Megapolis Jean Gottmann,1964 The Horizontal Metropolis Martina Barcelloni Corte,Paola Viganò,2022-09-03 This book draws together classic and contemporary texts on the Horizontal Metropolis concept Taking an interdisciplinary approach it explores various theoretical methodological and political implications of the Horizontal Metropolis hypothesis Assembling a series of textual and cartographic interventions this book explores those that supersede inherited spatial ontologies urban rural town country city non city society nature It investigates the emergence of a new type of extended urbanity across regions territories and continents up to the global scale through the reconstruction of a fundamental but neglected tradition This book responds to the radical nature of the changes underway today calling for a rethinking of the Western Metropolis idea and form along with the emergence of new urban paradigms The Horizontal Metropolis concept represents an ambitious attempt to offer new instruction to take on this challenge at the global scale The book is intended for a wide audience interested in the emergence and development of new approaches in urbanism architecture cultural theory urban and design education landscape urbanism and geography **Soil Conservation** ,1961 Megaregions John Harrison,Michael Hoyler,2015-01-30 By critically assessing the opportunities and challenges posed by planning and governing at the megaregional scale this innovative book examines the latest conceptualizations of trans metropolitan landscapes In doing so it seeks to uncover whether m **Mega-City Region Development in China** Anthony G.O. Yeh,George C. S. Lin,Fiona F. Yang,2020-11-22 This book sheds light on the mega city region development in China as a new form of urbanization which plays a crucial role in the economic development of the country It examines the challenges faced by the mega city regions and opens up avenues for debates and further research Economic reform of 1978 has led to an unprecedented growth in the population and economic development of China A large portion of this increased urban population and the corresponding economic growth has been concentrated in the mega city regions such as Beijing Tianjin Hebei BTH Yangtze River Delta YRD and Pearl River Delta PRD These three mega city regions have less land but more people and thus higher economy resulting in various issues and challenges faced by these regions These challenges pertain

to the socio economic development transport environment governance and development strategy which this book explores through case studies of Guangdong Hong Kong Macao Greater Bay Area Beijing Tianjin Hebei and Wuhan This book also explains and analyses the economy migration processes transport development environmental conditions and governance of the mega city regions of China With an overview of China s rapid urbanisation and the consequent economic growth this book provides an essential understanding of related issues in order to establish appropriate strategies and policies to sustain the process of mega city region development

Timing the Future Metropolis Peter Ekman, 2024-11-15 Timing the Future Metropolis an intellectual history of planning urbanism design and social science explores the network of postwar institutions formed amid specters of urban crisis and renewal that set out to envision the future of the American city Peter Ekman focuses on one decisive node in the network the Joint Center for Urban Studies founded in 1959 by scholars at Harvard and MIT Through its sprawling programs of organized research its manifold connections to universities foundations publishers and policymakers and its years of consultation on the planning of a new city in Venezuela Ciudad Guayana the Joint Center became preoccupied with the question of how to conceptualize the urban future as an object of knowledge Timing the Future Metropolis ultimately compels a broader reflection on temporality in urban planning rethinking how we might imagine cities yet to come and the consequences of deciding not to
