The Geometries of Afro Asia Joan Kee, 2023-04-18 How do we embark on a history of art that proceeds from the assumption of a global majority Taking as a rhetorical departure the construct of Afro Asia which doubles as both an ontological reference and an epistemological intervention this book centers the worlds Black and Asian artists initiate through their work Afro Asia breaks down delineated time into points trajectories angles magnitudes and relative positions so that temporality and chronology figure primarily as questions of geometry it asks if and how we can be something other than what biology politics culture and economics tells us we are or must become Spanning North America Europe Asia and Africa this book challenges the institutionalization of contemporary art as a global enterprise increasingly governed by the judgments of a self selecting minority
