Historical Dictionary of Laos Martin Stuart-Fox, Simon Creak, 2023-02-06 Laos has the smallest population the weakest military and despite rapid economic growth in recent years one of the lowest levels of per capita income in mainland Southeast Asia Yet a glance at the map reveals its strategic location between China and Cambodia and Thailand and Vietnam As Laos was formerly a crossroads for trade routes the socialist government of the Lao People's Democratic Republic seeks to transform the country into a prosperous crossroads at the heart of this rapidly developing region Historical Dictionary of Laos Fourth Edition provides an in depth examination of one of the least known countries in Southeast Asia through a detailed chronology comprehensive introduction and extensive bibliography The dictionary section has more than 1 000 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book will be an excellent resource for students researchers and anyone wanting to know more about Laos

Integrating the US Military Douglas Walter Bristol, Heather Marie Stur, 2017-05 Integrating the US Military is an edited collection that examines the US Army's role and place in progressive social change through the lens of the military experience of African Americans women and gays since World War II By making this long overdue comparison the editors argue this anthology demonstrates how the challenges launched against the racial gender and sexual status quo in the years after World War II transformed overarching ideas about power citizenship and America's role in the world This anthology's major contribution is synthesizing recent scholarly work on the history of minorities and women in the US military It does so by examining connections between GIs and civilian society in the context of ideologies of race gender and sexuality Given the militarization of American society since World War II revealing the links between these legally marginalized groups within the Armed Services is historically significant in its own right At the same time this comparison also sheds new light on a broad range of issues that affected civilian society such

as affirmative action integration marriage laws and sexual harassment Integrating the US Military is a book designed for college students military professionals policy makers and general readers Allowing readers to view the history of several civil rights movements within the Armed Forces will prompt them to rethink the way they understand the history of social movements It will also help them to better understand the relationship between the military and American society Finally readers will gain a historical perspective on recent debates about the rights of gays in the military and the implications of deploying women in combat Provided by publisher **The Bureau of Reclamation** William D. Rowley,2006 *Taking Southeast Asia to Market* Joseph Nevins,Nancy Lee Peluso,2018-09-05 Recent changes in the global economy and in Southeast Asian national political economies have led to new forms of commodity production and new commodities Using insights from political economy and commodity studies the essays in *Taking Southeast Asia to Market* trace the myriad ways recent alignments among producers distributors and consumers are affecting people and nature throughout the region In case studies ranging from coffee and hardwood products to mushroom pickers and Vietnamese factory workers the authors detail the Southeast Asian articulations of these processes while also discussing the broader implications of these shifts Taken together the cases show how commodities illuminate the convergence of changing social forces in Southeast Asia today as they transform the terms practices and experiences of everyday life and politics in the global economy **Bureau of Reclamation** Interior Department,2013-06-13 NOTE NO FURTHER DISCOUNT FOR THIS PRODUCT OVERSTOCK SALE Significantly reduced list price The second volume of the history of the Bureau of Reclamation offers a discussion and examination of the eventful years in the latter part of the twentieth century Volume two covers from the end of World War II through year 2000 and is the last volume in this project **Race, Gender, and Religion in the Vietnamese Diaspora** Thien-Huong T. Ninh,2017-08-15 This book examines how the racialization of religion facilitates the diasporic formation of ethnic Vietnamese in the U S and Cambodia two communities that have been separated from one another for nearly 30 years It compares devotion to female religious figures in two minority religions the Virgin Mary among the Catholics and the Mother Goddess among the Caodaists Visual culture and institutional structures are examined within both communities Thien Huong Ninh invites a critical re thinking of how race gender and religion are proxies for understanding theorizing and addressing social inequalities within global contexts *Encyclopedia of the United Nations and International Agreements: G to M* Edmund Jan Osmańczyk,2003 This thoroughly revised and updated edition is the most comprehensive and detailed reference ever published on United Nations The book demystifies the complex workings of the world s most important and influential international body Quagmire David Andrew Biggs,2012-03-15 Winner of the 2012 George Perkins Marsh Prize for Best Book in Environmental History In the twentieth century the Mekong Delta has emerged as one of Vietnam s most important economic regions Its swamps marshes creeks and canals have played a major role in Vietnam s turbulent past from the struggles of colonialism to the Cold War and the present day Quagmire considers these struggles their antecedents and

their legacies through the lens of environmental history Beginning with the French conquest in the 1860s colonial reclamation schemes and pacification efforts centered on the development of a dense network of new canals to open land for agriculture These projects helped precipitate economic and environmental crises in the 1930s and subsequent struggles after 1945 led to the balkanization of the delta into a patchwork of regions controlled by the Viet Minh paramilitary religious sects and the struggling Franco Vietnamese government After 1954 new settlements were built with American funds and equipment in a crash program intended to solve continuing economic and environmental problems Finally the American military collapse in Vietnam is revealed as not simply a failure of policy makers but also a failure to understand the historical political and environmental complexity of the spaces American troops attempted to occupy and control By exploring the delta as a quagmire in both natural and political terms Biggs shows how engineered transformations of the Mekong Delta landscape channelized rivers a complex canal system hydropower development deforestation have interacted with equally complex transformations in the geopolitics of the region Quagmire delves beyond common stereotypes to present an intricate rich history that shows how closely political and ecological issues are intertwined in the human interactions with the water environment in the Mekong Delta Watch the book trailer <https://www.youtube.com/watch?v=gp1UItZqsk> A Procedural Framework for Transboundary Water Management in the Mekong River Basin Qi Gao,2014-03-13 In A Procedural Framework for Transboundary Water Management in the Mekong River Basin Shared Mekong for a Common Future Qi Gao explores procedural implications of integrated water resources management and its application in the Mekong River Basin As a problem based study enlightening conclusions are made based on the increasingly polycentric nature of transboundary cooperation in the Mekong region The procedural requirements in the Mekong context both the ideal and practical scenarios are considered combined with selected case studies Qi Gao convincingly asserts the necessity to enhance decision making processes and suggests procedural legal mechanisms to institutionalize sustainability concepts in transboundary cooperation

Living with Environmental Change W. Neil Adger,P. Mick Kelly,Nguyen Huu Ninh,2012-12-06 Vietnam and the neighbouring countries of Southeast Asia face diverse challenges created by the rapid evolution of their social economic and environmental systems and resources Taking a multidisciplinary perspective this book provides a comprehensive assessment of the Vietnamese situation identifying the factors shaping social vulnerability and resilience to environmental change and considering prospects for sustainable development *Anthropogenic Rivers* Jerome Whittington,2019-01-15 In the 2000s Laos was treated as a model country for the efficacy of privatized sustainable hydropower projects as viable options for World Bank led development By viewing hydropower as a process that creates ecologically uncertain environments Jerome Whittington reveals how new forms of managerial care have emerged in the context of a privatized dam project successfully targeted by transnational activists Based on ethnographic work inside the hydropower company as well as with Laotians affected by the dam he investigates how managers technicians and consultants grapple with unfamiliar environmental

obligations through new infrastructural configurations locally inscribed ethical practices and forms of flexible experimentation informed by American management theory Far from the authoritative expertise that characterized classical modernist hydropower sustainable development in Laos has been characterized by a shift from the risk politics of the 1990s to an ontological politics in which the institutional conditions of infrastructure investment are pervasively undermined by sophisticated hactivism Whittington demonstrates how late industrial environments are infused with uncertainty inherent in the anthropogenic ecologies themselves Whereas anthropogenic usually describes human induced environmental change it can also show how new capacities for being human are generated when people live in ecologies shot through with uncertainty Implementing what Foucault called a historical ontology of ourselves Anthropogenic Rivers formulates a new materialist critique of the dirty ecologies of late industrialism by pinpointing the opportunistic ambitious and speculative ontology of capitalist natures

Contested Waterscapes in the Mekong Region Francois Molle,Tira Foran,Mira Kakonen,2012-05-04 The catchment area of the Mekong River and its tributaries extends from China through Burma Myanmar Thailand Laos Cambodia and to Vietnam The water resources of the Mekong region from the Irrawaddy and Nu Salween in the west across the Chao Phraya to the Lancang Mekong and Red River in the east are increasingly contested Governments companies and banks are driving new investments in roads dams diversions irrigation schemes navigation facilities power plants and other emblems of conventional development Their plans and interventions should provide some benefits but also pose multiple burdens and risks to millions of people dependent on wetlands floodplains and aquatic resources in particular the wild capture fisheries of rivers and lakes This book examines how large scale projects are being proposed justified and built How are such projects contested and how do specific governance regimes influence decision making The book also highlights the emergence of new actors rights and trade off debates and the social and environmental consequences of water resources development This book shows how diverse and often antagonistic ideologies and interests are contesting for legitimacy It argues that the distribution of decision making political and discursive power influences how the waterscapes of the region will ultimately look and how benefits costs and risks will be distributed These issues are crucial for the transformation of waterscapes and the prospects for democratizing water governance in the Mekong region The book is part of the action research of the M POWER Mekong Program on Water Environment and Resilience knowledge network Published with IFAD CG AR Challenge Program on Water Food M POWER Project ECHEL EAU and HEINRICH BOLL

STIFTUNG The Great American Mission David Ekbladh,2011-08-28 The Great American Mission traces how America s global modernization efforts during the twentieth century were a means to remake the world in its own image David Ekbladh shows that the emerging concept of modernization combined existing development ideas from the Depression He describes how ambitious New Deal programs like the Tennessee Valley Authority became symbols of American liberalism s ability to marshal the social sciences state planning civil society and technology to produce extensive social and economic change For proponents it became a valuable weapon to check the influence of menacing ideologies such as Fascism and Communism Modernization took on profound geopolitical importance as the United States grappled with these threats After World War II modernization remained a means to contain the growing influence of the Soviet Union Ekbladh demonstrates how U S led nation building efforts in global hot spots enlisting an array of nongovernmental groups and international organizations were a basic part of American strategy in the Cold War However a close connection to the Vietnam War and the upheavals of the 1960s would discredit modernization The end of the Cold War further obscured modernization s mission but many of its assumptions regained prominence after September 11 as the United States moved to contain new threats Using new sources

and perspectives The Great American Mission offers new and challenging interpretations of America's ideological motivations and humanitarian responsibilities abroad *World War II in Asia and the Pacific and the War's Aftermath, with General Themes* Loyd Lee, 1998-10-23 A companion to *World War II in Europe Africa and the Americas* this volume reevaluates the most enduring literature on basic aspects of the war in Asia and the Pacific It also covers themes pertaining to societies at war culture the arts and science and technology as well as international relations and the postwar world Included are not only grand strategy military and naval campaigns and matters of diplomacy but also resistance collaboration prisoners of war and broad topics of the home front including chapters on gender issues film literature popular culture and propaganda This volume and its companion provide the first comprehensive historiographic reference work on the war Each chapter describes the state of knowledge on the topic relating each bibliographic reference to the chapter's themes and issues and concludes with a bibliography Recent original scholarship is included when it aids new understanding and older works of enduring value also find a place The essays in this volume will interest scholars and college teachers as well as advanced students and serious amateurs seeking insight into the history of the war and its literature *The Mekong: A Socio-legal Approach to River Basin Development* Ben Boer, Philip Hirsch, Fleur Johns, Ben Saul, Natalia Scurrah, 2015-12-22 An international river basin is an ecological system an economic thoroughfare a geographical area a font of life and livelihoods a geopolitical network and often a cultural icon It is also a socio legal phenomenon This book is the first detailed study of an international river basin from a socio legal perspective The Mekong River Basin which sustains approximately 70 million people across Cambodia China Laos Myanmar Thailand and Vietnam provides a prime example of the socio legal complexities of governing a transboundary river and its tributaries The book applies its socio legal analysis to bring a fresh approach to understanding conflicts surrounding water governance in the Mekong River Basin The authors describe the wide range of uses being made of legal doctrine and legal argument in ongoing disputes surrounding hydropower development in the Basin putting to rest lingering caricatures of a single ASEAN way of navigating conflict They call into question some of the common assumptions concerning the relationship between law and development The book also sheds light on important questions concerning the global hybridization or crossover of public and private power and its ramifications for water governance With current debates and looming conflicts over water governance globally and over shared rivers in particular these issues could not be more pressing
