psychoanalysis Bion continued to innovate throughout his life but the Memoir has been largely overlooked Focusing on A Memoir of the Future is not only of deep interest in terms of the author's biography or even only in function of a better understanding of his theoretical concepts but can also be considered for all intents and purposes the final chapter of an ingenious creative enterprise While by some it was thought as the evidence of Bion's presumed senility this book challenges that perspective arguing that it represents the last challenge he issued to the psychoanalytic Establishment In each chapter the authors explore this notion that A Memoir forms an essential part of Bion's theory and that in it he establishes a new aesthetic psychoanalytic paradigm With an international list of distinguished authors this is a key book for any analysts interested in a comprehensive understanding of Bion's work

*Psychoanalytic Patterns in the Work of Graham Greene* Roland A. Pierloot, 2023-12-14 In Greene's writings we notice a genuine concern with social and political conflicts at different places in the world But at the same time they bear witness to a distinct involvement in problems of human nature and behaviour In this respect we can formulate some dominating preoccupations such as the stressing of antitheses and antagonisms which he calls himself cleavage the questioning of loyalty and the claiming of the right to disloyalty the repercussion of childhood experiences in particular the father son relationship on adult life and the transcendental dimension in human experience From a psychoanalytic viewpoint we analyse the various elaborations of these general themes in the work of Greene as symbolizations of specific unconscious phantasies defined in the writings of Freud Klein Fairbairn Kernberg Kohut and

Winnicott This analysis of the imaginary world of an author is conceived as analogous to a clinical psychoanalysis It is a hermeneutical activity based on the countertransference experience evoked by the reading of the text while taking into account the manifold strategies of symbolizing in a literary work the choice of the genre themes text construction tropes word plays figurative language repetition discontinuity parallelism plot and characters Russian Literature and Psychoanalysis Daniel Rancour-Laferrriere, 1989-01-01 This is a collection of psychoanalytical essays on a broad spectrum of well known Russian authors such as Puskin Dostoevsky Gogol Belyj Tjutcev Axmatova and Nabokov The volume includes some reprints among which a contribution by Sigmund Freud on Dostoevsky and Parricide The majority of the contributions are original publications by present day specialists in the field This is a book which may benefit literary scholars as well as professional psychoanalysts
