Op. 16

for acquiring the greatest possible independence and evenness of the fingers

By Aloys Schmitt

Repeat each of the exercises for at least 10-20 times or more, and only play the closing note at the final repetition. At first, practice hands separate, then together, keeping both hands steady and quiet throughout. Practice slowly at first, then increase speed gradually as the fingers gain flexibility and strength. It is advisable to practice these in the keys and without changing the given fingering.
