## **Memoirs Of Lady Hyegyong:**

*The Memoirs of Lady Hyegyong* Hyegyŏnggung Hong Ssi, 2013-09-14 Lady Hyegyong's memoirs which recount the chilling murder of her husband by his father form one of the best known and most popular classics of Korean literature. From 1795 until 1805 Lady Hyegyong composed this masterpiece depicting a court life Shakespearean in its pathos, drama, and grandeur. Presented in its social, cultural, and historical contexts, this first complete English translation opens a door into a world teeming with conflicting passions, political intrigue, and the daily preoccupations of a deeply intelligent and articulate woman. JaHyun Kim Haboush's accurate fluid translation captures the intimate and expressive voice of this consummate storyteller. Reissued nearly twenty years after its initial publication with a new foreword by Dorothy Ko, *The Memoirs of Lady Hyegyong* is a unique exploration of Korean selfhood and an extraordinary example of autobiography in the premodern era.

**Memoirs of Lady Hyegŏyng** Hyegyŏnggung Hong Ssi, 1996 **Creative Women of Korea: The Fifteenth Through the Twentieth Centuries** Young-Key Kim-Renaud, 2015-02-24 This book introduces important contributions in the humanities by a select group of traditional and modern Korean women from the 15th through the 20th centuries. The literary and artistic works of these women are considered Korean classics, and the featured artists and writers range from a queen to a courtesan to a Buddhist nun to unknown women of Korea. Although women's works were generally meant only to circulate among women, these creative expressions have caught the attention of literary and artistic connoisseurs. By bringing them to light, the book seeks to demonstrate how Korean women have tried to give their lives meaning over the ages through their very diverse yet common artistic responses to the details and drama of everyday life in Confucian Korea. The stories of these women and their work give us glimpses of their personal views on culture, aesthetics, history, society, politics, morality, and more. **Finding Wisdom in East Asian Classics** Wm. **The Oxford Encyclopedia of Women in World History** Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

**King Chǒngjo, an Enlightened Despot in Early Modern Korea** Christopher Lovins, 2019-03-25 Were the countries of Europe the only ones that were early modern Was Asia's early modernity cut short by colonialism Scholars examining early modern Eurasia have not yet fully explored the relationships between absolute rule and political modernization in the highly contested early modern world Using a comparative perspective that places Chǒngjo king of Korea from 1776 to 1800 in context with other Korean kings and with contemporary Chinese and European rulers Christopher Lovins examines the shifting balance of power in Korea in favor of the crown at the expense of the aristocracy during the early modern period This book is the first to analyze in English the recently discovered collection of 297 private letters written by Chǒngjo himself These letters were a vital channel of communication outside of official court historians scrutiny since private meetings between the king and his ministers were forbidden by custom Royal politics played out in an arena of subtle communication with court officials trying to read the king's unstated elliptically hinted at intentions and the king trying to suggest what he wanted done while maintaining plausible deniability Through close analysis of both official records and private letters including Chǒngjo's secret letters Lovins shows that in contrast to previous assumptions the late eighteenth century Korean monarchs were not weak and ineffective but instead were in the process of building an absolutist polity

**The Oxford Guide to Literature in English Translation** Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e.g. Virgil's Aeneid

which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

*Epistolary Korea* JaHyun Kim Haboush, 2009-05-01 By expanding the definition of epistle to include any writing that addresses the intended receiver directly JaHyun Kim Haboush introduces readers to the rich epistolary practice of Chosŏn Korea The Chosŏn dynasty 1392 1910 produced an abundance of epistles writings that mirror the genres of neighboring countries especially China while retaining their own specific historical trajectory Written in both literary Chinese and vernacular Korean the writings collected here range from royal public edicts to private letters a fascinating array that blurs the line between classical and everyday language and the divisions between men and women Haboush's selections also recast the relationship between epistolography and the concept of public and private space

Haboush groups her epistles according to where they were written and read public letters letters to colleagues and friends social letters and family letters Then she arranges them according to occasion letters on leaving home deathbed letters letters of fiction and letters to the dead She examines the mechanics of epistles their communicative space and their cultural and political meaning With its wholly unique collection of materials *Epistolary Korea* produces more than a vivid chronicle of pre and early modern Korean life It breaks new ground in establishing the terms of a distinct non European form of epistolography
