La brisure et l'attente, 1930-1955 Pierre Vidal-Naquet, 1995 Human Rights Struggles in Twentieth-century France Max Likin, 2022-10-07 This book provides an introduction to human rights controversies in twentieth century France from the Dreyfus Affair at the beginning of the century to the arguments over women and immigrants rights at its end Using the Ligue des Droits de l'Homme LDH or the League of the Rights of Man as a narrative thread for this chronological study the book tracks the gradual expansion of human rights in France in the wake of the two world wars the Algerian quagmire and decolonisation more generally Examining the capital role of the LDH whilst also highlighting the role of individuals and key activists the book helps us to contextualise the quandaries faced by unseen minorities particularly colonial subjects and women The analysis also demonstrates the influence of French human rights activism on key international documents of human rights law such as the Universal Declaration of Human Rights The LDH occupies a central place in French justice debates and is therefore an ideal template to analyse the rising influence of humanitarianism and crimes against humanity in French causes culled from the 1970s onwards However the author goes further to look beyond the LDH and even France itself offering wide ranging surveys of dominant rights issues across Europe at any given period Drawing on extensive research and interviews with key members of the LDH this book provides an accessible overview of human rights struggles in twentieth century France

Post-Holocaust France and the Jews, 1945-1955 Seán Hand, Steven T Katz, 2020-07-28 Despite an outpouring of scholarship on the Holocaust little work has focused on what happened to Europe's Jewish communities after the war ended And unlike many other European nations in which the majority of the Jewish population perished France had a significant post war Jewish community that numbered in the hundreds of thousands Post Holocaust France and the Jews 1945 1955 offers new insight on key aspects of French Jewish life in the decades following the end of World War II How Jews had been treated during the war continued to influence both Jewish and non Jewish society in the post war years The volume examines the ways in which moral and political issues of responsibility combined with the urgent problems and practicalities of restoration and it illustrates how national imperatives international dynamics and a changed self perception all profoundly helped to shape the fortunes of postwar French Judaism Comprehensive and informed this volume offers a rich variety of perspectives on Jewish studies modern and contemporary history literary and cultural analysis philosophy sociology and theology With contributions from leading scholars including Edward Kaplan Susan Rubin Suleiman and Jay Winter the book establishes multiple connections between such different areas of concern as the running of orphanages the establishment of new social and political organisations the restoration of teaching and religious facilities and the development of intellectual responses to the Holocaust Comprehensive and informed this volume will be invaluable to readers working in Jewish studies modern and contemporary history literary and cultural analysis philosophy sociology and theology

France: The Dark Years, 1940-1944 Julian Jackson, 2003-03-05 The French call them the Dark Years This

definitive new history of Occupied France explores the myths and realities of four of the most divisive years in French history Taking in ordinary people s experiences of defeat collaboration resistance and liberation it uncovers the conflicting memories of occupation which ensure that even today France continues to debate the legacy of the Vichy years **Jews in France**

During World War II Renée Poznanski,2001 Now in English the authoritative work on ordinary Jews in France during World War II The Burden of Responsibility Tony Judt,2024-05-31 A historian explores how three noted French intellectuals maintained their moral principles despite the difficult political pressures of their era Through the prism of the lives three outstanding twentieth century French intellectuals Leon Blum Albert Camus and Raymond Aron history professor Tony Judt examines pivotal issues in the history of contemporary French society antisemitism and the dilemma of Jewish identity political and moral idealism in public life the Marxist moment in French thought the traumas of decolonization the disaffection of the intelligentsia and the insidious quarrels rending Right and Left Judt focuses particularly on Blum s leadership of the Popular Front and his stern defiance of the Vichy governments on Camus s part in the Resistance and Algerian War and on Aron s cultural commentary and opposition to the facile acceptance by many French intellectuals of communism s utopian promise Severely maligned by powerful critics and rivals each of these exemplary figures stood fast in their principles and eventually won some measure of personal and public redemption Judt constructs a compelling portrait of modern French intellectual life and politics He challenges the conventional account of the role of intellectuals precisely because they mattered in France because they could shape public opinion and influence policy In Blum Camus and Aron Judt finds three very different men who did not simply play the role but evinced a courage and a responsibility in public life that far outshone their contemporaries An eloquent and instructive study of intellectual courage in the face of what the author persuasively describes as intellectual irresponsibility New York Times An admirable account and also an excellent introduction for those coming to the subject complete with further readings Los Angeles Times Sunday Book Review

Classics Transformed in Jewish, Israeli, and Palestinian Receptions ,2025-02-19 Classics Transformed in Jewish Israeli and Palestinian Receptions invites the reader to view classical antiquity through the writings of poets translators and scholars emerging from modern Jewish diasporas Mandatory Palestine and the State of Israel who engaged with Greek and Roman literary precedents Whereas these voices have up to now been mostly studied independently of one another as separate fields of research this volume brings some of these distinct voices who nevertheless share a connection to Greco Roman antiquity into conversation with one another Taking its cue from the crisis of humanism following the Holocaust the chapters take as their themes the destruction of home displacement and different forms of wandering and homecomings drawing connections to acts of translation and transmission of the classics to form a picture of cultural and textual states of alterity The volume shows that Jewish Israeli and Palestinian responses to the classics are entangled and even complementary despite their different trajectories The chapters included here focus particularly on critical moments in

Jewish and Palestinian existence when the reception of classical humanism is closely linked to issues of survival On offer here is a historically grounded investigation into the ways Jews Israelis and Palestinians have used classical antiquity and classical philology to validate their identity in a rapidly changing society The Survival of the Jews in France, 1940-44 Jacques Semelin,2018-12-01 Between the French defeat in 1940 and liberation in 1944 the Nazis killed almost 80 000 of France s Jews both French and foreign Since that time this tragedy has been well documented But there are other stories hidden within it ones neglected by historians In fact 75% of France s Jews escaped the extermination while 45% of the Jews of Belgium perished and in the Netherlands only 20% survived The Nazis were determined to destroy the Jews across Europe and the Vichy regime collaborated in their deportation from France So what is the meaning of this French exception Jacques Semelin sheds light on this French enigma painting a radically unfamiliar view of occupied France His is a rich even handed portrait of a complex and changing society one where helping and informing on one s neighbours went hand in hand and where small gestures of solidarity sat comfortably with anti Semitism Without shying away from the horror of the Holocaust s crimes this seminal work adds a fresh perspective to our history of the Second World War *Frantz Fanon* David Macey,2012-11-13 Born in Martinique Frantz Fanon 1925-61 trained as a psychiatrist in Lyon before taking up a post in colonial Algeria He had already experienced racism as a volunteer in the Free French Army in which he saw combat at the end of the Second World War In Algeria Fanon came into contact with the Front de Lib ration Nationale whose ruthless struggle for independence was met with exceptional violence from the French forces He identified closely with the liberation movement and his political sympathies eventually forced him out the country whereupon he became a propagandist and ambassador for the FLN as well as a seminal anticolonial theorist David Macey s eloquent life of Fanon provides a comprehensive account of a complex individual s personal intellectual and political development It is also a richly detailed depiction of postwar French culture Fanon is revealed as a flawed and passionate humanist deeply committed to eradicating colonialism Now updated with new historical material Frantz Fanon remains the definitive biography of a truly revolutionary thinker The Hidden Children of France, 1940-1945 Danielle Bailly,2010-07-01 The history of France s hidden children and of the French citizens who saved six out of seven Jewish children and three fourths of the Jewish adult population from deportation during the Nazi occupation is little known to American readers In *The Hidden Children of France* Danielle Bailly a hidden child herself whose family travelled all over rural France before sending her to live with strangers who could protect her reveals the stories behind the statistics of those who were saved by the extraordinary acts of ordinary people Eighteen former hidden children describe their lives before during and after the war recounting their incredible journeys and expressing their deepest gratitude to those who put themselves at risk to save others After the Deluge François Dosse,2004-11-17 Madame de Pompadour s famous quip Apr s nous le deluge serves as fitting inspiration for this lively discussion of postwar French intellectual and cultural life Over the past thirty years North American and European

scholarship has been significantly transformed by the absorption of poststructuralist and postmodernist theories from French thinkers But Julian Bourg s seamlessly edited volume proves that historically speaking French intellectual and cultural life since World War Two has involved much more than a few infamous figures and concepts Motivated by a desire to narrate and contextualize the deluge of French theory After the Deluge showcases recent work by today s brightest scholars of French intellectual history that historicizes key debates figures and turning points in the postwar era of French thought Relying on primary and archival sources contributors examine among other themes left wing critiques of the Left the internationalizing of thought the institutional and affective conditions of cultural life and the religious imagination They revive neglected debates and figures and they explore the larger impact of political quarrels In an afterword preeminent French historian Fran ois Dosse heralds the arrival of a new generation a historiographical sensibility that brings fresh original perspectives and a passion for French history to the contemporary French intellectual arena After the Deluge adds significant depth and breadth to our understanding of postwar French intellectual and cultural history Homer, Humanism, Holocaust Adam J. Goldwyn, 2022-10-31 This book examines how Jewish intellectuals during and after the Second World War reinterpreted Homer s epics the Iliad and the Odyssey in light of their own wartime experiences drawing a parallel between the ancient Greek genocide of the Trojans and the Nazi genocide of the Jews The wartime writings of Theodore Adorno Hannah Arendt Erich Auerbach Rachel Bessaloff Hermann Broch Max Horkheimer Primo Levi and others were attempts both to understand the collapse of European civilization and the Enlightenment through critiques of their foundational texts and to imagine the place of the Homeric epics in a new post War humanism The book thus also explores the reception of these writers analyzing how Jewish child survivors like Geoffrey Hartman and H l ne Cixous and writers of the post Holocaust generation like Daniel Mendelsohn continued to read the epics as narratives of grief trauma and woundedness into the twenty first century

What Is a Jewish Classicist? Simon Goldhill, 2022-06-16 In recent years there has been no issue that has convulsed academia and its role in society more stridently than the personal politics of its institutions who has access to education How does who you are change what you study and how you engage with it How does scholarship reflect the politics of society how should it These new essays from one of the best known scholars of ancient Greece offer a refreshing and provocative contribution to these discussions What Is a Jewish Classicist analyses how the personal voice of a scholar plays a role in scholarship how religion and cultural identity are acted out within an academic discipline and how translation the heart of any engagement with the literature of antiquity is a transformational practice Topical engaging revelatory this book opens a sharp and personal perspective on how and why the study of antiquity has become such a battlefield in contemporary culture The first essay looks at how academics can and should talk about themselves and how such positionality affects a scholar s work can anyone can tell his or her own story with enough self consciousness sophistication and care The second essay which gives the book its title takes a more socio anthropological approach to the discipline and asks how its patterns of inclusion

and exclusion its strategies of identification and recognition have contributed to the shape of the discipline of classics This initial enquiry opens into a fascinating history of change how Jews were excluded from the discipline for many years but gradually after the Second World war became more easily assimilated into it This in turn raises difficult questions for the current focus on race and colour as the defining aspects of personal identification and about how academia reflects or contributes to the broader politics of society The third essay takes a different historical approach and looks at the infrastructure or technology of the discipline through one of its integral and time honoured practices namely translation It discusses how translation far from being a mere technique is a transformational activity that helps make each classicist what they are Indeed each generation needs its own translations as each era redefines its relation to antiquity Verdict on Vichy Michael Curtis,2002 Curtis draws upon the recent French government sponsored reports of the complex aryanization process and the requisitioning of Jewish goods and property *Beckett's Political Imagination* Emilie Morin,2017-09-07 Beckett's Political Imagination uncovers Beckett's lifelong engagement with political thought and political history showing how this concern informed his work as fiction author dramatist critic and translator This radically new account will appeal to students researchers and Beckett lovers alike **Method and Metaphysics** Jonathan Barnes,2011-10-06 This volume presents 26 essays on method and metaphysics in ancient philosophy by Jonathan Barnes one of the most admired and influential philosophers of his generation Several of the essays appear here in English for the first time others are substantially revised This will be a rich feast for students and scholars of ancient philosophy Archaeology in the Making William L Rathje,Michael Shanks,Christopher Witmore,2013-01-03 Archaeology in the Making is a collection of bold statements about archaeology its history how it works and why it is more important than ever This book comprises conversations about archaeology among some of its notable contemporary figures They delve deeply into the questions that have come to fascinate archaeologists over the last forty years or so those that concern major events in human history such as the origins of agriculture and the state and questions about the way archaeologists go about their work Many of the conversations highlight quite intensely held personal insight into what motivates us to pursue archaeology some may even be termed outrageous in the light they shed on the way archaeological institutions operate excavation teams professional associations university departments Archaeology in the Making is a unique document detailing the history of archaeology in second half of the 20th century to the present day through the words of some of its key proponents It will be invaluable for anybody who wants to understand the theory and practice of this ever developing discipline A Holocaust Controversy Samuel Moyn,2005-08-22 A provocative study of a French Holocaust controversy of the 1960s and the dynamics of postwar memory **Henri Berr et la culture du XXe siècle** Collectif,2014-11-12 L itinéraire intellectuel d Henri Berr 1863 1954 parcourt tous les chemins où se croisent la philosophie l histoire et les sciences Un demi siècle de passage des disciplines de réflexions issues de la crise des sciences d invention de la nouvelle histoire a conduit ce philosophe et homme d action

scientifique de la fondation de la Revue de synthèse historique au renouveau de l'histoire des sciences après la Seconde Guerre mondiale. Héritier des encyclopédistes, il a été l'origine de la création d'instruments de diffusion de la connaissance tels le journal Science ou la collection L'Évolution de l'Humanité. C'est le temps des entreprises scientifiques et éditoriales annoncées par l'activisme des sociologues réunis autour d'Émile Durkheim scandalisé par la nouveauté de la pensée de Lucien Febvre et Marc Bloch ponctuée par la parution de l'Encyclopédie française Internationale et organisée l'histoire ambitieuse de devenir science. La synthèse de Henri Berr puissante et efficace identifierait finalement comme un impératif d'intelligence du monde et de communication des savoirs. Cette même volonté d'innovation et cette audace intellectuelle qui animent les chercheurs véritables continuent de s'imposer aujourd'hui alors même que le débat critique sur l'histoire est ouvert et que l'histoire et la sociologie des sciences sont en question.

The Latest Catastrophe Henry Rousso, 2016-07-06

The writing of recent history tends to be deeply marked by conflict by personal and collective struggles rooted in horrific traumas and bitter controversies. Frequently today's historians can find themselves researching the same events that they themselves lived through. This book reflects on the concept and practices of what is called contemporary history: a history of the present time and identifies special tensions in the field between knowledge and experience, distance and proximity and objectivity and subjectivity. Henry Rousso addresses the rise of contemporary history and the relations of present-day societies to their past, especially their legacies of political violence. Focusing on France, Germany, the United Kingdom and the United States, he shows that for contemporary historians the recent past has become a problem to be solved. No longer unfolding as a series of traditions to be respected or a set of knowledge to be transmitted and built upon, history today is treated as a constant act of mourning or memory, an attempt to atone. Historians must also negotiate with strife within this field as older scholars who may have lived through events clash with younger historians who also claim to understand the experiences. Ultimately, The Latest Catastrophe shows how historians at times against their will have themselves become actors in a history still being made.
