Poetry, Publishing, and Visual Culture from Late Modernism to the Twenty-first Century Natalie

Pollard, 2020-05-27 This is a book about contemporary literary and artistic entanglements word and image media and materiality inscription and illustration It proposes a vulnerable fugitive mode of reading poetry which defies disciplinary categorisations embracing the open endedness and provisionality of forms This manifests itself interactively in the six case studies which have been chosen for their distinctness and diversity across the long twentieth century the book begins with the early twentieth century work of writer and artist Djuna Barnes exploring her re animation of sculptural and dramatic sources It then turns to the late modernist artist and poet David Jones considering his use of the graphic and plastic arts in *The Anathemata* and next to the underappreciated mid century poet F T Prince whose work uncannily re activates Michelangelo s poetry and sculpture The second half of the book explores the collaborations of the canonical poet Ted Hughes with the publisher and artist Leonard Baskin during the 1970s the innovative late twentieth century poetry of Denise Riley who uses page space and embodied sound as a form of address and finally the contemporary poet Paul Muldoon who has collaborated with photographers and artists as well as ventriloquising nonhuman phenomena The resulting unique study offers contemporary writers and readers a new understanding of literary artistic and nonhuman practices and shows the cultural importance of engaging with their messy co dependencies The book challenges critical methodologies that make a sharp division between the textual work and the extra literary and raises urgent questions about the status and autonomy of art and its social role **The Utopian Moment in Contemporary American Poetry** Norman Finkelstein, 1993 This second edition includes all of the material from the first in depth analyses of the work of such poets as George Oppen John Ashbery Robert Duncan and William Bronk as well as a new Preface and a lengthy chapter on the younger language poets [The Cambridge Companion to American Literature of the 1930s](#) William Solomon, 2018-09-20 This Companion offers a compelling survey of American literature in the 1930s These thirteen new essays by accomplished scholars in the field provide re examinations of crucial trends in the decade the rise of the proletarian novel the intersection of radical politics and experimental aesthetics the documentary turn the rise of left wing theatres popular fictional genres the impact of Marxist thought on African American historical writing the relation of modernist prose to mass entertainment Placing such issues in their political and economic contexts this Companion constitutes an excellent introduction to a vital area of critical and scholarly inquiry This collection also functions as a valuable reference guide to Depression era cultural practice furnishing readers with a chronology of important historical events in the decade and crucial publication dates as well as a wide ranging bibliography for those interested in reading further into the field **A History of American Poetry** Richard Gray, 2015-03-30 A History of American Poetry presents a comprehensive exploration of the development of American poetic

traditions from their pre Columbian origins to the present day Offers a detailed and accessible account of the entire range of American poetry Situates the story of American poetry within crucial social and historical contexts and places individual poets and poems in the relevant intertextual contexts Explores and interprets American poetry in terms of the international positioning and multicultural character of the United States Provides readers with a means to understand the individual works and personalities that helped to shape one of the most significant bodies of literature of the past few centuries

Rethinking the Vanguard John W. Maerhofer, 2009-05-27 How has political revolution figured into the development of avant garde cultural production Is the vanguard an antiquated concept or does its influence still resonate in the 21st century Focusing closely on the convergence of aesthetics and politics that materialized in the early part of the twentieth century this study offers a re interpretation of the historical avant garde from 1917 to 1962 a turbulent period in intellectual history which marked the apex crisis and decline of vanguardist authority Moving from the impact of the Bolshevik Revolution to the anti imperialist and decolonizing movements in the Third World to the emergence of neo vanguardism in the wake of postmodernity this study opens the way for understanding the transformation of vanguardist cultural paradigms from a global perspective the implications of which also reveal its relevance and application to the contemporary period *Late*

Modernism Tyrus Miller, 1999-02-25 The late modernists were the ones who let down the side they saw the wave of the future the erosion of literary and political borders and they let the world in and so distinguished themselves from the refinements of the early modernists This is the first book to make this fascinating distinction and to highlight this aspect of intellectual history and to situate Mina Loy Djuna Barnes Wyndham Lewis and Samuel Beckett at this critical juncture **Toward the**

Design Joseph M. Conte, 2016-05-15 Drawing on the work of contemporary American poets from Ashbery to Zukofsky Joseph

M Conte elaborates an innovative typology of postmodern poetic forms In Conte s view looking at recent poetry in terms of the complementary methods of seriality and proceduralism offers a rewarding alternative to the familiar analytic dichotomy of open and closed forms Jewish American Poetry Jonathan N. Barron, Eric Murphy Selinger, 2000 A rich and provocative overview of Jewish American poetry Ezra Pound: Poet A. David Moody, 2014-09-25 The long awaited second volume of A David Moody s critically acclaimed three part biography of Ezra Pound weaves together the illuminating story of his life his achievements as a poet and a composer and his one man crusade for economic justice The years 1921 1939 were the most productive of Pound s career In 1920s Paris he was among the leading figures of the avant garde and in that ambience he composed an opera made original contributions to the theory of harmony and wrote the first thirty cantos of his great epic Moody explores this creativity in fascinating detail examining the environment that allowed for some of Pound s greatest work This period also brought Pound s politics firmly into view and Moody is able to shed new light on his sympathy for Mussolini s Fascism his invoking Confucian China as a model of responsible government and his abiding commitment to the democratic values of the American Constitution Pound is revealed as a great poet and a flawed idealist caught up in the turmoil of his darkening time and struggling sometimes blindly and in error and self contradiction to be a force for enlightenment *The Graphics of Verse* Daniel Matore, 2024-01-04 Exploiting the expressive possibilities of print from spacing and indentation to alignment and typeface is one of the defining ways in which poetry was modernized in the twentieth century This book explores why British and American poets choose to experiment with the design and lay out of the printed page **Time in Time** J. Mark Smith, 2013-01-01 Edgar Allan Poe arguing that brevity and intensity were the essence of poetry declared there was no such thing as a long poem It can also be said there is no difference between a short and a long poem except duration a measure of time Time in Time examines what the difference really is and investigates the interplay of short and long forms in contemporary poetry Moving beyond the opposition of lyric and experimental schools Time in Time constructs a history of recent North American efforts to bring about a more open poetic form Contributors explore ways in which the work of Louis Zukofsky William Carlos Williams Jackson Mac Low George Oppen Hannah Weiner A R Ammons Marjorie Perloff Er n Moure Ron Silliman and Kenneth Goldsmith reconceives reframes and sometimes interknits the possibilities of short and long poems In doing so the collection offers insight into the affiliative networks and inter generational lines of avant gardism on the continent Attuned to the surprising reversals and unstable categories of the period Time in Time illuminates the ongoing encounter of literary creativity with the limits and possibilities of form Contributors include Adam Dickinson Brock University Kerry Doyle York University Rachel Blau DuPlessis Temple University Steve McCaffery SUNY Buffalo Er n Moure Montreal Michael O Driscoll University of Alberta Jennifer Russo City University of New York Graduate Center and J Mark Smith Grant MacEwan University *Letter Writing Among Poets* Jonathan Ellis, 2015-01-13 Fifteen enlightening chapters by leading international biographers critics and poets examine letter writing

The Poetics of Information Overload Paul Stephens, 2015-07-30 Information overload is a subject of vital ubiquitous concern in our time The Poetics of Information Overload reveals a fascinating genealogy of information saturation through the literary lens of American modernism Although technology has typically been viewed as hostile or foreign to poetry Paul Stephens outlines a countertradition within twentieth and twenty first century literature in which avant garde poets are centrally involved with technologies of communication data storage and bureaucratic control Beginning with Gertrude Stein and Bob Brown Stephens explores how writers have been preoccupied with the effects of new media since the advent of modernism He continues with the postwar writing of Charles Olson John Cage Bern Porter Hannah Weiner Bernadette Mayer Lyn Hejinian and Bruce Andrews and concludes with a discussion of conceptual writing produced in the past decade By reading these works in the context of information systems Stephens shows how the poetry of the past century has had as a primary focus the role of data in human life

The Mind's Landscape David Clippinger, 2006 Throughout the latter half of the twentieth century the poet William Bronk 1918 1999 was a significant voice in the American literary landscape Even though he spent nearly all of his life in Hudson Falls NY Bronk was a vital presence in American poetry as evidenced by his connections to Robert Frost Charles Olson George Oppen Robert Creeley Wallace Stevens Susan Howe Rosemarie Waldrop and others The Mind's Landscape attempts to present a fresh perspective of twentieth century literary history as seen through the lens of Bronk's life as a writer

Expressivity in Modern Poetry Donald Wellman, 2019-02-26 Expressivity in Modern Poetry explores three interrelated subjects The first is a general exposition of the radical or deeply realistic aspects of the poetry and visual arts of the modern period The focus is on the works of Ezra Pound as understood through a prism of postmodern thought The second subject is the poetry and poetics of Charles Olson a pivotal figure during the transition from modernism to postmodernism The third subject is contemporary innovative poetry with special attention to transcultural neobarroco and language centered aspects of composition The grounding for this section is found in the works of William Carlos Williams Aime Cesaire and Jose Lezama Lima A reversal of the relation between the center and periphery decentering the New York to Paris vector is crucial for understanding the Caribbean as a seedbed for both innovative and identity based poetics Wellman's purpose is to amplify the cultural importance of expressivity in a field where critical discussion is often dominated by constructivism and conceptualism Expressivity in Modern Poetry offers a new reading of the relation between twentieth century modernism and contemporary poetic practice

Poetics and Praxis 'After' Objectivism W. Scott Howard, Broc Rossell, 2018-08-15 Poetics and Praxis After Objectivism examines late twentieth and early twenty first century poetics and praxis within and against the dynamic disparate legacy of Objectivism and the Objectivists This is the first volume in the field to investigate the continuing relevance of the Objectivist ethos to poetic praxis in our time The book argues for a reconfiguration of Objectivism adding

contingency to its historical values of sincerity and objectification within the context of the movement's development and disjunctions from 1931 to the present. Essays and conversations from emerging and established poets and scholars engage a network of communities in the U.S., Canada, and the U.K. shaped by contemporaneous oppositions as well as genealogical albeit discontinuous historicisms. This book articulates Objectivism as an inclusively local, international, and interdisciplinary ethos and reclaims Objectivist poetics and praxis as modalities for contemporary writers concerned with radical integrations of aesthetics, lyric subjectivities, contingent disruption, historical materialism, and social activism. The chapter authors and roundtable contributors reexamine foundational notions about Objectivism: who the Objectivists were and are, what Objectivism has been, now is, and what it might become, delivering critiques of aesthetics and politics of race, class, and gender, and of the literary and cultural history of the movement's development and disjunctions from 1931 to the present.
