**Learning in Adulthood** Sharan B. Merriam,Rosemary S. Caffarella,Lisa M. Baumgartner,2012-03-21 In this updated landmark book the authors have gathered the seminal work and most current thinking on adult learning into one volume *Learning in Adulthood* addresses a wide range of topics including Who are adult learners How do adults learn Why are adults involved in learning activities How does the social context shape the learning that adults are engaged in How does aging

affect learning ability      *The Art of Law Teaching* Lutz-Christian Wolff, 2020-12-07 Written by an award winning professor with over 25 years of experience this book explains comprehensively the different facets of law teaching from the law teacher's perspective. It uniquely covers numerous topics which have been ignored by the legal education literature so far but which are of immense importance for the success of law students, law schools and last but not least the day to day work of law teachers themselves. These topics include the goals of law teaching, the factors that lead to successful law teaching, special characteristics of good law teachers, different ways of preparing for in class success, face to face versus online teaching, the in class teaching experience, assessments, teaching evaluations, the design of new courses and programmes, the teacher student and the teacher teacher relationship, the importance of teaching administration as well as the future of law teaching in the digital age. The author approaches various themes from the viewpoint of his own experience. He tells his very personal stories of classroom success and failure, of enthusiasm, fun and disappointments when dealing with law students, of accomplishments and frustrations when considering learning outcomes and of surprises when dealing with red tape. He thus allows the readership to grasp different aspects of law teaching in a very hands on way and facilitates the understanding of the underlying, often rather complex, human to human relationships. This book should be in the bookshelf of any law teacher. As it covers a wide spectrum of so far unexplored legal education issues, it is also an invaluable source at the start of a law teaching career but also for established law teachers who wish to reflect on their own teaching approaches. A rich body of cross references to the existing literature makes the book a powerful tool for research on any aspect of legal education. Last but not least, the author's ironic sense of himself and of the law teacher profession makes the book a very entertaining read for anybody who always wanted to know what law teaching really is and is not about.      *Partisans of the Southern Press* Carl Osthaus, Carl R Osthaus examines the southern contribution to American Press history from Thomas Ritchie's mastery of sectional politics and the New Orleans Picayune's popular voice and use of local color to the emergence of progressive New South editors Henry Watterson, Francis Dawson and Henry Grady who imitated as far as possible the New Journalism of the 1880s. Unlike black and reform editors who spoke for minorities and the poor, the South's mainstream editors of the nineteenth century advanced the interests of the elite and helped create the myth of southern unity. The southern press diverged from national standards in the years of sectionalism, Civil War and Reconstruction. Addicted to editorial diatribes rather than to news gathering, these southern editors of the middle period were violent partisan and vindictive. They exemplified and defended freedom of the press but the South's press was free only because southern society was closed. This work broadens our understanding of journalism of the South while making a valuable contribution to southern history.

**Violent Waters: Literary Border Crossings in a Global Age** Alexandra Campana, 2020-08-10 The experience of witnessing and undertaking border crossings has become a pillar of the contemporary human condition.
