Richard III and the Death of Chivalry David Hipshon,2011-08-26 The conventional view of Richard III s defeat at the Battle of Bosworth Field in 1485 is that it was due to a loss of support for him after his usurpation of the throne However David Hipshon argues that the result might very well have been in his favour had not his support for James Harrington in a long running family feud with Thomas Lord Stanley led to the latter betraying him Bosworth was the last English battle in which the monarch relied on feudal retainers at Stoke two years later professional mercenaries were the key to Henry VII s victory The author examines how the power politics of the conflict between the Stanleys and the Harringtons and Richard s motives in supporting the latter led to the king s death on the battlefield the succession of the Tudors to the throne of England the death of chivalry and the end of the Middle Ages

A Short History of the Wars of the Roses David Grummitt,2025-08-07 Now in its second edition A Short History of the Wars of the Roses is an accessible history of the English civil wars of the mid 15th century It offers a comprehensive account of the major political events detailing the 30 year struggle between the dynastic houses of Lancaster and York and analysing the formal clashes of royalist and rebel armies such as the battles at St Albans Towton and Bosworth Grummitt explores the roles of the era s key personalities such as the Kingmaker Earl of Warwick and Margaret of Anjou who ruled for a time in her husband s stead highlighting how their actions shaped events on a local and national scale Grummitt places the violent developments of this complex period in the wider context of fifteenth century kingship and the development of English political culture without losing sight of the impact of the war on the lives of those who both fought in and were touched by battle Expanding on the successful foundations of the 1st edition this 2nd edition has been updated to include New material analysing the struggle for

Ireland 1459 64 New research concerning the battle of Edgecote and the Northern and Lincolnshire rebellions of 1469 70 A new section on gender and the role of women with a focus on the agency of women and how they navigated the impact of the Wars on themselves and their families Expanded analysis of the role of chivalry and its centrality to the gendered identity of aristocratic men and women *Defining Neomedievalism(s) II* Karl Fugelso, 2011 The focus on neomedievalism at the 2007 International Conference on Medievalism in ever more sessions at the annual International Congress on Medieval Studies and by many recent or forthcoming publications has left little doubt that this important new area of study is here to stay and that medievalism must come to terms with it In response to an essay in *Studies in Medievalism XVIII* defining medievalism in relationship to neomedievalism this volume therefore begins with seven essays defining neomedievalism in relationship to medievalism Lucy Hutchinson and the English Revolution Claire Gheeraert-Graffeuille, 2022-09-12 In *Lucy Hutchinson and the English Revolution* Claire Gheeraert Graffeuille explores Lucy Hutchinson's historical writings and the *Memoirs of the Life of Colonel Hutchinson* which although composed between 1664 and 1667 were first published in 1806 The *Memoirs* were a best seller in the nineteenth century but largely fell into oblivion in the twentieth century They were rediscovered in the late 1980s by historians and literary scholars interested in women's writing the emerging culture of republicanism and dissent By approaching the *Memoirs* through the prism of history and form this book challenges the widely held assumption that early modern women did not and could not write the history of wars a field that was supposedly gendered as masculine On the contrary Gheeraert Graffeuille shows that Lucy Hutchinson a reader of ancient history and an outstanding Latinist was a historian of the English Revolution to be ranked alongside Richard Baxter Edmund Ludlow and Edward Hyde Early Modern French Autobiography Nicolae Alexandru Virastau, 2021-04-06 This book offers a survey of the constitution of the French memoir tradition and explores in detail the works of four representative authors Philippe de Commynes Louise de Savoie Philippe de Cheverny and Francois de Bassompierre Works of self writing were usually printed under the title of memoirs and have been often considered a uniform genre These early forms of self writing were in fact highly heterogeneous works at the crossroads of multiple genres from the account book to the astrological diary Their writing printing and circulation challenge modern notions of autobiographical genres their authorship is often questionable and collective and they tended to be compiled in large collections for political ends without regard to the authors' intention Juan de Mariana and Early Modern Spanish Political Thought Dr Harald E Braun, 2013-06-28 The Jesuit Juan de Mariana 1535 1624 is one of the most misunderstood authors in the history of political thought His treatise *De rege et regis institutione libri tres* 1599 is dedicated to Philip III of Spain It was to present the principles of statecraft by which the young king was to abide Yet soon after its publication Catholic and Calvinist politiques in France started branding Mariana a regicide *De rege* was said to empower the private individual to kill a legitimate king Its pernicious doctrines were blamed for the murder of Henry IV in 1610 and it was burned at the order of the parlement of Paris Modern historians have tended to build on this interpretation

and consider *De rege* a stepping stone towards modern pluralist and democratic thought Nothing could be further from the truth The notion of Mariana as an uncompromising theorist of resistance is in fact based on the distorted reading of a few select sentences from the first book of the treatise This study offers a radical departure from the old view of Mariana as an early modern constitutionalist thinker and advocate of regicide Thorough analysis of the text as a whole reveals him to be a shrewd and creative operator of political language as well as a champion of the church and bishops of Castile The argument as a whole is informed by a Catholic Augustinian view of human nature Mariana's bleak at times downright cynical view of man imparts focus and coherence to a text that challenges well established terminological boundaries and political discourses In the first instance his deeply pessimistic appraisal of human virtue justifies his disregard of positive law He is thus able to mould diverse elements extracted from Roman and canon law scholastic theology and humanist literature into a deliberately equivocal discourse of reason of state Finally this secular interpretation of the world of politics is cleverly yoked to a thoroughly clerical agenda of reform In fact reason of state is made to propagate an episcopal monarchy *De rege* is exceptional in that it strings together a curious scholastic theory of the origins of society a conservative ideology of absolute monarchy and a breathtakingly radical vision of theocratic renewal of Spanish government and society Juan de Mariana and Early Modern Political Thought elucidates the differentiated nature of political debate in Habsburg Spain It confirms the complexity of Spanish political life in the later sixteenth and early seventeenth century Complementing recent work on Catholic political thought the European reception of Machiavelli and Spanish Habsburg government this study offers a more complete and holistic picture of early modern Spanish political culture **The Publishers' Trade List Annual** ,1985

Humans and Other Animals in the Middle Ages Philip Line,2025-03-10 This sourcebook serves both as an introduction and a wide ranging reference work for human attitudes to nonhuman animals in Latin Europe during the Middle Ages Under twelve headings it includes numerous translated passages from Latin and vernacular texts that reflect human conceptions and uses of other animals during the period 300 1520 Theologians philosophers encyclopaedists bestiarists hagiographers chroniclers huntsmen and writers of agricultural manuals cookbooks and plague treatises all had something to say about the place of nonhuman animals in their world and their interaction with humans or simply recorded incidentally what they did in their writings All are represented here Outposts of Diplomacy G. R. Berridge,2024-06-05 A profusely illustrated history of the diplomatic embassy from antiquity to today This compelling history traces the evolution of the embassy from its ancient origins to its enduring presence in the modern world Beginning with its precursors in antiquity the book explores the embassy's emergence on the cusp of the Italian Renaissance its pinnacle during the nineteenth century and its navigation through the challenges of twentieth century conference diplomacy G R Berridge investigates how this European institution adapted its staffing architecture and communication methods to changing international landscapes including the tumultuous wars of religion and encounters in the Far East He also describes the expansion of the embassy's responsibilities such as

providing diplomatic cover for intelligence operations Infused with vibrant anecdotes of remarkable individuals and the creation of influential family dynasties and illustrated throughout this book offers a fascinating exploration of the embassy's rich history

No Virtue Like Necessity Jonathan Haslam, 2002-01-01 The author explores four themes relating to international relations in the modern era: Reasons of State, the Balance of Power, the Balance of Trade, and Geopolitics. He contrasts realist ideas with universalist alternatives, both religious and secular, which were based on a more optimistic view of the nature of man or the nature of society. Realist thought never attained consistent predominance, Haslam demonstrates, and the struggle with universalist thought has remained an unresolved tension that can be traced throughout the evolution of international relations theory in the twentieth century.

Montaigne Philippe Desan, 2019-01-29 A definitive biography of the great French essayist and thinker. One of the most important writers and thinkers of the Renaissance, Michel de Montaigne (1533-92) helped invent a literary genre that seemed more modern than anything that had come before. But did he do it as he suggests in his *Essays* by retreating to his chateau and stoically detaching himself from his violent times? Philippe Desan overturns this long-standing myth by showing that Montaigne was constantly connected to and concerned with realizing his political ambitions, and that the literary and philosophical character of the *Essays* largely depends on them. Desan shows how Montaigne conceived of each edition of the *Essays* as an indispensable prerequisite to the next stage of his public career. It was only after his political failure that Montaigne took refuge in literature, and even then it was his political experience that enabled him to find the right tone for his genre. The most comprehensive and authoritative biography of Montaigne yet written, this sweeping narrative offers a fascinating new picture of his life and work.

The Private Life of Edward IV John Ashdown-Hill, 2016-11-15 Edward's secret mistresses, clandestine affairs, and the nature of his marriage are revealed in this exciting new work by John Ashdown Hill, author of *The Mythology of Richard III*.

Rethinking France Pierre Nora, 2001 How do we visualize a state or a nation? Some might imagine territory, the borders that divide countries that mark the space where power is exercised and history evolves. Others might picture natural aspects like mountains, rivers, and landscapes that make their own country distinct. For Pierre Nora, these are historical and geographical conceptions of space. And in the case of the French, these conceptions are not separate but instead uniquely linked. They are key to understanding French national identity. In *Space*, the second volume in the University of Chicago Press's translation of Nora's ambitious *Les Lieux de memoire*, a group of France's leading historians and cultural commentators call attention to the meaning of space for the French and the firm connection between the nation's history and its geography. The essays gathered here cover the most essential approaches to French space: external and internal boundaries, the base unit of local space, and the mental construction that gives a general idea of the concept of landscape. The analyses focus on three aspects of natural boundaries: the forest, the north, and the south, and the coastline. Each region of France they show is a space of memory that is the fruit of all the knowledge that gives it shape: statistical, cartographical, geological, and historical. A crucial piece in Nora's profound

historical project on the way the French understand themselves this volume will be appreciated by any critical thinker with an interest in French history politics culture or philosophy
