Mein Lebensgang:

Max Weber, Rudolf Steiner, and Modern Western Esotericism Aaron French, 2025-03-10 This book challenges previous definitions of modernity by comparing Max Weber 1864 1920 often considered the most important sociologist of the 20th century and Rudolf Steiner 1861 1925 founder of Waldorfp dagogik and the esoteric social reform movement of anthroposophy While acknowledging that Weber and Steiner were different in several respects this research illustrates that the individual histories of these two thinkers are more entangled than previously recognized This includes the influence of esotericism on their thinking as well as their profound concern with science and technological change and an openness to the religious and philosophical concepts of the civilizations of South and East Asia Demonstrating the importance of non European influences for a full understanding of modernity this book will be a valuable resource for students and scholars of Asian and European philosophy social theory and Asian society *From the History of the Dornach Hill...* Angela Locher, 2024-11-25 Focusing on Marie Steiner von Sivers distinctive collaboration with Rudolf Steiner *From the History of the Dornach Hill* offers an engaging lively narrative of the early decades of the anthroposophical movement Utilizing eye witness accounts and primary sources Angela Locher creates vivid images of the developing arts at the Goetheanum in particular eurythmy speech formation and the dramatic arts but also describes many fascinating aspects of general anthroposophical history The latter include the period of cooperation with the Theosophical Society the design and building of the first and second Goetheanums travels tours and visits overseas with Rudolf Steiner the pivotal Christmas Conference of 1923 4 stage performances including the Mystery Dramas and Rudolf Steiner s unexpected death and its aftermath Locher structures her absorbing study around the life of Marie Steiner from her birth in 1867 and childhood in Russia to her eventual passing in Switzerland in 1948 I have written this book especially for subsequent generations of eurythmists actors and speakers who could not experience what had been achieved in the previous century the vital processes of the development of eurythmy and the dramatic arts These created the foundation on which we stand today and from which we can carry on into the future Angela Locher This work by Angela Locher can be greeted with enthusiasm In view of the difficult challenges of our time more people than ever are beginning to experience that the arts are not merely a beautiful addition to life but are profoundly connected to our humanity Virginia Sease **Autobiography** Rudolf Steiner, 2006-05 4 lectures Dornach June 28 July 18 1923 CW 350 Truth and striving for truth must taste good to you and lies once you are conscious of them must taste bitter and poisonous You must not only know that human judgments have color but also that printer s ink nowadays is mostly deadly nightshade juice You must be able to experience this in all honesty and rectitude and once you can do so you will be in a state of spiritual transformation Rudolf Steiner What is the relationship between coming to see the secrets of the universe and one s own view of the world How far must one go before finding the higher worlds on the path of natural science Do cosmic forces influence all of humanity What connection do plants have with the human being

and the human body In answering these questions Steiner covers a wide range of topics from the development of independent thinking and the ability to think backward to the uses of what seems boring and the reversal of thinking between the physical and spiritual worlds and from the physiology of dreams to living into nature and the spiritual dimension of various foods we eat As always in his lectures to the workers Steiner's style is clear direct and accessible This volume is a translation from German of four lectures from *Rhythmen im Kosmos und im Menschenwesen Wie kommt man zum Schauen der geistigen Welt* GA 350

Malicious Objects, Anger Management, and the Question of Modern Literature Jörg Kreienbrock, 2013 Why do humans get angry with objects Why is it that a malfunctioning computer a broken tool or a fallen glass causes an outbreak of fury How is it possible to speak of an inanimate object's recalcitrance obstinacy or even malice When things assume a will of their own and seem to act out against human desires and wishes rather than disappear into automatic unconscious functionality the breakdown is experienced not as something neutral but affectively as rage or as outbursts of laughter Such emotions are always psychosocial public rhetorically performed and therefore irreducible to a private feeling By investigating the minutest details of life among dysfunctional household items through the discourses of philosophy and science as well as in literary works by Laurence Sterne Jean Paul Friedrich Theodor Vischer and Heimito von Doderer Kreienbrock reconsiders the modern bourgeois poetics that render things the way we know and suffer them

The Path of the Soul After Death Peter Selg, 2010-10 We are separated from the spiritual worlds only by states of consciousness not by spatial circumstances States of consciousness are what separate us Rudolf Steiner Rudolf Steiner saw relationships with the dead as the religious attitude of the future in the highest sense Becoming comfortable with thinking and speaking of the dead as concretely as we speak of the living will profoundly affect human activity To Steiner the enlivening and even the sanctification of earthly existence are not merely connected directly with our relationship to death and to the deceased in fact that relationship deepens these qualities and makes them possible Steiner spoke frequently about death and the human soul's continued existence as well as about the importance of establishing a new kind of community that unites spiritually active human souls that endure beyond death The Path of the Soul after Death shows how Rudolf Steiner commemorated the dead the words he chose to use and his descriptions sometimes in great detail of the inner processes involved What becomes clear is the extent to which his connections to the deceased shaped his addresses and related to their new stage of existence Inasmuch as his words were in harmony with human soul development after death they not only recapitulated a biography but also assisted the deceased individual along the path after death We cannot understand the true depth and meaning of Steiner's words about those who have died except against the background of an anthropological study of the period immediately after death The second part of the book therefore is a stunningly clear and detailed account of anthroposophic research into the process of dying and the soul's path after death He tells us The phenomenon of death sets in like this In the moment of death the connection of the

etheric and astral bodies to the physical bodies dissolves specifically in the heart The heart is illuminated so to speak and then the ether body astral body and I rise above the head Rudolf Steiner described this moment of having died as the consummate event During the individual s time away from Earth this moment is constantly in view It is filled with beauty grandeur and sunny bright warmth related to Christ It is essential to developing and dynamically maintain self awareness adapted specifically to the spiritual world In this connection Rudolf Steiner said Throughout human life between death and a new birth it is possible to look back on the moment of death and therefore that moment provides our consciousness after death We know that we have laid aside our physical body Knowing this and having it constantly before us gives us our self awareness after death just as we derive self awareness here in the physical world from actually having a physical body When we are outside of the physical body with our astral body and I between falling asleep and waking up again we have no consciousness of the physical world When awakening we must re occupy these bodies so that I consciousness can blossom again After death whenever we look back on the moment of dying whenever that whole event which is so grand and beautiful from the perspective of the other side stands before our soul consciousness is rekindled Consciousness after death depends entirely on repeated viewing of this moment Kassel February 18 1916 The Path of the Soul after Death is an important addition to the body of anthroposophic literature on our relationship on Earth to those who have died Peter Selg does a great service in gathering and amplifying much of what Steiner had to say on the subject This book is a translation from German of Rudolf Steiners Toten Gedenken Die Verstorbenen der Dornacher Bau und die Anthroposophische Gesellschaft Verlag Ita Wegman Institut 2009

Owen Barfield, Romanticism Come of Age Simon Blaxland-de Lange, 2021-04-28 Barfield towers above us all the wisest and best of my unofficial teachers C S Lewis We are well supplied with interesting writers but Owen Barfield is not content to be merely interesting His ambition is to set us free from the prison we have made for ourselves by our ways of knowing our limited and false habits of thought our common sense Saul Bellow Owen Barfield philosopher author poet and critic was a founding member of the Inklings the private Oxford society that included the leading literary figures C S Lewis J R R Tolkien and Charles Williams C S Lewis who was greatly affected by Barfield during their long friendship wrote of their many heated debates I think he changed me a good deal more than I him Simon Blaxland de Lange s biography the first on Owen Barfield to be published was written with the active cooperation of Barfield himself who before his death in 1997 gave numerous interviews to the author and shared a large quantity of his papers and manuscripts The fruit of this collaboration is a book that penetrates deeply into the life and thought of one of the

most important figures of the twentieth century It studies the influences on Barfield by the Romantic poet Coleridge and the philosopher Rudolf Steiner founder of anthroposophy and elaborates on Barfield's profound personal connection with C S Lewis The book also features a biographical sketch in his own words based on personally conducted interviews and describes Barfield's strong relationship with North America and his dual profession as a lawyer and writer This updated edition features vital new material including Barfield's own Psychography from 1948 and an illustrative plate section

Freemasonry and Rudolf Steiner N.V.P Franklin, 2020-10-16 Today some six million Freemasons around the world continue to perform their rituals regularly an enormous legacy of spiritual endeavour kept largely in secret In Britain alone there are over 7 000 lodges with a quarter of a million members What is this wealth this appeal and how did the philosopher and spiritual scientist Rudolf Steiner reinterpret or reconstruct Freemasonry's time worn legacy Unless one is a Freemason the masonic world with its arcane conventions and language remains largely unknown an obscurity that is almost impossible to fathom Yet understanding its traditions and style are invaluable when approaching Goethe Mozart Herder Lessing and Novalis as well as Rudolf Steiner Steiner himself renewed the Royal Art of Freemasonry from 1906 to 1914 through his ritual work known as *Mystica terna* When Steiner invigorated education medicine the social order and religion he fully intended that committed and professional individuals should assume responsibility for the new initiatives But this was not the case with the Masonic Order he founded whose leadership he took upon himself Even the celebration of his passing in 1925 led by Marie Steiner was entirely Masonic in character In the context of continuing resistance and misrepresentation N V P Franklin uncovers the living heart of Freemasonry and reveals why it was and still is immensely relevant to anthroposophy With profound research into its older rituals and teachings this detailed and conscientious study is a unique contribution to comprehending freemasonry and anthroposophy both historically and in the present day
