eso el rector de la Pontificia Universidad Católica de Chile Ignacio Sánchez ha querido dejar un testimonio de la mirada desde la UC a uno de los procesos más importantes de los últimos 40 años como es la Reforma a la Educación Superior en nuestro país. Esta publicación reúne una selección de diferentes escritos realizados en la contingencia y en muchos momentos de tensión e incertidumbre vividos durante este primer periodo de su rectorado. Son opiniones, planteamientos y reflexiones vertidos en artísticos discursos, correos electrónicos y otros documentos que aportan información significativa al momento de hacer un análisis histórico sobre estos cambios. Si bien estos escritos expresan una visión particular desde la rectoría de la UC de los hechos tanto internos como externos a la comunidad universitaria, este libro es también una invitación a compartir distintas visiones sobre la educación superior para que en conjunto podamos relatar una historia más amplia y diversa que sea un aporte al progreso de nuestro país.

*Cómo implicar a los estudiantes en el aprendizaje* Jon Tait, 2020-05-06. Ser capaz de conectar con los jóvenes estudiantes implicarlos e involucrarlos en su aprendizaje es una de las competencias que más necesita un profesor pero puede ser también una de las habilidades más difíciles de dominar y de mantener con el paso del tiempo. Docentes de los cinco continentes buscan formas rápidas y sencillas de animar sus clases probando cosas nuevas y emocionantes o simplemente innovando y ajustando una práctica o estrategia que llevan haciendo durante años. Este libro está pensado para ayudarles. Cómo implicar a los estudiantes en el aprendizaje ofrece y desarrolla 100 ideas fáciles de implementar y llenas de creatividad a las que se puede acudir para buscar inspiración. Presenta técnicas y actividades para aplicar en cualquier materia desde la creación de situaciones que invitan a la reflexión hasta el uso de la tecnología de manera innovadora y efectiva. También ofrece numerosas ideas divertidas que ayudan a conectar con los estudiantes como personas y no solo como máquinas de superar exámenes.

**Educación para la pobreza y el sinsentido existencial** Hugo Landolfi, 2020-07-01. Desde podemos advertir hoy en día la existencia de un sistema humano donde se obligue violentamente desde muy niños y durante muchos años a seres humanos a funcionar al modo en que Eichmann lo hacía es decir comportarse como un simple engranaje que sea capaz de repetir o de hacer mecánica e inconscientemente lo que le ordenen desatendiéndose de los resultados últimos y existenciales de tal accionar y recibiendo perversamente premios y reconocimientos tal como Eichmann los recibía por hacer tales cosas. Un sistema humano logra hoy en día que ingresen por una puerta a los 3 o 4 años de edad niños llenos de vitalidad de preguntas y de cuestionamientos existenciales profundos y que luego de 10 o 12 años esos mismos niños transformados ahora en adolescentes salgan por otra puerta con su vitalidad anestesiada funcionando alienadamente y actuando bajo las formas de respuestas automáticas a exigencias externas habiéndose aniquilado en su interior todos los cuestionamientos existenciales que allí pujaban por encontrar respuesta. En síntesis. En qué sistema entra por una puerta un ser humano creado por Dios en camino de desarrollo y despliegue existencial y sale por la otra un robot.

alienado anestesiado y existencialmente extraviado Tal sistema es el actual dolo de nuestro tiempo el sistema formal de educaci n el cual es una perversa maquinaria que se ocupa de transformar a todos los que all asisten en mulos de Eichmann contando con la perversa complicidad de la sociedad la cultura la familia los docentes y los padres quienes tambi n mulos del partido nazi que premiaba a Eichmann se ocupan celosamente de premiar a los ni os y adolescentes tanto m s cuanto m s se adapten a transformarse en ese engranaje ciego y alienado en el cual el sistema los obliga a transformarse

**Prologue to Peron** Mark Falcoff,Ronald H. Dolkart,2023-11-10 Since 1943 the personality and legend of General Juan Domingo Peron have towered over the Argentine Republic Yet until 1930 Argentina was widely regarded as the best example of democracy and prosperity on a politically turbulent and economically underdeveloped continent The present collection of articles by American and Argentine scholars examines the thirteen critical years that separated the old Argentina from the new and made possible the rise of one of the most powerful dictators in Latin America In a little over a decade wracked by depression and war political democracy in Argentina collapsed and the landed aristocracy was restored to power the traditional

relationship between the British and Argentine economies deteriorated and no satisfactory alternative was found a generalized disillusionment and pessimism led to a fascination by intellectuals with authoritarian ideologies a new nationalistic consciousness became increasingly evident in films radio and popular music and social and demographic changes produced the constituency for a messianic populism This volume thus identifies the symptoms that eventually resulted into the eleven year reign and twenty year cult of Peronismo symptoms which strongly influence the course of events in present day Argentina This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975 , *Picturing Argentina: Myths, Movies, and the Peronist Vision* Currie K. Thompson,2014-05-28 Although Juan Domingo Per n s central role in Argentine history and the need for an unbiased assessment of his impact on his nation s cinema are beyond dispute the existing scholarship on the subject is limited In recent decades Argentina has witnessed a revival of serious film study some of which has focused on the nation s classical movies and in one case on Peronism None of this work has been translated into English however This is the first English language book that offers an extensive assessment of Argentine cinema during first Peronism It is also the first study in any language that concentrates systematically on the evolution of social attitudes reflected in Argentine movies throughout those years and that assesses the period s impact on subsequent filmmaking activity By analyzing popular Argentine movies from this time through the prism of myth second order communication systems that present historically developed customs and attitudes as natural the book traces the filmic construction of gender criminality race the family sports and the military It identifies in movies the development and evolution of mindsets and attitudes that may be construed as Peronist By framing its consideration of films from the Per n years in the context of earlier and later ones it demonstrates that this period accelerates and sometimes registers backward looking responses to earlier progressive mythic shifts and it traces the development in the 1950s of a critical mindset that comes to fruition in the new cinema of the 1960s *Picturing Argentina Myths Movies and the Peronist Vision* is an important book for Latin American studies film studies and history collections
