Megacity Management in the Asian and Pacific Region Regional Seminar on Megacities Management in Asia and the Pacific,1996 **Global City-Regions** Allen J. Scott,2001-01-25 There are now more than three hundred city regions around the world with populations greater than one million These city regions are expanding vigorously and they present many new and deep challenges to researchers and policy makers in both the more developed and less developed parts of the world The processes of global economic integration and accelerated urban growth make traditional planning and policy strategies in these regions increasingly inadequate while more effective approaches remain largely in various stages of hypothesis and experimentation Global City Regions represents a multifaceted effort to deal with the many different issues raised by these developments It seeks at once to define the question of global city regions and to describe the internal and external dynamics that shape them it proposes a theorization of global city regions based on their economic and political responses to intensifying levels of globalization and it offers a number of policy insights into the severe social problems that confront global city regions as they come face to face with an economically and politically neoliberal world At a moment when globalization is increasingly subject to critical scrutiny in many different quarters this book provides a timely overview of its effects on urban and regional development one of its most important but perhaps least understood corollaries The book also offers a series of nuanced visions of alternative possible futures *Megacity Management in the Asian and Pacific Region* ,1996 **Megacity Management in the Asian and Pacific Region** Jeffry Stubbs,Giles Clarke,1996 *Sustainable Development Research in the Asia-Pacific Region* Walter Leal Filho,Judy Rogers,Usha Iyer-Raniga,2018-02-27 This multidisciplinary book focuses on best practices in sustainability research in the Asia Pacific Region Drawing links between

research practice education for sustainability and the needs of industry it addresses the sustainable development goals SDGs The book also presents research undertaken by a wide range of universities on matters related to sustainable development in order to promote research in this area across multiple disciplines Four key themes are explored 1 Education for Sustainability 2 Sustainable Cities 3 Sustainable Buildings 4 Sustainable Infrastructure This unique book documents and disseminates the wealth of know how on sustainable development research in the Asia Pacific Region today It presents lessons learned and comparative case studies from various countries including India China Indonesia the Philippines Bangladesh New Zealand and Australia

Megacity Management in the Asian and Pacific Region Jeffry R. Stubbs,1996 *Public Management in Global Perspective* Salvatore Schiavo-Campo,Hazel M. McFerson,2014-12-18 Written by two authors with a wide range of experience in international affairs this introductory text addresses both the commonalities and diversity of administrative practice around the world including a succinct but thorough overview of PA in the United States It combines solid conceptual foundations with strong coverage of nuts and bolts how to topics such as personnel management procurement and budgeting and covers both developed countries and developing and transitional economies The book s chapters are organized into four major sections government functions and organization management of government activity interaction between government and citizens and prospects of administrative reform Plentiful illustrations and examples throughout the book and What to Expect sections and discussion questions in each chapter make this an ideal text for any PA course that takes a global perspective

Mega Cities Lothar Beckel,2001 **Historical Dictionary of Tokyo** Roman Cybriwsky,2011-02-18 Tokyo is Japan s largest city and its capital It is also one of the largest cities in the world and a major center of global economic influence The origins of human settlement in what is today Tokyo are lost in prehistory The city started out quite modestly as a small castle town of Edo in 1457 then the center of the Tokugawa shogunate from 1603 1868 the rapidly modernizing and Westernizing capital of the nation during the Meiji Period 1868 1912 and the capital of a prosperous nation and growing empire thereafter Tokyo was utterly devastated during World War II but this was not the first time Tokyo had to start seemingly from new Due to many fires and earthquakes the city has constantly rebuilt itself and today it outdoes all its previous emanations by far The second edition of the Historical Dictionary of Tokyo is a much needed reference source on the city This is done through a chronology an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries on people places events and other terminology about the city of Tokyo This book is a must for anyone interested in Japan and Tokyo

Urban Poverty in Bangladesh Shahadat Hossain,2010-11-30 The analysis of urban poverty has traditionally been dominated by economic approaches often neglecting the social questions arising from poverty This book seeks to redress the balance and is based on both quantitative and qualitative data collected from different slums in Dhaka City Bangladesh Shahadat Hossain shows that the slum communities experience the highest level of poverty and marginality in the city They remain very much dependent on their families and

social networking in their struggle to adapt to urban life This book will be invaluable for those working in the areas of urban studies development studies Asian studies sociology and social policy studies *The Environment and Economic Development in South Asia* Mohammad Alauddin, Clement Tisdell, 1998-05-15 The major challenges facing South Asia to achieve sustainable development are investigated using case studies and applying new points of view in economic thought about the connection between development and the environment After reviewing economic perspectives on development and the environment and South Asia's situation particular issues such as depletion of natural resources and land degradation the environmental impacts and consequences of extending markets of technological change and property rights are examined Environmental change and employment income distribution and poverty population growth and urbanisation are considered

Innovative Communities Jerry Velasquez, 2005 This book introduces the concept of community innovation and illustrates its role and impact in promoting sustainability It includes nine case studies from the Asia Pacific region where communities are adopting innovative methods to address complex and unpredictable environmental problems and promote sustainable development This often requires new cultures institutions and governance structures as well as dramatic changes in people's perceptions attitudes roles and behaviours The authors examine environmental initiatives within the region including natural resource management eco tourism forest management solid waste management and water management The book offers a rich balance of perspectives from experts in community development urban planning and local environmental management as well as community leaders local government officials journalists non governmental organization representatives and academics It provides theoretical and practical insights for communities and those who provide support to communities at the local regional and global levels of governance
