Euro-Mediterranean Security: A Search for Partnership Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU s approach towards security in the Mediterranean After examining the EU s interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and co operative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy

and developments both in the Netherlands and abroad are interconnected The world order is shifting the cooperation within NATO and the EU is under pressure and the Dutch armed forces are gasping for breath What is the task of Dutch security and the defence policy There have been growing calls in the last few years to end the devastating cuts in the defence budget and to invest more in security The acute threats and conflicts in which the Netherlands are involved have served as a wake up call The shooting down of Flight MH17 over Ukraine the streams of refugees from Syria and other countries the conflict with Da esh in Syria and Iraq and terrorist threats reveal how events in many of the world s flash points have a direct or indirect impact on the Netherlands Conflicts in other countries have a spill over effect in The Netherlands This is illustrated by tensions between population groups and the clashes over the G len schools after the failed putsch in Turkey on 15 July 2016 and over the constitutional referendum in that country How do we ensure that any additional funds are not divided amongst the branches of the armed forces without any sense of strategic direction What should a future proof security policy that plots the course of defence policy entail What strategic analyses should lie behind the political choices that are made This book answers these questions and offers a comprehensive framework addressing among other things human security national security and flow security
