North Atlantic Treaty Organization (NATO) ,1986 *A General's Life: An Autobiography* Omar Bradley,2019-07-29

In this autobiography Omar N Bradley 1893 1981 recounts his youth in Missouri his years at the US Military Academy at West Point he graduated in 1915 alongside Dwight D Eisenhower his assignments on the US Mexico border and in Montana guarding copper mines during World War I his tours teaching mathematics at West Point and in 1941 commanding of the US Army Infantry School at Fort Benning his active duty during World War II in North Africa Sicily Normandy and eventually commanding 43 divisions and 1 3 million Americans in Europe linking up with Soviet forces on the Elbe in April 1945 sealing the defeat of Nazi forces Bradley provides vivid descriptions of key figures in the liberation of Europe including Marshall Eisenhower Patton Churchill and Montgomery Back in Washington Bradley describes his years heading the Veterans Administration his tenure as Army Chief of Staff and as first Chairman of the Joint Chiefs of Staff starting in 1949 After being promoted to the rank of General of the Army five stars in 1950 Bradley was the senior military commander when the Korean War started he supported President Truman s wartime policy of containment and was instrumental in persuading Truman to dismiss General MacArthur in 1951 after MacArthur resisted administration attempts to scale back the war s strategic objectives The narrative deals skillfully with the planning and execution of campaigns that changed history an unmatched panorama of 40 years of American military history A great many writers have taken a crack at describing the 1944 Allied landings in Normandy but no overall description of that long bitter battle on the American beaches Utah and Omaha is better than the one in this book Drew Middleton The New York Times The most unassuming of the WW II military chiefs has in recompense the last stinging word a vigorous accomplished exceptionally unconstrained narrative Explosive yet likable Kirkus Reviews A surprisingly candid account from a man long reputed to be mild mannered discreet and uncritical of the figures of his time General Bradley has given us a very informative autobiography Especially interesting are the sections on American military participation in the North African and Sicilian campaigns and Eisenhower s role there the Normandy landings and subsequent breakout the Battle of the Bulge and President Truman s removal of General MacArthur from command in Korea He is very frank in his comments on Eisenhower s weaknesses as Allied commander in North Africa and Sicily and of Patton s ill advised behavior and remarks during that period and later He is also harshly critical of Montgomery s prima donna like behavior and his continual efforts to push Eisenhower into giving him the supreme command of all Allied ground troops With the loss of General Bradley there are unlikely to be any more top rank firsthand accounts of this period in US military history Bradley s book therefore may have the last word but he hasn t abused that privilege He was too fair a man for that Howard C Thomas The Christian Science Monitor A superb book a remarkably smooth flowing account of the life of one of this country s most distinguished military leaders Bradley s candid appraisals of his superiors subordinates and peers notably Patton Montgomery Eisenhower Simpson and Hodges make fascinating reading this is a first rate addition to

the growing number of biographies of prominent World War II military personalities Besides being eminently enjoyable reading for casual consumption it is of significant value to the student of military history Lieutenant Colonel William A de Palo Jr Infantry Magazine History of the Office of the Secretary of Defense Steven L. Rearden,1984 The Awesome Power Richard F. Haynes,1999-03-01 Since World War II the importance of the military command function of the American presidency has increased dramatically U S chief executives have emerged virtually unchecked as wielders of enormous military power The Awesome Power the first comprehensive study of Harry S Truman as commander in chief is an important and highly relevant book especially in view of the growing concern over the president s ability to wage war without the consent of either the Congress or the American people A selective chronicle of the events in which Truman s decisions were of historic significance the book analyzes his decision making process in terms of the information available to him the existing pressures and the relationship of his decisions to his own well defined concepts of how a commander in chief should function The author gives a detailed account of the events and circumstances leading up to Truman s most significant decision to use the atomic bomb against Japan He also examines Truman s decisions on postwar civilian control of atomic energy his intervention in Korea his leadership in the Cold War and his conflict with General Douglas MacArthur whose opposition to the president s limited war policies endangered the very basis of the civil military relationship Based in part on research in classified documents previously untapped by nongovernmental researchers The Awesome Power is a thorough treatment of a subject of great contemporary significance with one of the most fascinating characters in American political history as its central figure *The Test of War* Doris M.. Condit,1988 Recent Advances in the Message Passing Interface Yiannis Cotronis,Anthony Danalis,Dimitris Nikolopoulos,Jack Dongarra,2011-09-19 This book constitutes the refereed proceedings of the 18th European MPI Users Group Meeting on Recent Advances in the Message Passing Interface EuroMPI 2011 held in Santorini Greece in September 2011 The 28 revised full papers presented together with 10 posters were carefully reviewed and selected from 66 submissions Topics covered are communication I O networking and implementation issues and improvements algorithms and tools interaction with hardware applications and performance evaluation fault and tolerance **Aristotle's Syllogism and the Creation of Modern Logic** Lukas M. Verburgt,Matteo Cosci,2023-01-26 Offering a bold new vision on the history of modern logic Lukas M Verburgt and Matteo Cosci focus on the lasting impact of Aristotle s syllogism between the 1820s and 1930s For over two millennia deductive logic was the syllogism and syllogism was the yardstick of sound human reasoning During the 19th century this hegemony fell apart and logicians including Boole Frege and Peirce took deductive logic far beyond its Aristotelian borders However contrary to common wisdom reflections on syllogism were also instrumental to the creation of new logical developments such as first order logic and early set theory This volume presents the period under discussion as one of both tradition and innovation both continuity and discontinuity Modern logic broke away from the syllogistic tradition but without Aristotle s syllogism modern logic would not have been

born A vital follow up to *The Aftermath of Syllogism* this book traces the long history of syllogism from Richard Whately's revival of formal logic in the 1820s through the work of David Hilbert and the Göttingen school up to the 1930s. Bringing together a group of major international experts it sheds crucial new light on the emergence of modern logic and the roots of analytic philosophy in the 19th and early 20th centuries. *Living with Peril* Andreas Wenger, 2000-01-01 *Living with Peril* explains in detail how the Eisenhower and Kennedy administrations adapted to the reality of a Soviet nuclear force capable of destroying the United States and against which there was no effective defense. Wenger illuminates the development, implementation and evolution of U.S. government policies designed to avoid war and to respond to the vulnerability of nuclear destruction. Drawing from a wealth of sources, Wenger provides an insightful and original perspective on the origins of cold war nuclear diplomacy. This is crucial reading for students and scholars of international relations, peace and conflict studies and diplomatic history. *Using Strategy Analytics for Business Value Creation and Competitive Advantage* Kautish, Sandeep Kumar, 2024-07-26

In the field of strategic management and business intelligence a formidable challenge is present: conventional decision making processes heavily reliant on internal and external reports struggle to meet the demands of this data-driven era. As organizations grapple with the increasing influx of data, the imperative for a strategic shift becomes undeniably apparent. *Using Strategy Analytics for Business Value Creation and Competitive Advantage* helps to guide leaders in extracting value, structuring complex problems and crafting robust business strategies. Scholars and industry experts alike will find within the pages of this comprehensive guide a roadmap to navigate the intersection of organizational strategy and analytics, ultimately unlocking the key to business brilliance. *Using Strategy Analytics for Business Value Creation and Competitive Advantage* stands as a testament to the commitment to addressing the prevailing challenges in strategic decision making. Tailored for researchers, academicians, industry experts and scholars, the book delves into the intricacies of strategy analytics, offering transformative insights for those seeking a competitive edge in the evolving business landscape. Capturing the essence of this exploration, the transformative potential of strategy analytics is encapsulated in this valuable resource. **Creation without Restraint** Christina Bohannon, Herbert Hovenkamp, 2012-01-13

Creation without Restraint Promoting Liberty and Rivalry in Innovation analyzes the current state of competition, antitrust and intellectual property laws and proposes realistic reforms that will encourage innovation. As with antitrust and a reform process that aligned injury requirements in lawsuits with the incentive to compete, this book proposes similar reforms for patent and copyright law and considers both the uses and limitations of antitrust as a vehicle for intellectual property law reform. **pt.**

Sorry States Jennifer Lind, 2011-08-15 Governments increasingly offer or demand apologies for past human rights abuses and it is widely believed that such expressions of contrition are necessary to promote reconciliation between former adversaries. The post World War II experiences of Japan and Germany suggest that international apologies have powerful

healing effects when they are offered and poisonous effects when withheld West Germany made extensive efforts to atone for wartime crimes formal apologies monuments to victims of the Nazis and candid history textbooks Bonn successfully reconciled with its wartime enemies By contrast Tokyo has made few and unsatisfying apologies and approves school textbooks that whitewash wartime atrocities Japanese leaders worship at the Yasukuni Shrine which honors war criminals among Japan's war dead Relations between Japan and its neighbors remain tense Examining the cases of South Korean relations with Japan and of French relations with Germany Jennifer Lind demonstrates that denials of past atrocities fuel distrust and inhibit international reconciliation In *Sorry States* she argues that a country's acknowledgment of past misdeeds is essential for promoting trust and reconciliation after war However Lind challenges the conventional wisdom by showing that many countries have been able to reconcile without much in the way of apologies or reparations Contrition can be highly controversial and is likely to cause a domestic backlash that alarms rather than assuages outside observers Apologies and other such polarizing gestures are thus unlikely to soothe relations after conflict Lind finds and remembrance that is less accusatory conducted bilaterally or in multilateral settings holds the most promise for international reconciliation

Wars of Revelation Rebecca Lissner, 2021-10-26 Rich in historical detail and theoretical insight *Wars of Revelation* explains why the United States military interventions have repeatedly transformed its global role and what that means for the future of American grand strategy More than seventy five years since the end of World War II military interventions rather than major wars have emerged as a defining feature of contemporary geopolitics Yet for all the fierce policy debates over interventions and their lessons scholars have largely ignored the systematic linkages between these smaller scale wars and transformations in the grand strategies of states that prosecute them In *Wars of Revelation* Rebecca Lissner explains why military interventions can be crucibles of grand strategy testing strategic axioms on the battlefield and prompting combatant states to reconceive their global roles Through detailed historical case studies of US involvement in the Korean Vietnam and Persian Gulf Wars Lissner shows how each intervention generated searing insights into the capabilities and intentions of America's international adversaries as well as the potential and limits of its own national power By focusing on these three wars of revelation Lissner presents a fresh perspective on the origins and evolutions of US grand strategy from the dawn of the Cold War to its twilight Persuasively argued and historically illuminating *Wars of Revelation* is essential reading for anyone who crafts studies or follows international security policy

The Creation of Strange Non-Chaotic Attractors in Non-Smooth Saddle-Node Bifurcations Tobias H. Jäger, 2009-08-07 The author proposes a general mechanism by which strange non chaotic attractors SNA are created during the collision of invariant curves in quasiperiodically forced systems This mechanism and its implementation in different models is first discussed on an heuristic level and by means of simulations In the considered examples a stable and an unstable invariant circle undergo a saddle node bifurcation but instead of a neutral invariant curve there exists a strange non chaotic attractor repeller pair at the bifurcation point This

process is accompanied by a very characteristic behaviour of the invariant curves prior to their collision which the author calls exponential evolution of peaks **Religious Experience and the Creation of Scripture** Mark Wreford,2021-01-28

This volume examines the reasons that prompted the New Testament writers to create the texts which would become the formation of the Christian religion exploring the possibility that certain religious experiences were understood as revelatory and consequently inspired the writing of texts which were seen as special from their inception Mark Wreford uses Luke Acts and Galatians as test cases within the New Testament reflecting both on the stated importance of religious experiences whether the author s own or others to the development of these texts and the status the texts claim for themselves Wreford suggests that Luke Acts offers a helpful example of the relationship between religious experience and the creation of Scripture as an extensive narrative which reflects on early Christian claims to Spirit inspired witness and which begins with an explicit authorial statement of purpose Similarly in Galatians Paul s autobiographical account of God s revelation of Christ to him is the foundation of a letter that is intended to play an authoritative role in shaping its addressees own faith and practice Wreford argues that religious experiences are presented as the driving force behind the creation of the texts examining how such religious experience links with notions of scripture and canonicity He then asserts that both Luke and Paul understood themselves to be creating new scriptural writings on the basis of their relationship to new religious experiences citing the experience and speech at Pentecost the inclusion of gentiles in the experience and Paul s own conversion experience as key elements behind the self understanding of these New Testament authors Technical

guidance for the creation and implementation of a national fisher registry in support of fisheries management Savoré, S.,Laurent, Y.,Salazar Herrera, D.,2024-06-24 Small scale and artisanal fisheries are vital for global food security poverty reduction and sustainable resource management Despite their importance these communities often face marginalization Empowering both men and women in fisheries can lead to improved socioeconomic outcomes and sustainable development Implementing fisher registries is crucial for enhancing fishers visibility to national governments facilitating access to benefits including social protection collecting comprehensive data on fishers and fishworkers and aiding policy formulation However existing registry programmes face challenges such as low registration rates and lack of inclusivity This guidance document aims to assist countries in establishing effective fisher registries tailored to their specific contexts Key elements include defining fisher registries designing them to be interoperable with other social protection information systems and implementing and operationalizing them effectively Interoperability with other systems is crucial for maximizing the benefits of fisher registries Clear communication between stakeholders and flexibility in implementation are essential for success Overall this document serves as a practical tool for governments and stakeholders to develop or improve fisher registries with detailed sections on design implementation and interoperability along with appendices providing technical information and examples *Empowering farmers and their organizations through the creation of social capital* Food and Agriculture

Organization of the United Nations ,2020-10-13 Social capital is a key factor that concerns the ability of people to cooperate for common goals What we have learned over the past decades from organizational experiences in developing countries and countries in transition is that physical and human capital accumulation by itself is not sufficient to induce development Investments in physical capital infrastructure and equipment and human capital skills development are necessary conditions but they are far from sufficient they need to be complemented with the development of social capital Stiglitz 1998 This Learning Guide for Trainers focuses on Empowering farmers through the creation of social capital recognizing the fundamental role that social capital plays for healthy and sustainable organizations Encouraging farmers and their groups to form associations or federations enhances their capacities to learn from each other exchange reliable information about what works and what does not work and monitor the accountability of their members *pt. 2. (Continued) Some Democracies in Their Working United States* James Bryce Bryce (Viscount),1921 **From Deterrence to Engagement** Terence Roehrig,2006-01-01 From Deterrence to Engagement provides a comprehensive examination of the U S South Korea defense relationship from 1945 to the present Using deterrence theory as its framework this work explores the evolving nature of U S interests in a region that became a focal point only after the North Korean invasion in 1950 Author Terence Roehrig addresses the changing nature of the threats to U S interests in Korea especially North Korea s buildup and its efforts to acquire nuclear weapons and examines specific measures utilized by the United States to implement its deterrence policy While U S policy regarding Korea has changed over the years this timely and important work argues that although the U S commitment to protect its ally has been credible and effective the same cannot be said for its attempts to prevent North Korean nuclear proliferation From Deterrence to Engagement is certain to find an audience amongst scholars of defense policy national security and Korean security relations A Community of Interests Lawrence S.
