Kelley, 2008-10-01 In *Fortunes of History* Donald R. Kelley offers an authoritative examination of historical writing during the long nineteenth century the years from the French Revolution to those just after the First World War He provides a comprehensive analysis of the theories and practices of British French German Italian and American schools of historical thought their principal figures and their distinctive methods and self understandings Kelley treats the modern traditions of European world and national historiography from the Enlightenment to the new histories of the twentieth century attending not only to major authors and schools but also to methods scholarship criticisms controversies ideological questions and relations to other disciplines **German Philhellenism** D. Valdez, 2014-07-17 Philhellenism the fascination with the art politics religion and society of ancient Greece is a powerful and compelling phenomenon in German culture and intellectual history creating a language and a series of key ideas that were to exert a continuous influence on German thought aesthetics and politics well into the twentieth century In this book Valdez examines the first generation of German Philhellenes from Winckelmann to Goethe He shows how German Philhellenism was torn between the search for a historical whole which could explain and encompass Greek excellence and the desire to incorporate individual aspects of Greece in a wider ethical and artistic enterprise and finally to give it a place in the history of freedom itself Valdez also shows that German philhellenic ideas grew out of a dialogue with French and British ideas and historiography He charts how the fascination with Greek antiquity was reflected in theatre and literature and how the longings and idealisation of Philhellenes clashed with the more critical and sober historians of the Enlightenment The book also explains how the search for the historical reality of philhellenic ideals created intense emotional and ideological conflicts about the unique nature of male friendship in ancient Greece and about the position of women in ancient Athens
