Die Verfolgung und Ermordung der Hamburger Juden 1933-1945 Institut für die Geschichte der Deutschen Juden (Germany),2006 **The Romantic Tradition in Germany** Ronald Taylor,2020-01-30 Originally published in 1970 this book surveys the central philosophical and aesthetic doctrines which characterize German Romanticism A selection of literary philosophical and political essays by some of the most important German Romantic thinkers illustrates the principal themes these range from philosophical idealism and aesthetic subjectivism to folklore and emergent German nationalism from exotica and medievalism to irrationality and the metaphysics of music Introductory essays explain the significance of the particular aspects of the Romantic tradition which are revealed in each passage and commentaries not only elucidate allusions and references which are not immediately identifiable but draw attention to wider issues either in the work of that author or in the context of 19th Century German culture as a whole *Agnes Bernauer* Friedrich Hebbel,2020-07-28

Reproduction of the original Agnes Bernauer by Friedrich Hebbel , **The Artist-Operas of Pfitzner, Krenek and Hindemith** Claire Taylor-Jay,2017-07-05 This is the first book length study of the genre of artist opera in which the work s central character is an artist who is uncomfortable with his place in the world It investigates how three such operas Pfitzner s *Palestrina* 1915 Krenek s *Jonny spielt auf* 1926 and Hindemith s *Mathis der Maler* 1935 contributed to the debate in early twentieth century Germany about the place of art and the artist in modern society and examines how far the artist character may be taken as functioning as a persona for the real composer of the work Because of their concern with the place of art within society the works are also engaged with inherently political questions and each opera is read in the light of the political context of its time conservatism circa World War I Americanism and democracy and the rise of National Socialism
