Alkon, 2010-08-01 For nearly two thousand years the future was a realm reserved for prophets poets astrologers and practitioners of deliberative rhetoric Then in 1659 the French writer Jacques Guttin published his romance Epigone which carried the subtitle the history of the future century Unlike the stories of space travel that were popular at the time or the tales of travel to distant earthly lands which had long been a familiar literary genre Guttin's romance described human societies displaced by time as well as by space and heroes not of his own day but of a future age Paul Alkon's Origins of Futuristic Fiction examines the earliest works of prose fiction set in future time the forgotten writings of the seventeenth eighteenth and nineteenth centuries that are the precursors of such well known masterpieces of the form as H G Wells s The Time Machine Aldous Huxley's Brave New World and George Orwell's 1984 The first secular story to break the imaginative barrier against tales of the future Epigone marked the emergence of a form unknown to classical medieval or renaissance literature Guttin's courageous displacement of narrative into future time was followed by writers such as Samuel Madden Louis Sebastien Mercier Cousin de Granville Mary Shelley and Emile Souvestre who wrote books with such titles as Memoirs of the Twentieth Century The Year 2440 The Last Man and The World As It Will Be Most extraordinary though may be Felix Bodin's great metafictional Le roman de l'avenir the novel of the future Both a narrative of the future and a poetics of the new genre this book identified in the previous isolated works set in future time a situation rarely encountered in literary history in which the possibility for a new form clearly existed without yet being altogether achieved In the introduction to his uncompleted novel Bodin presented his vision of the futuristic novel as a literature of realism morality and fantasy His remarkably astute attempt to define the aesthetics of a major transformation in the relation between literature and time still stands as the basis for the poetics of futuristic fiction Tracing the early literary history of what became a major form of modern fiction Origins of Futuristic Fiction examines the key works of the earliest writers of the genre not for what they betray of past expectations but for what they reveal about the formal problems that needed to be resolved before tales of the future could achieve their full power in the works of later novelists Vintage Visions Arthur B. Evans, 2014-06-11 Vintage Visions is a seminal collection of scholarly essays on early works of science fiction and its antecedents From Cyrano de Bergerac in 1657 to Olaf Stapledon in 1937 this anthology focuses on an unusually broad range of authors and works in the genre as it emerged across the globe including the United States Russia Europe and Latin America The book includes material that will be of interest to both scholars and fans including an extensive bibliography of criticism on early science fiction the first of its kind and a chronological listing of 150 key early works Before Dr Strangelove future war fiction was hugely popular in nineteenth century Great Britain Before Terminator a French author depicted Thomas Edison as the

chapter a brief character sketch of the memoirist the book shows how personal writing fits into their other work often demonstrating the continuities and discontinuities in an author's life as well as discussing each author's contributions to psychoanalysis whether positive or negative The Twentieth-Century World of Henry James Adeline R. Tintner, 2000-05-01 Conventional analyses of Henry James conclude with the completed novels of the major phase and the revisions of the New York Edition 1907 1909 However James lived on to write vigorously for nearly a decade longer In this compelling study Adeline R Tintner perhaps the foremost living James scholar focuses her expertise on the writer s final years exploring how his work developed and how his ideas changed in response to events in the twentieth century As Tintner illustrates despite his age and the long career behind him James heralded in his later works the modernism that would be most fully represented by Joyce Eliot and Proust The twentieth century came to life for James during his long delayed visit to America in 1904 and 1905 This trip resulted in his critical look at his native country The American Scene 1907 a book Tintner argues is only now beginning to be appreciated The trip also revitalized his review of his body of work in the famed New York Edition Tintner explores James s revisions of his earlier novels especially of Roderick Hudson The American and most important the retouched Portrait of a Lady in which he refined Isabel Archer's aesthetic tastes to match his own She also reads James s late autobiographical writings as a form of experimental fiction that would be the hallmark of twentieth century modernism Indeed Tintner explains that James s final writings demonstrate how he thoroughly embraced the new century and anticipated several of the chief ideas that would dominate modern literature He reacted to the new economy and to the preoccupation with money in his unfinished novel The Ivory Tower explored the idea of the interaction between historical time and the present with his uncompleted The Sense of the Past and expressed concern with the deprivation of culture among the lower middle classes The flying machine the cinematograph and the Kodak entered his twentieth century vocabulary and he parodied his own usurping consciousness in his Monologue for Ruth Draper James even relaxed his treatment of sexuality as is apparent in his suggestion of autoeroticism in The Figure in the Carpet and in what seems to be a description of the gay scene in The Sacred Fount He became a propagandist during World War I devoting the end of his career to urging American entry into the conflict His last published writings before he died of a stroke on February 28 1916 were emotional tributes to casualties of the war A fitting finale to Tintner's five astonishing works on the world of Henry James The Twentieth Century World of Henry James will stand as one of the most significant volumes on the writer s last years Through an amazing excavation of James s life and work Tintner uncovers many of the modernist themes that preoccupied him as he entered the new century and that in turn were to preoccupy many of the writers who came to maturity in the first half of the twentieth century Man from the Valley Francis P. Miller, The Russian Memoir Beth Holmgren, 2003 The essays in this volume seek to appreciate the literary construction of the memoir with its dual agendas of individualized expression and reliable reportage and explore its functions as interpretive history social modelling and

political expression in Russian culture The memoirs under scrutiny range widely including those of the private person Princess Natalia Dolgorukaia sophisticated high culture writers Nikolai Zabolotskii Vladimir Nabokov Joseph Brodsky cultural critics and facilitators Lidiia Ginzburg Avdot ia Panaeva political dissidents Evgeniia Ginzburg Elena Bonner and popular artists filmmaker Elidar Riazanov It examines each memoir for its aesthetic and rhetorical features as well as its cultural circumstances In mapping the memoir s social and historical significance the essays consider a wide range of influences and issues including the specific impact of the author s class gender ideology and life experience on his her witnessing of Russian culture and society *Dictionary of Anonymous and Pseudonymous English Literature: M-P* Samuel Halkett, John Laing, 1928 A Dictionary of the Anonymous and Pseudonymous Literature of Great Britain Samuel Halkett, John Laing, 1883
