## **Preserving Privilege California Politics Propositions And People Of Color:**

Preserving Privilege Jewelle Taylor Gibbs, Teiahsha Bankhead, 2001-03-30 Gibbs and Bankhead examine the history and current situation in California as it struggles to deal with the ethnic and racial change that will make it the first American state to have a non white majority in the first decade of the 21st century From shock and denial to bargaining to change the outcome they analyze the impact in California and what this may mean for the rest of the country They begin by tracing the major historical social economic and political events of the past 50 years that laid the foundation for the impetus of such ethnically and racially divisive initiatives as the efforts to strengthen anti crime measures remove illegal immigrants limit affirmative action measures and eliminate bilingual education Each of these ballot propositions is examined detailing the pro and con arguments of their advocates and opponents their major financial contributors campaign strategies ethnic voting patterns implications of implementation and their impact on people of color Gibbs and Bankhead then look at parallels from a national and international perspective They conclude with a discussion of the values that should guide public policy debates in a multiethnic multicultural society and they propose specific policy alternatives to address the issues of crime prevention and control illegal immigration affirmative action and bilingual education A thoughtful analysis that will be of value to concerned citizens as well as policy makers scholars and students of contemporary American issues *Racial Propositions* Daniel Martinez HoSang, 2010-10-28 This book looks beyond the headlines to uncover the controversial history of California's ballot measures over the past fifty years As the rest of the U S watched California voters banned public services for undocumented immigrants repealed public affirmative action programs and outlawed bilingual education among other measures Why did a state with a liberal political culture an increasingly diverse populace and a well organized civil rights leadership roll back civil rights and anti discrimination gains Daniel Martinez HoSang finds that contrary to popular perception this phenomenon does not represent a new wave of color blind policies nor is a triumph of racial conservatism Instead in a book that goes beyond the conservative liberal divide HoSang uncovers surprising connections between the right and left that reveal how racial inequality has endured Arguing that each of these measures was a proposition about the meaning of race and racism his deft convincing analysis ultimately recasts our understanding of the production of racial identity inequality and power in the postwar era The Victims' Rights Movement Michael Vitiello, 2023-07-18 What's not to like about the Victims Rights Movement What about the fact that it has led to excessive punishment and to increased racial disparity in sentencing What about its false promises to crime victims that they will experience closure by participating in the criminal justice process **Sunbelt Rising** Michelle Nickerson, Darren Dochuk, 2013-09-17 Coined by Republican strategist Kevin Phillips in 1969 to describe the new alloy of conservatism that united voters across the southern rim of the country the term Sunbelt has since gained currency in the American lexicon By the early 1970s the region had come to embody economic growth and an ambitious political culture With sprawling suburban landscapes cities like Atlanta Dallas and Los Angeles

seemed destined to sap influence from the Northeast Corporate entrepreneurialism and a conservative ethos helped forge the Sunbelt's industrial labor relations military spending education systems and neighborhood development Unprecedented migration to the region ensured that these developments worked in concert with sojourners personal quests for work family community and leisure In the resplendent Sunbelt the nation seemed to glimpse the American Dream remade The essays in Sunbelt Rising deploy new analytic tools to explain this region's dramatic rise Contributors to the volume study the Sunbelt as both a physical entity and a cultural invention They examine the raised highway the sprawling prison complex and the fast food restaurant as distinctive material contours of a region In this same vein they delineate distinctive Sunbelt models of corporate and government organization which came to shape so many aspects of the nation's political and economic future Contributors also examine literature religion and civic engagement to illustrate how a particular Sunbelt cultural sensibility arose that ordered people's lives in a period of tumultuous change By exploring the interplay between the Sunbelt as a structurally defined space and a culturally imagined place Sunbelt Rising addresses longstanding debates about region as a category of analysis

*The New Nativism* Robin Dale Jacobson, 2008 A very well crafted important book I recommend it highly Howard Winant author of *The New Politics of Race* In 1994 California voters flocked to the polls in record numbers because of a ballot measure Proposition 187 that was designed to deny social services to undocumented immigrants A majority of voters favored the proposition and accusations of racism flew in all directions A U S District Court ultimately overturned it but to this day Proposition 187 represents a watershed moment in the immigration debate Examining the dynamics of that political battle *The New Nativism* questions racism as the motivating factor for political action both at the time and in the high stakes hotly contested immigration debates of today Robin Jacobson's work based on in depth interviews with supporters of Proposition 187 unpacks the role race played in their support of the measure Jacobson finds that rather than being motivated primarily by racism proponents connected racial identity ideas of fairness and traditional American values in surprising often contradictory ways As individual activists on both sides of the debate struggled to make sense of their political and ideological commitments in light of immigration issues the meaning and import of race and citizenship were conflated in their minds Investigating a key moment in grassroots political activism *The New Nativism* sifts through the claims of racism that dominate current immigration debates and humanizes the discussion in important and potentially controversial ways Moving beyond inflammatory headlines and polarizing rhetoric Jacobson reveals that it is not so much prejudice but the very act of defining race that lies at the center of modern American politics Robin Dale Jacobson is assistant professor of political science at Bucknell University

*We Just Keep Running the Line* LaGuana Gray, 2014-11-05 The poultry processing industry in El Dorado Arkansas was an economic powerhouse in the latter half of the twentieth century It was the largest employer in the interconnected region of South Arkansas and North Louisiana surrounding El Dorado and the fates of many related companies and farms depended on its continued financial success *We Just Keep Running the Line* is the

story of the rise of the poultry processing industry in El Dorado and the labor force composed primarily of black women upon which it came to rely. At a time when agricultural jobs were in decline and Louisiana stood at the forefront of rising anti-welfare sentiment, much of the work available in the area went to men, driving women into less attractive, labor-intensive jobs. LaGuana Gray argues that the justification for placing African American women in the lowest paying and most dangerous of these jobs like poultry processing derives from longstanding mischaracterizations of black women by those in power. In evaluating the perception of black women as less than white women, less feminine, less moral, less deserving of social assistance, and less invested in their families and communities, well-being, Gray illuminates the often exploitative nature of southern labor, the growth of the agribusiness model of food production, and the role of women of color in such food industries. Using collected oral histories to allow marginalized women of color to tell their own stories and to contest and reshape narratives commonly used against them, *We Just Keep Running the Line* explores the physical and psychological toll this work took on black women, analyzing their survival strategies and their fight to retain their humanity in an exploitative industry.

How We Win the Civil War Steve Phillips, 2024-03-12 The bestselling author pulls no punches on what America needs to defeat white supremacy. National political commentator Steve Phillips's politically charged and thoughtfully reasoned *Kirkus Reviews* *How We Win the Civil War* helped chart the way forward for progressives and people

of color arguing that Democrats must recognize the nature of the fight we're in which is a contest between democracy and white supremacy left unresolved after the Civil War. Combining a powerful grasp of history with Phillips's trademark no-nonsense political critique, this spirited and persuasive rousing call for change. Publishers Weekly argues that we will not overcome until we govern as though we are under attack until we finally recognize that the time has come to finish the conquest of the Confederacy and all that it represents. With a new preface laying out what is at stake in the 2024 general election, Phillips delivers razor-sharp prescriptions for the new political season, including specific guidance for politicians, policymakers, and ordinary citizens alike. A foundational contribution to the emerging field of multiracial democracy. Spencer Overton: *How We Win the Civil War* is the essential political book for 2024 and beyond, showing us how to rid our politics of white supremacy once and for all.

Arab and Arab American Feminisms Rabab Abdulhadi, Evelyn Alsultany, Nadine Naber, 2011-04-05. In this collection, Arab and Arab American feminists enlist their intimate experiences to challenge simplistic and long-held assumptions about gender, sexuality, and commitments to feminism and justice-centered struggles among Arab communities. Contributors hail from multiple geographical sites, spiritualities, occupations, sexualities, class backgrounds, and generations. Poets, creative writers, artists, scholars, and activists employ a mix of genres to express feminist issues and highlight how Arab and Arab American feminist perspectives simultaneously inhabit multiple overlapping and intersecting spaces within families and communities, in anticolonial and antiracist struggles, in debates over spirituality and the divine, within radical feminist and queer spaces in academia and on the street, and among each other. Contributors explore themes as diverse as the intersections between gender, sexuality, Orientalism, racism, Islamophobia, and Zionism and the restoration of Arab Jews to Arab American histories. This book asks how members of diasporic communities navigate their sense of belonging when the country in which they live wages wars in the lands of their ancestors. *Arab and Arab American Feminisms* opens up new possibilities for placing grounded Arab and Arab American feminist perspectives at the center of gender studies, Middle East studies, American studies, and ethnic studies.

Marking Time in the Golden State Candace Kruttschnitt, Rosemary Gartner, 2005. In recent decades, the nature of criminal punishment has undergone change in the United States. This case study of women serving time in California in the 1960s and 1990s examines key points in this recent history. The authors begin with a look at imprisonment at the California Institution for Women in the early 1960s, when the rehabilitative model dominated official discourse. They compare women's experiences in the 1990s at the California Institution for Women and the Valley State Prison, when the recent get-tough era was near its peak. Drawing on archival data, interviews, and surveys, their analysis considers the relationships among official philosophies and practices of imprisonment, women's responses to the prison regime, and relations between women prisoners. The experiences of women prisoners reflected the transformations Americans have witnessed in punishment over recent decades, but they also mirrored the deprivations and restrictions of imprisonment.

they persist He uncovers billions of dollars in aligned investments by Bill Gates Charles Koch Mark Zuckerberg and a handful of other billionaires that are dismantling public school systems across the United States He exposes how the greed of prominent US corporations and Wall Street banks was instrumental in creating the world s largest prison population and our most extreme anti immigrant policies Freeman also demonstrates how these racism profiteers prevent flagrant injustices from being addressed by pitting white communities against communities of color obscuring the fact that the struggles faced by white people are deeply connected with those faced by people of color Rich Thanks to Racism is an invaluable road map for all those who recognize that the key to unlocking the United States full potential is for more people of all races and ethnicities to prioritize racial justice
