Presents Of Mind:

Presents of Mind Leonard M. Roth, 2024-03-19 Presents of Mind The Book is at its core a great romance destined for either obliteration by outside forces of great malice and overarching evil or an otherworldly miraculous tale of potential success in the face of unimaginable odds But let s start at the beginning of this great adventure Four billion light years from Earth in an uncharted area of the universe is the planet Cryptx which is mercilessly ruled by a draconian alien race that has enslaved the Cryptxian inhabitants of the planet Scientists have been compelled to create a super chip that could bestow on the vile ruling power great overarching powers In a deadly daring long shot clandestine attack on the secret research facility scientists steal the forbidden research they have been forced to create and escape the planet in pursuit of freedom But have they truly escaped the planet and the Black Galactic Guard that cruelly polices Cryptx and protects the ruling party On Earth Ralph Wenger a young man who was seriously injured as a child in an accident where he lost his family has been left mentally challenged and under the cruel care of a doctor guardian in Atlanta Georgia In a backwoods area of Georgia Ralph and the alien scientists inadvertently cross paths and the stolen chip is temporarily implanted in the young man s brain solely to communicate with Ralph setting in motion a momentous fight of good against evil and a love story for the ages between Ralph and a very skeptical beauty Annie Pickering a Georgia Tech student heading back from Savannah to Atlanta to start her last semester The story careens and intertwines with a race against time by Ralph and Annie attempting to stay ahead of the profoundly evil more powerful forces hell bent on killing Ralph and all others in their way to retrieve the chip from Ralph s brain and to gain the wondrous powers the chip provides to the ultimate possessor Take the ride of a lifetime with Ralph and Annie as they come to grips with the otherworldly powers of the chip and the mind numbing terror of impeded death at the hands of more powerful pursuers requiring ingenuity and stealth to survive Ultimately the question devolves to what the present from Cryptx means for Ralph s and Annie s future together if against all odds they can live to enjoy it **Liberal**

The Social Dynamics of George H. Mead M.A. Natanson, 2012-12-06 Twelve years after his *Origin of Species* Charles Darwin published his *Descent of Man* If the first book brought the gases of philosophical controversy to fever heat the second exploded them in fiery roars The issue was the nature the condition and the destiny of genus humanum According to the prevailing Genteel Tradition mankind was a congregation of embodied immortal souls each with its fixed identity rights and duties living together with its immortal neighbors under conditions imposed by the laws of nature and of nature's God Obedience or disobedience of these laws destined all to eternal bliss or eternal damnation What had come to be called evolution was assimilated to the Tradition in diverse interpretations such as John Fiske's Henry Drummond's and Charles Pierce's Their common tendency was to establish evolution as somehow the method whereby divine providence ordains the conditions under which man accomplishes his destiny The most productive competitor of the Genteel Tradition went by various names with positivism materialism and naturalism the most telling Its success as competitor was not due to its theological or metaphysical import Its success flowed from its mode of observing how effects or results those undesired as well as those desired got produced Unified and generalized these observations were taken for notations of causal sequences always and everywhere the same thus for laws of nature to whose workings the providence of God added nothing productive and could be and was dispensed with
