Preparing the Professoriate of Tomorrow to Teach ,1991 The Power of Clinical Preparation in Teacher Education

Ryan Flessner, Debra R. Lecklider, 2017-09-08 Preparing teachers to work in our nation's classrooms presents an array of challenges for teacher educators. Recently organizations such as the American Association of Colleges for Teacher Education (AACTE), the National Council for Accreditation of Teacher Education (NCATE), and the Council of Chief State School Officers (CCSSO) released reports calling for change supporting clinical teacher preparation and encouraging links between university faculty, clinical faculty, P-12 educators, and pre-service teachers. This book, as well as its companion text *Case Studies of Clinical Preparation in Teacher Education: An Examination of Three Teacher Preparation Partnerships*, responds to calls for change in teacher education. Sponsored by the Association of Teacher Educators (ATE) and its Commission on Clinically Based Teacher Preparation, the book includes program descriptions, theoretical frameworks, and research studies initiated in response to Dr. Nancy Zimpher's keynote speech at ATE's 2011 Annual Meeting. The Commission on Clinically Based Teacher Preparation set out to identify exemplary programs of teacher education, promising practices within those programs, and research related to the programs' clinical practices. This text represents the Commission's findings.

A Case for Change in Teacher Preparation Julie Gorlewski, Amanda Winkelsas, Suzanne N. Rosenblith, Corrie Stone-Johnson, Elisabeth Etopio, David Gorlewski, Tiffany Karalis Noel, Bobbie Finocchio, Amanda Seccia, Ling Zhai, Erin Kearney, Xiufeng Liu, Nooshin Shafaei, Tanika Shedrick, 2021-08-19 Why

are preservice teachers often told by veteran teachers to forget what you learned in teacher preparation programs Why is there a gap between pedagogical practices employed at schools and those taught at colleges and universities And why after evidence from countless studies are there still so few teachers of color working in our rapidly diversifying schools These questions are addressed in this book which describes a reconceptualized teacher preparation program based on a teacher residency model This model is grounded in three core beliefs first that teacher quality is a shared responsibility between universities and school districts second that all students have a right to high quality teachers who are as racially ethnically and linguistically diverse as the students they teach and third that for education to be transformative future educators must have the right balance of theoretical knowledge and practical experiences grounded in specific contexts Through a combination of rich description and qualitative and quantitative program data the authors make the case that university programs focused on the communities they serve can ensure more effective learner ready teachers who remain in the profession longer By providing a detailed blueprint for program development the contents of this book will be of value and interest to educational leaders policy makers and researchers
