Kamler,2019-02-26 The international movement against the trafficking of women which has gained momentum over the past two decades is driven largely by the United States in tandem with state governments and NGO workers Feminist organizations have played a key role in carrying out anti trafficking policies but are increasingly divided over what those policies should look like The primary divide exists between those feminists who want to abolish prostitution as a key link to trafficking and those who argue that what sex workers need is not to have their livelihoods taken away through paternalistic policies but improved working conditions to alleviate the dangers associated with their work A primary criticism of US NGO workers well intentioned as they may be is that they misunderstand the cultural and economic conditions of the women they purport to help This book provides a unique response to this misunderstanding On one level it shows how this movement is in fact based on a Western mindset that problematizes women and puts its own interests before those of the women it is trying to help But the project s primary innovation is in the method that it develops to explore the conflict of cultural values that gives rise to the aforementioned debates what Erin M Kamler calls Dramatization as Research DAR Through writing and producing Land of Smiles a musical inspired by field research that includes over fifty interviews with female migrant laborers sex workers activists NGO employees and other members of the anti trafficking movement Kamler presents one of the dominant stories about human trafficking and critiques the discourse about the trafficking of women in Thailand The book examines how the musical aimed to facilitate communication between stakeholders in the anti trafficking movement in Thailand and prime a dialogue to explore the policies practices and outcomes of actions in this environment Through researching writing and producing the musical for the individuals on whose experiences the story of the musical is based Kamler shows how the arts can be used as a feminist communication intervention and a vehicle for understanding the cultural dimension of human rights **Herd Register** American Jersey Cattle Club,1929 **Molvie's Children** Brian Whyte,2010 Molvie s Children is a novel written entirely in rhyme It begins with Molvie going to collect Andrew from a family that has been looking after him since he was a baby Andrew discovers that he is part of a special group who have been cared for by humans Now as they stand on the threshold of adulthood they are taken to the Scottish highlands to be trained in a variety of disciplines and find their individual special powers Earth is a planet with multiple planes and life forms exist other than those that we already know Even in our own plane other life exists which is mostly unknown to mankind They are descendants of an ancient race whose purpose is to preserve human life They cannot readily be
