most advanced educational institutions along with the greatest charities artistic masterpieces and architectural innovations Is this a coincidence or the deliberate result of our worldview How Christianity Built Western Civilization answers this question with chapters on human rights modern science universal education charity art and architecture focusing entirely on the revolutionary milestones and individuals that made these achievements possible Each chapter unfolds chronologically starting with the biblical foundation and moving through the work of the early and Medieval Church arriving at modern times The author builds a compelling case demonstrating how Western Civilization would be indistinguishable from India China or Africa today if not for the teachings of Christ and the Bible

American Resolve and the Art of War John Proctor, 2012-09-28 Since the end of World War II Americans realized that the only way to keep America out of war is to keep the world out of war Americans also realize that today their country is the leader of the Western World if not the whole world The leadership role was thrust upon the United States when its traditional allies are weak Thus all decisions made by the United States must also be implemented by the United States A Chinese general said Ultimate excellence lies not in winning every battle but defeating the enemy without ever fighting This should be Americas goal but it seems that this can only be achieved with a large standing army However there is an alternative This goal can be achieved with a strong disciplined reserve force which will cost only a fraction of a large standing army The reserve force should be trained to implement skillful and innovative tactics Excellent training will also accomplish another significant goal minimize American casualties
