Maintaining Order, Making Peace O. Richmond, 2001-12-17 This study explores three generations of approaches to ending conflict and examines how in the context of the failings of the Westphalian international system their peacekeeping mediation and negotiation conflict resolution and peacebuilding approaches as well as UN peace operations and asks via an empirical and theoretical analysis what role such approaches have played and are playing in replicating an international system prone to intractable forms of conflict

Peace Formation and Political Order in Conflict Affected Societies Oliver P. Richmond, 2016 International actors including key states like the US and organizations such as the UN EU African Union and World Bank and a range of NGOs have long been confronted with the question of how to achieve an emancipatory form of peace This book argues that locally negotiated peace agreements offer important navigation points for policymakers and also provide the crucial and so far often missing legitimacy for wider peacebuilding and statebuilding

Peace Operations and Global Order Alex J. Bellamy, Paul Williams, 2014-01-02 Peacekeeping in Global Politics investigates the changing role of peacekeeping and competing perspectives about what that role should be It begins by addressing broad issues connected with the transition from a Westphalian to post Westphalian international society the ethical and legal dilemmas provoked by armed intervention and the alternative ways of conceptualising the role that peacekeeping plays It goes on to critically chart the development of traditional peacekeeping before outlining how the role of force in peacekeeping operations has changed and the close links between peacekeeping conflict prevention and conflict resolution The final part of the volume focuses specifically on globalization and the effects that this has had on peacekeeping practices In particular it focuses on the changing conflict environment the growing tendency towards subcontracting peacekeeping duties and the development of regional peacekeeping capabilities Overall this volume makes two contributions to the way we think about peacekeeping first it demonstrates that the theory and practice of peacekeeping is embedded in global politics and second it shows that there is an on going debate about what peacekeeping is for

Gendered Agency in War and Peace Maria O'Reilly, 2017-11-03 This book examines how gendered agency emerges in peacebuilding contexts It develops a feminist critique of the international peacebuilding interventions through a study of transitional justice policies and practices implemented in Bosnia Herzegovina and local activists responses to official discourses surrounding them Extending Nancy Fraser's tripartite model of justice to peacebuilding contexts the book also advances notions of recognition redistribution and representation as crucial

components of gender just peace It argues that recognising women as victims and survivors of conflict achieving a gender equitable distribution of material and symbolic resources and enabling women to participate as agents of transitional justice processes are all essential for transforming the structural inequalities that enable gender violence and discrimination to materialise before during and after conflict This study establishes a new avenue of analysis for understanding responses and resistances to international peacebuilding by offering a sustained engagement with feminist social and political theory

The Law and Practice of Peacekeeping Rosa Freedman, Nicolas Lemay-Hébert, Siobhán Wills, 2021-06-10 In an increasingly complex world it is more crucial than ever to have a full picture of how international peacekeeping can be a force for good but can also have potentially negative impacts on host communities After thirteen years of presence in Haiti the highly controversial United Nations Stabilization Mission in Haiti has now withdrawn The UN's legacy in Haiti is not all negative but it does include sexual scandals the divisive use of force to clean up difficult neighbourhoods as well as a cholera epidemic brought inadvertently by Nepalese peacekeepers that killed more than 8 000 Haitians and infected more than 600 000 This book presents a unique multi disciplinary analysis of the legacy of the mission for Haiti It presents an innovative account of contemporary international peacekeeping law and practice arguing for a new model of accountability going beyond the outdated immunity mechanisms to foreground human rights *The Oxford Handbook of Peacebuilding, Statebuilding, and Peace Formation* Oliver P. Richmond, Gözim Visoka, 2021 Peacebuilding and statebuilding is one of the main approaches for preventing managing and mitigating global insecurities dealing with the humanitarian consequences of civil wars and expanding democracy and neoliberal economic regimes Peace formation is a relatively new concept addressing how local actors attempt to shape or work in parallel to international and national projects The Oxford Handbook of Peacebuilding Statebuilding and Peace Formation serves as an essential guide to this vast intellectual landscape It offers a systematic overview of conceptual foundations political implications and tensions at the global regional and local levels as well as key policies practices examples and discourses underlining all segments of peacebuilding and statebuilding *The Oxford Handbook of Religion, Conflict, and Peacebuilding* Atalia Omer, R. Scott Appleby, David Little, 2015 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field **Failed Statebuilding** Oliver Richmond, 2014-01-01 Western struggles and failures to create functioning states in countries such as Iraq or Afghanistan have inspired questions about whether statebuilding projects are at all viable or whether they make the lives of their intended beneficiaries better or worse In this groundbreaking book Oliver Richmond asks why statebuilding has been so hard to achieve and argues that a large part of the problem has been Westerners failure to understand or engage with what local peoples actually want and need He interrogates the liberal peacebuilding industry asking what it assumes what it is getting wrong and how it could be more effective **Palgrave Advances in Peacebuilding** O.

Richmond, 2010-01-20 The quality of the peace arrived at via liberal peacebuilding approaches has been poor The related statebuilding praxis has generally been unable to respond to its critics What is at stake is a recognition of peacebuilding's everyday political social economic and cultural dynamics This indicates the emergence of a post liberal form of peace
