Architectural Space in Eighteenth-Century Europe Meredith Martin, 2017-07-05 Architectural Space in Eighteenth Century Europe Constructing Identities and Interiors explores how a diverse pan European group of eighteenth century patrons among them bankers bishops bluestockings and courtesans used architectural space and decor to shape and express identity Eighteenth century European architects understood the client's instrumental role in giving form and meaning to architectural space In a treatise published in 1745 the French architect Germain Boffrand determined that a visitor could judge the character of the master for whom the house was built by the way in which it is planned decorated and distributed This interdisciplinary volume addresses two key interests of contemporary historians working in a range of disciplines one the broad question of identity formation most notably as it relates to ideas of gender class and ethnicity and two the role played by different spatial environments in the production not merely the reflection of identity at defining historical and cultural moments By combining contemporary critical analysis with a historically specific approach the book's contributors situate ideas of space and the self within the visual and material remains of interiors in eighteenth century Europe In doing so they offer compelling new insight not only into this historical period but also into our own Studien zu Fénelons Totengesprächen im Traditionszusammenhang Nicola Graap, 2001 *Gli anni di Genova* Franco Cardini, Sergio Luzzatto, Giovanni Assereto, Michel Balard, Giuseppe Felloni, Arturo Pacini, Carlo Bitossi, Bianca Montale, Antonio Gibelli, 2011-05-20T00:00:00+02:00 Nove grandi storici raccontano gli anni e gli uomini che hanno cambiato la storia di Genova e del mondo Dalle crociate al trattato di Ninfeo dalla fondazione del Banco di San Giorgio alla congiura Fieschi dalla sfida al regno di Francia all'eroico moto di popolo contro gli austriaci dalla rivolta contro i Savoia ai funerali di Mazzini fino al dibattito sull'interventismo alla vigilia della prima guerra mondiale *Les fluctuations du climat de l'an mil à aujourd'hui* Emmanuel Le Roy Ladurie, Daniel Rousseau, Anouchka Vasak, 2011-10-05 L'oeuvre pionnière d'Emmanuel Le Roy Ladurie sur l'histoire du climat qui a hissé celui-ci au même niveau que l'économie les techniques ou les religions dans l'évolution des sociétés humaines se conclut ici par un nouveau livre concis qui s'attache à créer non plus de larges séquences l'hellé de plusieurs siècles mais les fluctuations plus fines souvent année après année Il se sert pour cela de données objectives abondance des récoltes dates des vendanges tat des glaciers abondance des précipitations etc qu'un chercheur des sciences dures Daniel Rousseau ancien directeur de l'Ecole nationale de la météorologie nationale l'aide à interpréter L'histoire du quotidien de millions d'Européens sur plus de dix siècles se trouve claire et abondamment enrichie C'est une manière passionnante de revisiter le passé Women, Diplomacy and International Politics since 1500 Glenda Sluga, Carolyn James, 2015-06-12 Women Diplomacy and International Politics since 1500 explores the role of women as agents of diplomacy in the trans Atlantic world since the early modern age Despite increasing evidence of their involvement in political life across the centuries the core historical narrative of international politics remains notably depleted of women This collection challenges this perspective

Chapters cover a wide range of geographical contexts including Europe Russia Britain and the United States and trace the diversity of women s activities and the significance of their contributions Together these essays open up the field to include a broader interpretation of diplomatic work such as the unofficial avenues of lobbying negotiation and political representation that made women central diplomatic players in the salons courts and boudoirs of Europe Through a selection of case studies the book throws into new perspective the operations of political power in local and national domains bridging and at times reconceptualising the relationship of the private to the public Women Diplomacy and International Politics since 1500 is essential reading for all those interested in the history of diplomacy and the rise of international politics over the past five centuries Theatrum Belli - Theatrum Pacis Irene Dingel,Johannes Paulmann,Matthias Schnettger,Martin

1708 was a fateful one for Great Britain and the Jacobites. An invasion of the eastern Scottish coast was to bring the line of the Stuarts back to the throne and at the same time provide France with an ally. Despite the expedition's high chances of success it failed. Through the contextualisation of this event within the England-Scotland-France tripartite relationship and the complex European power constellation around 1700, the author succeeds in reconstructing this in its significance for European history. She sheds light onto the meaning of Jacobitism all the while examining the event from a cultural-historical perspective within the interwoven fabric of mutual perceptions, stereotypes and national identity constructions in a newly emerged public space.

Réduire les huguenots Luc Daireaux, 2010. La réduction des huguenots est en marche dès le règne de Louis XIII. Elle connaît une accélération sous le gouvernement de Louis XIV jusqu'à l'édit de Fontainebleau qui ravoque celui de Nantes en octobre 1685. C'est l'histoire de cette déconstruction que raconte ce livre qui traite de l'ensemble des mécanismes aboutissant à la disparition du culte réformé du moins sous sa forme publique jusqu'à la toute fin des années 1680. Dans ce combat pour l'unité religieuse, le roi mobilise un ensemble hétéroclite d'acteurs, pouvoirs centraux et locaux. Du côté des réformés, la résistance politique et juridique, les larmes ou les appels au je-ne-constituent autant de réponses. Quand vient le temps des dragonnades, l'heure du choix arrive : certains abjurent de manière sincère ou non, d'autres préfèrent la voie de l'exil. La Normandie constitue le cadre d'étude privilégié de ce travail. La Réforme s'y est installée précocement et durablement. Si le protestantisme y est très fortement minoritaire, les réformés occupent des positions avantageuses dans certains bastions urbains ou ruraux de Dieppe et du pays de Caux jusqu'en Alençon en passant par Rouen, Caen ou Saint-Lô. Cette recherche qui a nécessité de très importants dépouillements permet finalement d'interroger nouveaux frais l'entreprise d'obliteration des particularismes conduite par Louis XIV, cette normalisation qui s'est tendue aux champs du droit et de la justice, de la morale et de la religion. Le souci de l'ordre mis en œuvre de manière particulièrement brutale constitue bien l'un des volets du gouvernement du Roi Soleil.
