Presence Of The Past A History Of The Pr:

The Presence of the Past Roy Rosenzweig, David Thelen, 1998-11-05 Some people make photo albums collect antiques or visit historic battlefields Others keep diaries plan annual family gatherings or stitch together patchwork quilts in a tradition learned from grandparents Each of us has ways of communing with the past and our reasons for doing so are as varied as our memories In a sweeping survey Roy Rosenzweig and David Thelen asked 1 500 Americans about their connection to the past and how it influences their daily lives and hopes for the future The result is a surprisingly candid series of conversations and reflections on how the past infuses the present with meaning Rosenzweig and Thelen found that people assemble their experiences into narratives that allow them to make sense of their personal histories set priorities project what might happen next and try to shape the future By using these narratives to mark change and create continuity people chart the courses of their lives A young woman from Ohio speaks of giving birth to her first child which caused her to reflect upon her parents and the ways that their example would help her to become a good mother An African American man from Georgia tells how he and his wife were drawn to each other by their shared experiences and lessons learned from growing up in the South in the 1950s Others reveal how they personalize historical events as in the case of a Massachusetts woman who traces much of her guarded attitude toward life to witnessing the assassination of John F Kennedy on television when she was a child While the past is omnipresent to Americans history as it is usually defined in textbooks leaves many people cold Rosenzweig and Thelen found that history as taught in school does not inspire a strong connection to the past And they reveal how race and ethnicity affects how Americans perceive the past while most white Americans tend to think of it as something personal African Americans and American Indians are more likely to think in terms of broadly shared experiences like slavery the Civil Rights Movement and the violation of Indian treaties Rosenzweig and Thelen s conclusions about the ways people use their personal family and national stories have profound implications for anyone involved in researching or presenting history as well as for all those who struggle to engage with the past in a meaningful way *The Presence of the Past in Children's Literature* Ann Lucas, 2003-09-30 Time is one of the most prominent themes in the relatively young genre of children s literature for the young like adults want to know about the past This book explores how children s writers have treated the theme and concept of time The volume starts with the application of literary theory and additionally analyzes examples of the juvenile historical novel In doing so it also examines changing fashions in criticism and publishing and the pressure they exert on writers It then considers literary adaptations of myths and archetypes constructions of history in children s literature colonial and postcolonial children s fiction and the treatment of the past in the postmodern era The book looks at literature from around the world and the expert contributors are from diverse countries and backgrounds While the book looks primarily at literature of the 19th and 20th centuries it considers a broad range of historical material treated in works from that period Included are discussions of such topics as Joan of Arc in children s literature the legacy of Robinson Crusoe

colonial and postcolonial children's literature the Holocaust and the supernatural International in scope the volume examines history and collective memory in Portuguese children's fiction Australian history in picture books Norwegian children's literature and literary treatments of the great Irish famine

The Presence of the Past Daniel Bishop, 2021 The Presence of the Past offers a new perspective on Hollywood's New Wave as engaged with the vitality of sensory experience and the affective imagination As author Daniel Bishop shows the soundtracks of several key films of the New Hollywood Cinema of the late 1960s and 70s cultivated an array of sensibilities regarding the American past This importance of the past exceeded the New Hollywood's acknowledged use of genre revisionism as a vehicle for timely ideological commentary There was also a vital tendency in this era to locate the past as an object of imagined phenomenal presence Although this concept of the past never solidified into a self-conscious discourse it was nevertheless woven into film culture readable between the lines of criticism cultural reception New Wave aesthetics and in the aesthetic and industrial transformations of sound design and film music *Bonnie and Clyde* 1967 *Butch Cassidy and the Sundance Kid* 1969 *McCabe and Mrs Miller* 1971 *The Last Picture Show* 1971 *American Graffiti* 1973 *Chinatown* 1974 and *Badlands* 1973 are not only key texts of an exciting era in American popular cinema They are also mediations upon the presence of the past an image central to the polarities of visceral energy and ambiguous ephemerality of utopian dreams and melancholy resignation that characterized this cinema These sensibilities of pastness engage in diverse ways with myth nostalgia paranoia and existential alienation They are however also united by a concern both with the experiential actuality of the past and with the distances that inevitably separate us from this actuality

In the Presence of the Past R.T. Bienvenu, M. Feingold, 2013-03-11 The broad canvas covered by the articles in the present volume celebrates the diversity and richness of the writings of Frank Manuel during a scholarly career that spans over five decades The subjects of the articles ranging from science to utopia from theology to political thought mirror many of the themes Manuel has written about with erudition flair and uncommon perception It is only fitting that in paying tribute to such a defiant intellect each author brings to his treatment a distinct perspective and texture the result of his own original forays into the history of ideas Yet underlying all the essays is the conviction that the study of the intersection of individuals and ideas still yields a rich harvest Presented to Frank on the occasion of his eightieth birthday In the Presence of the Past honors a teacher a friend and above all a scholar R T Bienvenu and M Feingold eds In the presence of the past vii MARTIN PERETZ Frank Manuel An Appreciation It was finally because of Frank Edward Manuel that I decided however belatedly to forgo a proper academic career Since I had not left so much as a leafscar on the tree of the scholarly culture this is not a fact which anyone else would have reason to notice It is also not I am happy to add something for which Manuel will be especially remembered

Ancestral Presence Eric Hirsch, 2020-12-28 Ancestral Presence tells a history that has more than one history in it while also telling the story of the relation between worlds For the Fuyuge people of the Papuan highlands the past is not history in a conventional sense For them the world and its history derive from a creator force called Tidibe which is central to Fuyuge cosmology the Fuyuge are at the centre of the world But Fuyuge people are part of another history too they have experienced decades of mission and government influence from centres of power located elsewhere to which their mountain home is marginal and remote Through a detailed exploration of Fuyuge myth changes to ritual life and cosmology Eric Hirsch weaves an account of the relationship between these two histories He documents the real changes wrought by colonialism government and Christianity from the late nineteenth century to the turn of the millennium Yet this is not a story of continuity and change Hirsch demonstrates how transformation was always central to Fuyuge life changes brought by missionaries and government were processes they themselves initiated in the ancestral past through Tidibe the cosmological creator force Engaging in debates that have been pivotal to Melanesian anthropology the book presents an ethnographically rich account of a distinctive world cosmology and ideas of historical change It also raises questions regarding assumptions central to Western History its worldview and ideas of historical time

The Birth to Presence Jean-Luc Nancy, 1993 The epoch of representation is as old as the West Indeed representation is the West understood as what at once designates and expands its own limits But what comes after the West What comes after representation's disclosure of its own limit The central problem posed in these essays collected from over a decade of work is how in the wake of Western ontologies to

conceive the coming the birth that characterizes being We are now at the limit of representation where objects as we experience them have been show to be merely objects of representation or rather of presentation since there is nothing to represent The first part of this book Existence asks how today one can give sense of meaning to existence as such arguing that existence itself as it comes nude into the world must now be our sense In examining what this birth to presence might be we should not ask what presence is rather we should conceive presence as presence to someone including to presence itself This birth is not the constitution of an identity but the endless departure of an identity from and from within its other or others Its coming is not desire but jouissance the joy of averring oneself to be continually in the state of being born a rejoicing of birth a birth of rejoicing The second section Poetry asks What art exposes this In writing in the voice in painting And what if art is exposed to it How does it inscribe or rather exscribe in a term the book develops the coming existence as such The author s trajectory in this book crosses those of Hegel Schlegel Baudelaire Nietzsche Freud and Heidegger in their comments on art and politics existence and corporeality everyday life and its modes of existence and ecstasy An analysis that dares this crossing involves all the varied accounts of existence political as well as philosophical and all the realms of poverty

Presence Pasquale De Marco, 2025-07-07 In the realm of human experience memory and oblivion intertwine like threads in an intricate tapestry This book delves into the enigmatic nature of forgetting exploring its paradoxical power to shape our lives and unlock our full potential Through a multifaceted examination of personal experiences cultural traditions and philosophical insights we uncover the symbiotic relationship between memory and oblivion Oblivion often perceived as a force of negation paradoxically holds immense creative potential In the absence of concrete recollections imagination flourishes weaving intricate tapestries of possibility and redefining the boundaries of our perceptions This book celebrates the transformative power of absence shedding light on its role in fostering personal growth artistic inspiration and societal renewal As we delve into the forgotten voices of history and the collective memory of societies we discover how shared experiences and cultural traditions shape our sense of belonging and purpose By unraveling the threads of remembrance we not only preserve the legacy of the past but also illuminate the path towards a more enlightened future Throughout these pages we question the nature of truth and the reliability of our own memories We challenge the binary divide between fact and fiction recognizing the fluidity of narratives and the subjective nature of our perceptions The stories we tell ourselves both individually and collectively shape our understanding of the world and ultimately define who we are In this book we invite you to embrace the paradox of forgetting to recognize its role in shaping our lives and unlocking our full potential By confronting the inevitable passage of time and the impermanence of all things we gain a deeper appreciation for the present moment and the fleeting beauty of existence As we navigate the ebb and flow of memory and oblivion we discover that true presence is found in the acceptance of both the remembered and the forgotten This book is an essential guide for anyone seeking to understand the complex interplay between memory and oblivion to embrace the transformative power of loss and

to find meaning in the forgotten corners of their own lives If you like this book write a review on google books

Shoah Presence: Architectural Representations of the Holocaust Eran Neuman,2016-04-01 Through the analysis of several commemorative acts in space matter and image namely museums and memorials this book reflects on the ways in which architecture as a discipline a practice and a discourse represents the Holocaust In doing so it problematises how one presents an extreme historical case in a contemporary context and integrates the historical into actuality By examining several cases the book defines the issues faced by various architects who dealt with this topic and discusses their separate and distinctive approaches In each case it analyses the ways in which the cultural and political contexts of commemoration led to a different interpretation of the condition Focusing on the Ghetto Fighters House the world s first Holocaust museum Yad Vashem Israel s national Holocaust memorial in Jerusalem the US Holocaust Memorial Museum in Washington and the Holocaust Memorial in Berlin the book discusses how the representation of history by architecture creates a dialectic process in which architecture mediates the past to the present while at the same time creating a present saturated with historical contexts It shows how together they are incorporated into one another and create a new reality past and present intertwined

Art, Agency and Living Presence Caroline van Eck,2015-03-10 Throughout history and all over the world viewers have treated works of art as if they are living beings speaking to them falling in love with them kissing or beating them Although over the past 20 years the catalogue of individual cases of such behavior towards art has increased immensely there are few attempts at formulating a theoretical account of them or writing the history of how such responses were considered defined or understood That is what this book sets out to do to reconstruct some crucial chapters in the history of thought about such reflections in Western Europe and to offer some building blocks towards a theoretical account of such responses drawing on the work of Aby Warburg and Alfred Gell

The Art of Authorial Presence Gary Richard Thompson,1993 The critical literary world has spent a wealth of thought and words on the question of Hawthorne himself Where does he stand in his works In history In literary tradition In this major new study G R

Thompson recasts the Hawthorne question to show how authorial presence in the writer's works is as much a matter of art as the writing itself. The Hawthorne who emerges from this masterful analysis is not as has been supposed identical to the provincial narrator of his early tales; instead, he is revealed to be the skillful manipulator of that narrative voice, an author at an ironic distance from the tales he tells. By focusing on the provincial tales as they were originally conceived as a narrative cycle, Thompson is able to recover intertextual references that reveal Hawthorne's preoccupation with framing strategies and variations on authorial presence. The author shows how Hawthorne deliberately constructs sentimental narratives only to deconstruct them. Thompson's analysis provides a new aesthetic context for understanding the whole shape of Hawthorne's career as well as the narrative, ethical, and historical issues within individual works.

Revisionary in its view of one of America's greatest authors: The Art of Authorial Presence also offers invaluable insight into the problems of narratology and historiography, ethics, and psychology, romanticism and idealism, and the cultural myths of America.

A Lover's Quarrel with the Past Ranjan Ghosh, 2012. Although not a professional historian, the author raises several issues pertinent to the state of history today. Qualifying the non-historian as an able interventionist in historical studies, the author explores the relationship between history and theory within the current epistemological configurations and reconfigurations. He asks how history transcends the obsessive linguistic turn which has been hegemonizing literary discourse analysis and focuses greater attention on historical experience and where history stands in relation to our understanding of ethics, religion, and the current state of global politics that underlines the manipulation and abuse of history.

Derrida on Being as Presence David A. White, 2017-04-24. Jacques Derrida's extensive early writings devoted considerable attention to being as presence, the reality underlying the history of metaphysics. In *Derrida on Being as Presence: Questions and Quests*, David A. White develops the intricate conceptual structure of this notion by close exegetical readings drawn from these writings. White discusses cardinal concepts in Derrida's revamping of theoretical considerations pertaining to language, signification, context, negation, iterability, as these considerations depend on the structure of being as presence and also as they ground deconstructive reading. White's appraisal raises questions invoking a range of problems. He deploys these questions in conjunction with thematically related quests that arise given Derrida's conviction that the history of metaphysics, as variations on being as presence, has concealed and skewed vital elements of reality. White inflects this critical apparatus concerning being as presence with texts drawn from that history, e.g., by Plato, Aristotle, Bacon, Hume, Kant, Whitehead. The essay concludes with a speculative ensemble of provisional categories or zones of specificity. Implementing these categories will ground the possibility that philosophy in general and metaphysics in particular can be pursued in ways which acknowledge the relevance of Derrida's thought when integrated with the philosophical enterprise as traditionally understood.
