member with the title of curator or at minimum have tasks that can be classified as curator's work. But understanding what is involved in doing this work is more complicated than it seems. This book will help you to think like a curator. Written by an author who has spent 45 years doing this type of work at one of the largest history museums in the country, this book guides the reader through curatorial methodology in today's world with topics that include reading objects, shaping collections, engaging in rigorous research, the curatorial role in exhibitions, and historic site interpretation, the basics of curatorial writing, and curators as leaders. It gives special focus to applying DEI lenses as well as aligning with institutional mission and goals, incorporating audience perspectives, and using conceptual and systems thinking. Both succinct and substantial, this book includes easy explanations, step-by-step process guides, practical tips, real-life examples, activities, and source lists.
