## Mehmed II Le Conquerant De Byzance:

**The Siege and the Fall of Constantinople in 1453** Marios Philippides, Walter K. Hanak, 2017-05-02 This major study is a comprehensive scholarly work on a key moment in the history of Europe the fall of Constantinople to the Ottoman Turks in 1453 The result of years of research it presents all available sources along with critical evaluations of these narratives The authors have consulted texts in all relevant languages both those that remain only in manuscript and others that have been printed often in careless and inferior editions Attention is also given to folk history as it evolved over centuries producing prominent myths and folktales in Greek medieval Russian Italian and Turkish folklore Part I The Pen addresses the complex questions introduced by this myriad of original literature and secondary sources *Mehmed II, le conquérant de Byzance* André Clot, 1990 C est curieusement la première fois qu'un historien français consacre un ouvrage Mehmed le Conquerant 1432-1481 dont le règne fut pourtant un tournant de l'histoire du monde Il était logique qu'après la vie de Soliman le Magnifique André Clot rajoute celle de son grand prédécesseur Le choc de la dernière grande croisade devant Varna en 1444 avait scellé le destin de l'Empire byzantin et ouvert aux Turcs la route de Constantinople Mehmed qui monte une première fois sur le trône douze ans après de s'en emparer Cinq ans plus tard devenu sultan il prépare ses armées pour cette immense entreprise Le 29 mai 1453 après un siège long et difficile qu'André Clot décrit dans des pages passionnantes il prend Constantinople la Cité gardée des dieux que l'Europe chrétienne désunie et indifférente était incapable de secourir Ainsi l'empire de Constantin et de Justinien la Deuxième Rome a disparu pour toujours Le jeune vainqueur s'empare de la Serbie de la Morée de l'Albanie de la plus grande partie de la Bosnie de Trébizonde dernier vertige de l'Empire byzantin Les comptoirs génois de la mer Noire bientôt un lac turc disparaissent Le khan des Tartares de Crimée est son vassal Il crève Uzun Hasan le souverain turkmène son principal adversaire en Asie Sultan des Deux Continents Empereur des Deux Mers il fait rebâtir et repeupler Constantinople organise un empire la fois autoritaire centralisé libéral et prospère Curieux en tout cultivé comme peu de souverains de son temps poète musulman tiède entouré de mystères dans le palais qu'il a fait construire sur un des plus beaux promontoires du monde il fait venir auprès de lui des savants et des artistes Il donne à l'Empire ottoman les institutions et les traits qui seront les siens jusqu'au XIXe siècle Le Conquerant ainsi le surnomme son peuple fait pendant seize ans la guerre Venise Il s'empare de presque toutes ses possessions en mer Egée envoie des escadrons jusqu'en Istrie et au Frioul Le Dominateur mondial qui rêvait d'établir l'empire universel meurt quarante-neuf ans au moment où son armée se prépare envahir l'Italie L'Empire ottoman est alors une grande puissance qui dominera pendant plus de quatre siècles l'Europe orientale et le Proche Orient l'éclat des empires et des royaumes de l'Occident *The Islands of the Eastern Mediterranean* Özlem Caykent, Luca Zavagno, 2014-08-28 The Mediterranean or Middle Sea has long been regarded as the symbolic centre of European civilization The binding water between Turkey the Middle East the trading communities of North Africa and the European powerhouses Italy France and Greece a history of this sea is a new and vital way of understanding the history of

the societies which have flourished in the region The Islands of the Eastern Mediterranean charts the story of the water as both connector and border and analyses the islands role in world history Covering Mehmed II s efforts to conquer the old Roman Empire through to the claims of Rhodes and the role of the Aegean Islands in Ottoman international relations to the British in Cyprus and the present day tensions this book s interconnected essays from leading scholars form a tapestry of knowledge Together they represent a new frontier in the way in which we look at sea histories This will become essential reading for scholars of History International Relations Trade and Migration

**Masters of Warfare** Eric G. L. Pinzelli, 2022-12-02 In Masters of Warfare Eric G L Pinzelli presents a selection of fifty commanders whose military achievements skill or historical impact he believes to be underrated by modern opinion He specifically does not include the household names the Gods of War as he calls them such as Alexander Julius Caesar Wellington Napol on Rommel or Patton that have been covered in countless biographies Those chosen come from every period of recorded military history from the sixth century BC to the Vietnam War The selection rectifies the European US bias of many such surveys with Asian entries such as Bai Qi Chinese Attila Hunnic Subotai Mongol Ieyasu Tokugawa Japanese and V Nguy n Gi p Vietnamese Naval commanders are also represented by the likes of Khayr al Din Barbarossa Francis Drake and Michiel de Ruyter These 50 Masters of War are presented in a chronological order easy to follow with a concise overview of their life and career Altogether they present a fascinating survey of the developments and continuities in the art of command but most importantly their contribution to the evolution of weaponry tactic and strategy through the ages
