Presidential Conventions:

The Rhetoric of the American Political Party Conventions, 1948-2016 Theodore F. Sheckels, 2020-10-13 The Rhetoric of the American Political Party Conventions 1948 2016 establishes the rhetorical goals of the thirty six political party conventions that have taken place since 1948 against the backdrop of the fundamental changes that television brought to the conventions Theodore F Sheckels analyzes these conventions to determine whether the gatherings met or failed to meet those goals including addressing civil rights unifying divergent wings of the party celebrating the triumph of a single wing overcoming dissent inside and outside the meeting hall overcoming or capitalizing on scandal reconstituting the party after defeats arguing for change and advocating for inclusion Sheckels observes that although speeches are the primary vehicle through which attendees strive to reach these goals the crucial addresses are not always by the principal players often events other than speeches such as negotiations demonstrations and media spin can be just as consequential Sheckels discusses both the similarities and differences in the ways in which the conventions do business and constitute and reconstitute what the political parties are aiming to persuade the public with rhetorical images and messages Scholars of communication rhetoric political science and American studies will find this book particularly useful Nomination and Election of the President and Vice President of the United States, Including the Manner of Selecting Delegates to National Political Conventions United States.
