Memoirs Of An Italian Terrorist:

Memoirs of an Italian Terrorist Giorgio, 2003-02-11 When government consultant Professor Marco Biagi was assassinated in Italy by the New Red Brigades in the aftermath of September 11 the country was transported back 30 years to the violent Years of Lead In the 1970s Neo Fascists planted bombs Marxist Leninists kneecapped and assassinated and ordinary Italians were afraid to go to their offices in the morning There were over 500 killed by terrorists in those years thousands wounded burned scarred there are hundreds in jail or who have done time and thousands still out there like Giorgio having lived decades as clandestine soldiers The most shocking document of that unstable era and one of the primary source documents in the history of terrorism is this anonymous firsthand narrative of a life devoted to the bloody cause of The Red Brigades In candid and grim detail Giorgio tells of his transition to living underground He coldly narrates his mundane routine that prefigures the methods of al Qaeda the long patient shadowing of potential targets never victim always target the clinical monitoring of the news for opportunities for destruction and the relentless study of target companies to identify the strategic personnel to kneecap or assassinate He describes the succession of events that took him from simple troublemaking to full fledged terrorism from a gleeful proletarian expropriation of Levis from a Milanese jeanseria to shooting at the police in a famous demonstration in which one policeman was killed and on to outright political assassinations Fascinating and horrifying to the end Giorgio s story resonates with the current situation in the United States as much as it did with Italy s when it was first published A best seller in Europe and a classic in Italy this is the first U S publication of these uncensored memoirs of an unrepentant terrorist

The Terrorist's Dilemma Jacob N. Shapiro, 2015-07-21 How do terrorist groups control their members Do the tools groups use to monitor their operatives and enforce discipline create security vulnerabilities that governments can exploit This title examines the great variation in how terrorist groups are structured

ISIS and the Pornography of Violence Simon Cottee, 2019-05-30 ISIS and the Pornography of Violence is a collection of iconoclastic essays on ISIS spanning the four year period from its ascendancy in late 2014 to its demise in early 2018 From a trenchant critique of the infantilization of jihadists to a probing examination of the parallels between gonzo porn and ISIS beheading videos the pieces collected in this volume challenge conventional ways of thinking about ISIS and the roots of its appeal Simon Cottee s core argument is that Western ISIS recruits far from being brainwashed or vulnerable dupes actively responded to the group s promise of redemptive violence and self sacrifice to a total cause

Killing Strangers Tim Wilson, 2020 A bewildering feature of so much contemporary political violence is its stunning impersonality with every city centre a potential shooting gallery every metro system a potential bomb alley Killing Strangers explores how acts of political violence have changed over time becoming unchained from inter personal relationships

Terrorism Randall D. Law, 2009-08-10 The book leads the reader through the shifting understandings and definitions of terrorism through the ages providing an understanding of the uses of and responses to terrorism Extensively covers jihadism the Israeli Palestinian

conflict Northern Ireland and the Ku Klux Klan plus many other movements **The Emerald Handbook of Narrative Criminology** Jennifer Fleetwood, Lois Presser, Sveinung Sandberg, Thomas Ugelvik, 2019-10-07 Over 23 chapters this Handbook reflects the diversity of methodological approaches employed in the emerging field of narrative criminology

The Internet and the Madonna Paolo Apolito, Antony Shugaar, 2010-10-19 In 1994 a devout Catholic woman from Vermont began having religious visions and hearing the voice of the Virgin Mary To spread word about her mystical experiences she turned to the Internet As Paolo Apolito records here she is only one of many people who use the Web as a tool of religious devotion Every day thousands of Catholics from I **Ending Terrorism in Italy** Anna Cento Bull, Philip Cooke, 2013-06-07 Ending Terrorism in Italy analyses processes of disengagement from terrorism as well as the connected issues of reconciliation truth and justice It examines in a critical and original way how terrorism came to an end in Italy Part I and the legacy it has left behind Part II The book interrogates a wide array of published memoirs and a considerable number of new face to face interviews with both former terrorists and first and second generation victims In the last two decades and especially in recent years former extreme right terrorists in Italy have started to talk about their past involvement in terrorist violence including for the first time acts of violence which have for decades been considered taboo that is to say bomb attacks against innocent civilians These narratives add to the perspectives offered by members of left wing terrorist groups such as the Red Brigades and Prima Linea Surprisingly these narratives have not been systematically examined yet they form a unique and extremely rich source of first hand testimony providing invaluable insights into processes of youth radicalization and de radicalization the social re integration of ex terrorists as well as personal and collective healing Even less attention has been paid to the victims narratives or stories Indeed the views and activities of the victims and their associations have been seriously neglected in the scholarly literature on terrorism not just in Italy but elsewhere in Europe The book therefore examines the perspectives of the victims and relatives of victims of terrorism who over the years have formed dedicated associations and campaigned relentlessly to obtain justice through the courts with little or no support from the state and especially in the case of the bombing massacres with increasing awareness that the state played a role in thwarting the course of justice Ending Terrorism in Italy will be of interest to historians social scientists and policy makers as well as students of political violence and post conflict resolution *Islamic Radicalism and Global Jihad* Devin R. Waves of Global Terrorism David C. Rapoport,2022-05-31 Terrorism is a persistent form of political violence but it appears intermittently afflicting certain places in certain eras while others remain unscathed Since the late nineteenth century it has risen and fallen in recurrent generation long spasms in which hundreds of short lived groups wreak havoc Why have past outbreaks of terror tended to come in waves and how does this pattern shed light on future threats David C Rapoport a preeminent scholar of political violence identifies and analyzes four distinct waves of global terrorism He examines the dynamics of each wave contrasting their tactics targets and goals and placing them in the context of the much longer history of terrorism Global terror emerged in the 1880s after technological changes transformed communication and transportation and dynamite enabled individuals or small groups to carry out bombings Emanating from Russia a first wave of anarchists assassinated prominent figures in what they called propaganda of the deed This was followed by a second wave of anticolonial terrorism that arose in the British Empire in the 1920s Beginning in the 1960s a third wave of New Left movements took hostages and hijacked airplanes Most recently religious movements mostly but not entirely in the Islamic world have constituted a fourth wave pioneering self martyrdom or suicide bombing Rapoport also considers whether a fifth wave of anti immigrant or white supremacist terror is emerging today Recasting the complex history of modern political violence *Waves of Global Terrorism* makes a major contribution to our understanding of the roots of contemporary terrorism

Terrorist Histories Caoimhe Nic Dháibhéid,2016-11-03 This book addresses provides a series of in depth portraits of men and women who have been labelled terrorists from the 19th 20th and 21st centuries Bridging historical methodologies and theoretical approaches to terrorism studies it seeks to contribute to the developing historicising of terrorism studies This is achieved principally through a prosopographical approach In the preponderance of detailed statistical and quantitative data on the practice of terrorism and political violence the individuals who participate in terrorist acts are often obscured While ideologies and organisations have attracted much scholarly interest less is known of the personal trajectories into political violence particularly from a historical perspective The focus on a relatively narrow cast

of high profile terrorist villains to a large part driven by popular and media attention results in a somewhat skewed picture of equal value arguably is a more sustained reflection on the lives of lesser known individuals The book sits at the juncture between terrorism studies historical biography and ethnography It comprises case studies of ten individuals who have engaged in political violence in the nineteenth twentieth and twenty first centuries in a number of locations and with a variety of ideological motivations from Russian inflected anarchism to Islamist extremism Through detailed empirical research crucial themes in the study of terrorism and political violence are explored the diverse individual radicalisation pathways the question of disengagement and re engagement various counter terrorist and counter insurgency strategies adopted by governments and security forces and the changing nature and perception of terrorism over time Although not explicitly comparative a number of themes resonate between the case studies which will be drawn together in the conclusion to this book These include the role of migration in radicalisation the influence of radical family heritages the experience of imprisonment and the narratives which individuals construct to tell their own terrorist life stories It also provides an historically grounded answer to one of the most contentious and heated debates in recent literature on terrorism studies what leads a person to turn to political violence In examining the life narratives of a diverse range of men and women who at some point embraced violence this book seeks to contribute to a growing understanding of the entire arc of a terrorist lifespan from radicalisation to mobilisation to disengagement and beyond This book will be of much interest to students of political violence terrorism studies security studies and politics in general
