The Study of Nonprofit Enterprise Helmut K. Anheier, Avner Ben-Ner, 2012-12-06 This volume addresses the need to revisit the economic theories from the last two decades that have contributed to the development of a concentrated research agenda on nonprofit organizations Long neglected as a topic of theorizing and empirical investigation by mainstream economics in particular these initial theories of nonprofit organizations from the late 1970s and early 1980s continue to shape theoretical and conceptual efforts Importantly their influence extends beyond economics and informs sociological and political science approaches to the set of organizations and institutions located between the market firm and the state agency as well While the theoretical map of nonprofit research has expanded beyond these early attempts and now include several other major theories such as stakeholder approaches supply side or entrepreneurial theories institutional theories and comparative approaches This work suggests that it is time to take stock and reexamine some of the basics from which these economic theories operate

Subcommittee on Select Revenue Measures,1995 **Education for Tomorrow's Jobs** National Research Council,Division of Behavioral and Social Sciences and Education,Commission on Behavioral and Social Sciences and Education,Committee on Vocational Education and Economic Development in Depressed Areas,1983-02-01 The ways in which vocational education can be strengthened to contribute most effectively to national education and economic goals are the subject of this book It discusses changes in the economy and in the nature of jobs that affect the skills needed in the workplace unemployment conditions particularly among the young and the educational implications of these changes and conditions The book takes a critical look at vocational education evaluating the strengths and weaknesses of the system and makes specific recommendations for its improvement **Eclipse of Justice** George E. McCarthy,Royal W. Rhodes,2008-12-21 A sociologist and a church historian provide a probing scholarly critique of Economic Justice for All the American bishops pastoral letter on Catholicism and the U S economy McCarthy and Rhodes examine the letter s focus on poverty inequality and powerlessness in American society They review classical concepts of social ethics and economic justice as applied by the bishops to analyze the social political and economic institutions of American By examining reactions to the letter from both the political left and right Eclipse of Justice opens up the full range of debate about the

nature of social ethics The first part of *Eclipse of Justice* presents the moral dilemma created by the bishops critique of liberalism they pronounced it a social and moral scandal and explores the antecedents papal episcopal and lay that provided the ideas and vocabulary for the bishops letter The second part analyzes the pastoral letter and locates it within the larger context of debates about economic structures in modern liberalism The third part examines attempts of the bishops to relate Christian social doctrine to international political and economic issues and probes the contributions of liberation theology and dependency theory *Gerontological Social Work Practice in the Community* George S. The Social Contract Revisited D. Lee Bawden, 1984 **Housing and Planning References**, 1983 *Backlash against Welfare Mothers* Ellen Reese, 2005-07-29 *Backlash against Welfare Mothers* is a forceful examination of how and why a state level revolt against welfare begun in the late 1940s was transformed into a national level assault that destroyed a critical part of the nation's safety net with tragic consequences for American society With a wealth of original research Ellen Reese puts recent debates about the contemporary welfare backlash into historical perspective She provides a closer look at these early antiwelfare campaigns showing why they were more successful in some states than others and how opponents of welfare sometimes targeted Puerto Ricans and Chicanos as well as blacks for cutbacks Her research reveals both the continuities and changes in American welfare opposition from the late 1940s to the present Reese brings new evidence to light that reveals how large farmers and racist politicians concerned about the supply of cheap labor appealed to white voters racial resentments and stereotypes about unwed mothers blacks and immigrants in the 1950s She then examines congressional failure to replace the current welfare system with a more popular alternative in the 1960s and 1970s which paved the way for national assaults on welfare Taking a fresh look at recent debates on welfare reform she explores how and why politicians competing for the white vote and right wing think tanks promoting business interests appeased the Christian right and manufactured consent for cutbacks through a powerful racially coded discourse Finally through firsthand testimonies Reese vividly portrays the tragic consequences of current welfare policies and calls for a bold new agenda for working families
