Constituting Communities John Clifford Holt, Jacob N. Kinnard, Jonathan S. Walters, 2012-02-01 Constituting Communities explores how community functions within Therav da Buddhist culture Although the dominant focus of Buddhist studies for the past century has been on doctrinal and philosophical issues this volume concentrates on discourses that produced them and why and how these discourses and practices shaped Therav da communities in South and Southeast Asia From a variety of perspectives including historical literary doctrinal and philosophical and social and anthropological the

contributors explore the issues that have proven important and definitive for identifying what it has meant individually and socially to be Buddhist in this particular region The book focuses on textual discourse how communities are formed and maintained within pluralistic contexts and the formation of community both within and between the monastic and lay settings

**Rethinking Global Governance** Justin Jennings, 2023-05-09 This book argues that long Indo-Asian Culture .1970 ignored non western political systems from the distant and more recent past can provide critical insights into improving global governance These societies show how successful collection action can occur by dividing sovereignty consensus building power from below and other mechanisms For a better tomorrow we need to free ourselves of the colonial constraints on our political imagination A pandemic war in Europe and another year of climatic anomalies are among the many indications of the limits of global governance today To meet these challenges we must look far beyond the status quo to the thousands of successful mechanisms for collective action that have been cast aside a priori because they do not fit into Western traditions of how people should be organized Coming from long past or still enduring societies often dismissed as savages and primitives until well into the twentieth century the political systems in this book were often seen as too acephalous compartmentalized heterarchical or anarchic to be of use Yet as globalization makes international relations more chaotic long ignored governance alternatives may be better suited to today s changing realities Understanding how the Zulu Trypillian Alur and other collectives worked might be humanity s best hope for survival This book will be of interest both to those seeking to apply archaeological and ethnographic data to issues of broad contemporary concern and to academics politicians policy makers students and the general public seeking possible alternatives to conventional thinking in global Catalogue Bernard Quaritch (Firm),1929 Sangeet Natak ,1975 Formations of Ritual David governance Scott, 1994 Formations of Ritual was first published in 1994 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Yaktovil is an elaborate healing ceremony employed by Sinhalas in Sri Lanka to dispel the effects of the eyesight of a pantheon of malevolent supernatural figures known as yakku Anthropology traditionally has articulated this ceremony with the concept metaphor of demonism Yet as David Scott demonstrates in this provocative book this use of demonism reveals more about the discourse of anthropology than it does about the ritual itself His investigation of yaktovil and yakku within the Sinhala cosmology is also an inquiry into the ways in which anthropology by ignoring the discursive history of the rituals religions and relationships it seeks to describe tends to reproduce ideological often specifically colonial objects To do this Scott describes the discursive apparatus through which yakku are positioned in the moral universe of Sinhala traces the appearance of yakku and yaktovil in Western discourse evaluates the contribution of these figures and this ceremony in anthropology and attempts to show how the larger anthropology of Buddhism in which the anthropology of yaktovil is embedded might be reconfigured Finally he offers a rereading of the ritual in terms of the historically selfconscious approach

he proposes The result points to a major rethinking of the historical nature not only of the objects but also of the concepts through which they are constructed in anthropological discourse David Scott teaches in the Department of Anthropology at Buddhist Landscapes in Central India Julia Shaw, 2013-08-31 The first integrated study of the University of Chicago settlement archaeology and Buddhist history provides an archaeological basis for assessing theories regarding the dialectical relationship between Buddhism and surrounding lay populations Lives of Indian Images Richard H. Davis, 2020-07-21 For many centuries Hindus have taken it for granted that the religious images they place in temples and home shrines for purposes of worship are alive Hindu priests bring them to life through a complex ritual establishment that invokes the god or goddess into material support Priests and devotees then maintain the enlivened image as a divine person through ongoing liturgical activity they must awaken it in the morning bathe it dress it feed it entertain it praise it and eventually put it to bed at night In this linked series of case studies of Hindu religious objects Richard Davis argues that in some sense these believers are correct through ongoing interactions with humans religious objects are brought to life Davis draws largely on reader response literary theory and anthropological approaches to the study of objects in society in order to trace the biographies of Indian religious images over many centuries He shows that Hindu priests and worshipers are not the only ones to enliven images Bringing with them differing religious assumptions political agendas and economic motivations others may animate the very same objects as icons of sovereignty as polytheistic idols as devils as potentially lucrative commodities as objects of sculptural art or as symbols for a whole range of new meanings never foreseen by the images makers or original worshipers
