade Bringing together fresh research and

innovative interpretations this book demonstrates that evangelicals actually participated in broader American developments during the long 1960s that the evangelical constituency was more diverse than often noted and that the notion of right wing evangelical politics as a backlash was a later creation serving the interests of both Republican conservative alliances and their critics Evangelicalism's involvement with rather than its reaction against the main social movements public policy initiatives and cultural transformations of the 1960s proved significant in its 1970s political ascendance Twelve essays that range thematically from the oil industry to prison ministry and from American counterculture to the Second Vatican Council depict modern evangelicalism both as a religious movement with its own internal dynamics and as one fully integrated into general American history

**Evangelical Theories of Biblical Inspiration** Kern Robert Trembath, 1987-12-03 The inspiration of the Bible is central to Christian faith yet there is no general agreement on the nature of this inspiration In this provocative book Kern Robert Trembath reviews seven major evangelical explanations of inspiration and demonstrates that all either view the Bible itself as the actual recipient of inspiration or explain biblical authority on grounds more appropriate to the doctrine of God in effect investing the Bible with characteristics that properly belong only to God Building on the work of William Abraham Trembath constructs his own theory of inspiration one that regards inspiration as a tripartite concept involving the elements of initiator means and receiver He insists that only a human being can be the recipient of inspiration and that the Bible must therefore be understood as the means rather than the end of the process He goes on to articulate a new definition of biblical inspiration as a mediated enhancement of human experience by God through the Bible and argues that this new understanding of inspiration is most compatible with a Thomistic doctrine of God which insists that God's acts are mediated through the world rather than immediately occurring in it

**Reformed Theology in America** David F. Are Southern Baptists "Evangelicals"? James Leo Garrett, E. Glenn Hinson, James E. Tull, 1983      *The Rise and Fall of the Religious Left* L. Benjamin Rolsky, 2019-11-12 For decades now Americans have believed that their country is deeply divided by culture wars waged between religious conservatives and secular liberals In most instances Protestant conservatives have been cast as the instigators of such warfare while religious liberals have been largely ignored In this book L Benjamin Rolsky examines the ways in which American liberalism has helped shape cultural conflict since the 1970s through the story of how television writer and producer Norman Lear galvanized the religious left into action The creator of comedies such as *All in the Family* and *Maude* Lear was spurred to found the liberal advocacy group People for the American Way in response to the rise of the religious right Rolsky offers engaged readings of Lear's iconic sitcoms and published writings considering them as an expression of what he calls the spiritual politics of the religious left He shows how prime time television became a focus of political dispute and demonstrates how Lear's emergence as an interfaith activist catalyzed ecumenical Protestants Catholics and Jews who were determined to push back against conservatism's ascent Rolsky concludes that Lear's political involvement exemplified religious liberals' commitment to engaging politics on explicitly moral grounds in defense of what they saw as the public interest An interdisciplinary analysis of the definitive cultural clashes of our fractious times *The Rise and Fall of the Religious Left* foregrounds the foundational roles played by popular culture television and media in America's religious history
