*The Shah* Abbas Milani, 2012-05-22 An Iranian scholar chronicles the life and legacy of the last Shah of Iran including his role in the creation of the modern Islamic republic  
Prince Ḥamīd Qājār, 1996 The project was launched at Harvard's Centre for Middle East Studies It provides scholars endeavouring to study the contemporary political history of Iran with primary source material consisting of personal accounts of 132 individuals who played major roles in important political events and decisions in Iran from the 1920s to the 1970s or witnessed these events and decisions from close range Prince Hamid Kadjar was the grandson of Mohammad Ali Shah Qajar reigned 1907-9 nephew of Ahmad Shah reigned 1909-25 and son of Crown Prince Mohammad Hassan Mirza 1909-25 and Mohtaram al Saltaneh Razzaghi the second of five wives married to the Crown Prince He was born in Tabriz on April 23 1918 In October 1925 the Iranian Majles parliament disposed the Qajars after 140 years of rule On the same day Prince Hamid's father who was holding fort in Tehran during Ahmad Shah's extended stay in Europe was expelled from the country He headed for Paris and joined the rest of his family At the age of seven he was sent to England to live and study under the guardianship of a prominent English family In 1942 as the Second World War engulfed Europe Prince Hamid volunteered for the Royal Navy and was commissioned as a sub lieutenant Prince Hamid lived his years of retirement with his wife in London After a brief illness he died on May 5 1998 and was buried in Brookwood Cemetery in Surrey In an obituary the Times of London May 9 1988 said Though very much a Persian in appearance Prince Hamid had a bluff and breezy British quarterdeck manner combined with a shrewd insight into both British and Iranian affairs He excelled as a raconteur and had a wide circle of British friends **Farewell Shiraz** Cyrus Kadivar, 2017-06-16 A poignant memoir of pre 1979 Iran and the human drama behind the fall of the last shah In October 1999 during a trip to Cairo Cyrus Kadivar an exiled Iranian living in London visited the tomb of the last shah and opened a Pandora's box Haunted by nostalgia for a bygone era he recalled a protected and idyllic childhood in the fabled city of Shiraz and his coming of age during the 1979 Iranian revolution Back in London he reflected on what had happened to him and his

family after their uprooting and decided to conduct his own investigation into why he lost his country. He spent the next ten years seeking out witnesses who would shed light on the last days of Pahlavi rule. Among those he met were a former empress, ex courtiers, disaffected revolutionaries and the bereaved relatives of those who perished in the cataclysm. In *Farewell Shiraz*, Kadivar tells the story of his family and childhood against the tumultuous backdrop of twentieth century Iran from the 1905-1907 Constitutional Revolution to the fall of Mohammad Reza Shah Pahlavi, before presenting accounts of his meetings with key witnesses to the Shah's fall and the rise of Khomeini. Each of the people interviewed provides a richly detailed picture of the momentous events that took place and the human drama behind them. Combining exquisite vignettes with rare testimonials and first hand interviews, *Farewell Shiraz* draws us into a sweeping yet often intimate account of a vanished world and offers a compelling investigation into a political earthquake whose reverberations still live with us today.

**State, Religion, and Revolution in Iran, 1796 to the Present** B. Moazami, 2013-11-07 Two basic assumptions have shaped understanding of recent Iranian history. One is that Shi'ism is an integral part of Iran's religious and cultural landscape. The other is that the ulama, religious scholars, have always played a crucial role. This book challenges these assumptions and constructs a new synthesis of the history of state and religion in Iran from 1796 to the present, while challenging existing theories of large scale political transformation. Arguing that the 1979 revolution has not ended, Behrooz Moazami relates political and religious transformations in Iran to the larger instability of the Middle East region and concludes that turmoil will continue until a new regional configuration evolves.

**The Fall of Reza Shah** Shaul Bakhash, 2021-01-14 Reza Shah's authoritarian and modernising reign transformed Iran but his rule and Iran's independence ended in ignominy in 1941. In this book, Shaul Bakhash tells the full story of the Anglo-Soviet invasion which led to his forced abdication, drawing upon previously unused sources to reveal for the first time that the British briefly but seriously toyed with the idea of doing away altogether with the ruling Pahlavis and considered reinstalling on the throne a little-regretted previous dynasty. Bakhash charts Reza Shah's final journey through Iran and into his unhappy exile, his life in exile, his reminiscences, his testy relationship with the British in Mauritius and Johannesburg and the circumstances of his death. Additionally, it reveals the immense fortune Reza Shah amassed during his years in power, his finances in exile and the drawn-out dispute over the settlement of his estate after his death. A significant contribution to the literature on Reza Shah and British imperialism as it played out in the case of one critical country during World War II, the book reveals the fraught relationship between a once powerful ruler in his final days and the British government at a critical moment in recent history.
