Merchant Vessels of the United States, 1989 **Hardcase** Bill Pronzini, *Dynamics of Sexual Consent* Lena Gunnarsson, 2024-11-29 How does sexual consent work How do we know that another person really wants to have sex with us Why do people sometimes give in to sex that they are not in the mood for And how come it is sometimes difficult to draw a sharp line between sex and assault *Dynamics of Sexual Consent* addresses these questions based on deeply personal interviews with 20 Swedish women and men of various ages and sexual orientations In doing so it contributes to understandings of sexual consent and sexual grey areas through its combination of conceptual rigour analytical detail and empirical richness While starting in the legal definition of consent as voluntary participation the book broadens the discussion to a wider sociological and philosophical sphere where gendered power dynamics and relational dependencies challenge simplistic understandings of voluntariness Contesting tendencies to see miscommunication as the key problem related to consent it shows that emotional aspects are often the main factor standing in the way of genuinely consensual interactions While the analysis is informed by a gender perspective emphasizing the gendered power asymmetries of heterosexuality it also foregrounds men's vulnerability and the power dynamics of same-sex interactions A key argument of the book is that given the contextual and ambiguous nature of sexual interactions it is impossible to delineate unequivocal and concretely applicable guidelines for what counts as consent To compensate for the lack of universal fail safe rules what is needed is an intensified collective reflection on consent and sexual grey areas which can make individuals better equipped to identify and respect their own and others boundaries An empirically rich and conceptually sophisticated contribution to understanding of sexual consent and sexual grey areas *Dynamics of Sexual Consent* will be of interest to scholars and students of gender studies sociology and criminology The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *The Burling Books* Jane Thompson-Stahr, 2001 Includes Barnes Bedell Bowne Brown Carpenter Cornell Cruger DeZeng Dusenbury Ferris Field Ford Griffin Gummere Hallock Haviland Hunt Ketcham Kimble Lawrence Lowerre Mott Nelson Norrington Parsons Pixley Roesch Rogers Sampson Schieffelin Shotwell Smith Street Thompson Titus Underhill Vail Vincent Way Weeks White Wood S0000HB 80 00 **Fant genealogy** Alfred E. Canadian government sent over 150 000 Aboriginal children to residential schools across the country Government officials and missionaries agreed that in order to civilize and Christianize Aboriginal children it was necessary to separate them from their parents and their home communities For children life in these schools was lonely and alien Discipline was harsh and daily life was highly regimented Aboriginal languages and cultures were denigrated and suppressed Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self sustaining Child neglect was institutionalized and the lack of supervision created situations where students were prey to sexual and physical abusers Legal action by the schools former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008 The product of over six years of research the Commission s final report outlines the history and legacy of the schools and charts a pathway towards reconciliation Canada s Residential Schools The History Part 1 Origins to 1939 places Canada s residential school system in the historical context of European campaigns to colonize and convert Indigenous people throughout the world In post Confederation Canada the government adopted what amounted to a policy of cultural genocide suppressing spiritual practices disrupting traditional economies and imposing new forms of government Residential schooling quickly became a central element in this policy The destructive intent of the schools was compounded by chronic underfunding and ongoing conflict between the federal government and the church missionary societies that had been given responsibility for their day to day operation A failure of leadership and resources meant that the schools failed to control the tuberculosis crisis that gripped the schools for much of this period Alarmed by high death rates Aboriginal parents often refused to send their children to the schools leading the government adopt ever more coercive attendance regulations While parents became subject to ever more punitive regulations the government did little to regulate discipline diet fire safety or sanitation at the schools By the period s end the government was presiding over a nation wide series of firetraps that had no clear educational goals and were economically dependent on the unpaid labour of underfed and often sickly children

Court of Appeal (1st Appellate District). Records and Briefs* California (State)., The Transsexual Delusion G. Eugene Pichler,2016-07-04 In his book Pichler looks at transsexualism as a behavioral addiction much like a sex addiction Internet addiction or pathological gambling addiction which is caused by a faulty reward system in the human brain Pichler further reports that the medications that effectively treat behavioral addictions show good results in treating transsexualism In fact modern research shows that the drugs that effectively treat epilepsy treat behavioral addictions including transsexualism The Planters J. Derald Morgan,2016-07-19 This is a genealogical history of the McKneely families of South Carolina Georgia and Louisiana There are two branches to this Scotch Irish family with this unique spelling

One that migrated from South Carolina to Georgia and then on to Texas and other parts of the expanding United States of America Then there is the branch that left South Carolina in the late 1700s and early 1800s with other families and settled in what at the time was West Florida This area then was taken into the United States of America with the purchase of Florida from Spain and then became a part of Louisiana The Louisiana branch resided in the Parishes called the Florida Parishes and stayed close to the area until after the First World War when the family began to migrate into other parts of the United States You will find in this book two parts One part covers the McKneely family that migrated to the Florida Parishes of Louisiana and the Second part that covers the McKneely family that first migrated to Georgia and then to Oklahoma and Texas There is speculation but no proof that the two lines come from the common immigrant ancestor James McNealy with various spellings of McNealy Look at the information and decide for yourself whether or not two lines could adopt a common spelling change come from South Carolina and have common names and not be related to the common ancestor attached to the Louisiana McKneely clan I have attempted to include as much detail as possible about each person Personal stories are the spice of a genealogical work I have included as many as possible and included them without edit I am not a politically correct family historian There may be some factually correct material that you may not like or that someone might tell you is not correct Please read this account with the times and culture in mind as that is what makes the story a good one Do not try to impress yourself on the story but put yourself into the times and places
