OLIVER, 2015 **Prescription for Marriage** Mary Brinker Post, 1952 Love Life for Every Married Couple Ed Wheat, Gloria Okes Perkins, 1980 This book details the process of rediscovering the joy of marriage through practical counsel involving communication and an understanding of each other in our sexual make up The Revised Civil Code of the State of Louisiana Louisiana, Edwin Thomas Merrick, 1900 **The American Journal of Clinical Medicine** , 1921 **The Marital Prescription** Lenny O. Harvey, 2018-04-16 The marriage prescription is loaded with mental medication intended to increase your relationship aptitude and help a couple embrace a solid emotional bill of health The MP is a vital supplement for those life partners that are thriving together and want to stay that way It is advantageous to consume this while things are good before challenging climates and infectious perceptions attempt to erode the character of your marriage The MP will present crucial antibiotic answers given for these couples that are in an extremely unhealthy place It will help those that need advance counsel to fight against reproducing contaminated behaviors that further a diseased outlook on their life together **The American Stationer and Office Outfitter** , 1921 **The French Civil Code (as Amended Up to 1906)** France, 1908 **God's Prescription for Marriage and Relationships** Andrew J. Scott, 2006 *Anthropological Theory* Robert Alan Manners, David Kaplan, Anthropological theory has been much discussed in recent years yet the crucial questions still remain how can it be defined how is it developed how is it to be applied and how can one confirm it The editors of Anthropological Theory answer these questions by presenting essays relating to various aspects of anthropological theory Their selections from widely scattered and often difficult to obtain sources present a comprehensive set of writings that describe the current position and issues involved in theory The development of field work in anthropology generated a tremendous emphasis on empirical data and research The plethora of information awaiting collection and the enthusiasm with which the field embraced it so immersed anthropologists that they were unable to relate this new information to the field as a whole Manners and Kaplan believe that this lack of generalization had a profoundly negative effect upon the discipline Therefore they look closely into the relationship between field work and theory in an opening essay and go on to present material that demonstrates the value and the necessity of theory in anthropology Essays by anthropologists and other social scientists deal with explanation evolution ecology ideology structuralism and a number of other issues reflecting throughout the editors conviction that anthropology is a science the goal of which is to produce generalizations about sociocultural phenomena The book provides necessary perspective for examining and evaluating the crucial intellectual concerns of modern anthropology and will therefore be important for the work of every anthropologist Robert A Manners 1913 1996 received his Ph D from Columbia University and carried on field work in the Caribbean among American Indians in the Southwest and in East Africa He wrote numerous articles and reviews for anthropological journals as well as many

books He was professor of anthropology Brandeis University where he started up the department David Kaplan is professor emeritus of anthropology at Brandeis University He has contributed articles and reviews to various journals He has also done field work in Mexico and his areas of specialty include economic anthropology method and theory and peasant culture of Mesoamerica
