Effects of Prenatal Cocaine Exposure on Beh ... L. P. Spear, **Prenatal Cocaine Exposure** Elizabeth F. Shores,1991 This special report provides answers to six fundamental questions on prenatal cocaine exposure 1 What problems do drug exposed newborns have 2 How many of these children are there 3 How do we get pregnant women to avoid drugs and alcohol 4 What should be done to help the families of substance abusers 5 How do drug exposed children develop 6 How should schools assess and prepare for drug exposed children It is concluded that careful developmentally appropriate assessment will be crucial if children with prenatal drug exposure are to receive the best services Further those services will not be the same for every child Fetal cocaine exposure does not create a uniform set of delays The problems it tends to cause can be greatly exacerbated by a poor home life Evaluation is complicated by the fact that behavior problems and developmental delays which seem to indicate prenatal drug exposure could be the result of other factors such as divorce or death in the family Nevertheless many Southerners are hopeful that drug exposed children can succeed in regular classrooms if teachers get enough support and training RH **Prenatal Cocaine Exposure** Michelle Mentis,1998
