of Research on Educational Leadership for Equity and Diversity is the first research based handbook that comprehensively addresses the broad diversity in U S schools by race ethnicity culture language gender disability sexual identity and class The Handbook both highly values the critically important strengths and assets that diversity brings to the United States and its schools yet at the same time candidly critiques the destructive deficit thinking biases and prejudices that undermine school success for many groups of students Well known chapter authors explore diversity and related inequities in schools and the achievement problems these issues present to school leaders Each chapter reviews theoretical and empirical evidence of these inequities and provides research based recommendations for practice and for future research Celebrating the broad diversity in U S schools the Handbook of Research on Educational Leadership for Equity and Diversity critiques the inequities connected to that diversity and provides evidence based practices to promote student success for all children

Working with Multiracial Students Kendra R. Wallace, 2006-09-01 Working with Mixed Heritage Students offers a collection of writings that bridges the social science and educational literature related to mixed heritage identity development and schooling in diverse contexts As such it is the first book of its kind to provide a direct focus on multiracial ethnic identity and formal education in the United States based on the scholarship of educational researchers The two common threads linking the chapters are the flexible yet situated nature of ethnic and racial identities among mixed heritage students and the importance of theorizing social contexts when interpreting and representing identity community and belonging In addition to exploring general themes of identity development Working with Mixed Heritage Students addresses theoretical and methodological issues in conducting research on topics related to mixed heritage students as well as implications for teacher preparation and educational practice Ultimately the authors brought together in this volume share a focus on recently mixed heritage students of first or second or third generation multiracial and multiethnic descent This diversity of perspectives on such a complex topic creates a tension within the book one that naturally emerges through interdisciplinary collaboration But it is hoped that this tension is just one of many that will lead to further reflection dialogue and action by researchers and educators working with like populations *Mixed-Race Youth and Schooling* Sandra Winn Tutwiler, 2016-01-29 This timely in depth examination of the educational experiences and needs of mixed race children the fifth minority focuses on the four contexts that primarily influence learning and development the family school community and society at large The book provides foundational historical social political and psychological information about mixed race children and looks closely at their experiences in schools their identity formation and how schools can be made more supportive of their development and learning needs Moving away from an essentialist discussion of mixed race children a wide variety of research is included Life and schooling experiences of mixed raced individuals are profiled throughout the text Rather than pigeonholing children into a neat box of descriptions or providing readymade prescriptions for educators Mixed Race Youth and Schooling offers information and encourages teachers to critically reflect on how it is relevant to and
