Presidential Power Of Political Leadership From Fdr To Carter

Richard J. Ellis

Presidential Power Of Political Leadership From Fdr To Carter:

Presidential Power Richard E. Neustadt, 1980 The politics of leadership from FDR to Carter The Presidency of James Earl Carter, Jr Burton Ira Kaufman, Scott Kaufman, 2006 A thoroughly revised updated and newly illustrated version of the Gaddis Smith called the best book on the totality of the Carter presidency The new edition includes more on the former president's foreign and environmental policies and expands coverage of the personal Carter as well as his wife Rosalyn's activist role during his administration **The Powers of the Presidency**, 2013 This is a comprehensive and illustrative work on the historical and contemporary perspective on presidential powers guiding readers through the presidency as a constitutional office with many updated features from the previous edition *Political Leadership in the Soviet Union* Archie Brown, 1989-10-13 The central leadership of the Soviet political system in Moscow is analyzed by a group of Western political researchers The text covers the entire Soviet period from 1917 to the present day but special emphasis is placed on the post Stalin years and new developments of the 1980s **LBJ and the Presidential Management of Foreign Relations** Paul Y. Hammond, 1992 In this insightful study Paul Y Hammond an experienced analyst of bureaucratic politics adapts and extends that approach to explain and evaluate the Johnson administration's performance in foreign relations in terms that have implications for today's post Cold War era The book is structured around three case studies of Johnson's foreign policy decision making The first study examines economic and political development It explores the way Johnson handled the provision of economic and food assistance to India during a crisis in India's food policies This analysis provides lessons not only for dealing with African famine in recent years but also for assisting Eastern Europe and the former Soviet Union The second case study focuses on U S relations with Western Europe at a time that seemed to require a major change in the NATO alliance Here Hammond illuminates the process of policy innovation particularly the costs of changing well established policies that embody an elaborate network of established interests The third case study treats the Vietnam War with special emphasis on how Johnson decided what to do about Vietnam Hammond critiques the rich scholarship available on Johnson's advisory process based on his own reading of the original sources These case studies are set in a larger context of applied theory that deals more generally with presidential management of foreign relations examining a president's potential for influence on the one hand and the constraints on his or her capacity to control and persuade on the other It will be important reading for all scholars and policymakers interested in the limits and possibilities of presidential power in the post Cold War era BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The Development of the American Presidency* Richard J. Ellis, 2013-06-17 Our understanding of the politics of the presidency is greatly enhanced by viewing it through a developmental lens analyzing how historical turns have shaped the modern institution The Development of the American Presidency pays great attention to that historical weight but is organized topically and conceptually with the constitutional origins and political development of the presidency its central focus Through

comprehensive and in depth coverage this text looks at how the presidency has evolved in relation to the public to Congress to the Executive branch and to the law showing at every step how different aspects of the presidency have followed distinct trajectories of change All the while Ellis illustrates the institutional relationships and tensions through stories about particular individuals and specific political conflicts Ellis s own classroom pedagogy of promoting active learning and critical thinking is well reflected in these pages Each chapter begins with a narrative account of some illustrative puzzle that brings to life a central concept A wealth of photos figures and tables allow for the visual presentations of concepts A companion website not only acts as a further resources base directing students to primary documents newspapers and data sources but also presents interactive timelines practice quizzes and key terms to help students master the book s lessons

Transformative Political Leadership Robert I. Rotberg, 2012-05-09 Accomplished political leaders have a clear strategy for turning political visions into reality Through well honed analytical political and emotional intelligence leaders chart paths to promising futures that include economic growth material prosperity and human well being Alas such leaders are rare in the developing world where often institutions are weak and greed and corruption strong and where responsible leadership therefore has the potential to effect the greatest change In *Transformative Political Leadership* Robert I Rotberg focuses on the role of leadership in politics and argues that accomplished leaders demonstrate a particular set of skills Through illustrative case studies of leaders who have performed ably in the developing world among them Nelson Mandela in South Africa Seretse Khama in Botswana Lee Kuan Yew in Singapore and Kemal Ataturk in Turkey Rotberg examines how these leaders transformed their respective countries The importance of capable leadership is woefully understudied in political science and this book will be an important tool in exploring how leaders lead and how nations and institutions are built

The Japanese Prime Minister and Public Policy Kenji Hayao, 2014-08-09 Despite the undeniable importance of Japan in world affairs both politically and economically the office of the Japanese prime minister has recieved far less attention from scholars than have the top political offices in other advanced industrialized democracies This book is the first major systemic analysis of the Japanese prime minister s role and influence in the policy process Kenji Hayao argues that the Japanese prime minister can play a major if not critical role in bringing about a change in policy In Japan the prime minister s style is different from what is considered usual for parliamentary leaders rather than being strong and assertive he tends to be reactive How did the role develop in this way If he is not a major initiator of policy change how and under what conditions can the prime minister make his impact felt Finally what are the consequences of this rather weak leadership In answering these questions Professor Hayao presents two case studies educational reform and reform of the tax system involving Nakasone Yasuhiro to see how he became involved in the policy issues and how he affected the process Hayao then examines a number of broad forces that seem important in explaining the prime minister s role in the policy process how a leader is chosen his relationships with other important actors in the political system the political parties and the

subgovernments and the structure of his inner staff and advisors **The Carter Presidency** John Dumbrell,1995 With its associated images of the Iranian hostage crisis the presidency of Jimmy Carter from 1977 to 1981 is often regarded as a nadir in modern American national leadership In this re evaluation John Dumbrell looks at Carter s years in the White House from a post cold war perspective and argues that Carter was neither incompetent nor lacking in a compassionate vision

Leadership and Democracy Lorenzo Viviani,2024-12-19 This book analyses political leadership addressing key questions central to the ongoing debate on the transformation of contemporary democracies What exactly is political leadership How does the relationship between leadership and power shape democratic transformations What role do individuals play in broader historical processes How does the personalisation of politics manifest and how does it differ between leader democracy and populism Is there still room for charismatic leadership in modern democracies and societies These are some of the critical questions explored in this volume The book traces the sociological relationship between leadership and power from foundational theories in the social sciences through the personalisation of politics to the rise of leader democracy and populist leadership This book will be of interest to scholars students and practitioners in the fields of political sociology political science and leadership studies as well as anyone engaged in understanding the evolving dynamics of leadership in contemporary democracies

The Development of the American Presidency Richard Ellis,2022-05-02 A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present This developmental lens analyzing how historical turns have shaped the modern institution allows for a richer more nuanced understanding The Development of the American Presidency pays great attention to that historical weight but is organized by the topics and concepts relevant to political science with the constitutional origins and political development of the presidency its central focus Through comprehensive and in depth coverage Richard J Ellis looks at how the presidency has evolved in relation to the public to Congress to the executive branch and to the law showing at every step how different aspects of the presidency have followed distinct trajectories of change Each chapter promotes active learning beginning with a narrative account of some illustrative puzzle that brings to life a central concept A wealth of photos figures and tables allow for the visual presentations of concepts New to the Fourth Edition Explicit and expanded attention to the role of norms in shaping and constraining presidential power with special focus on Trump s norm breaking and Biden s efforts to shore up norms Enhanced focus on the prospects for institutional reform including in the electoral college presidential relations with Congress war powers and the selection of Supreme Court justices A full reckoning with the Trump presidency and its significance for the future of American democracy presidential rhetoric the unilateral executive and the administrative state Coverage of the first year of Biden s presidency including presidential rhetoric relations with Congress and the bureaucracy use of the war powers and unilateral directives Comprehensive updating of debates about the removal power including the Supreme Court cases of *Seila Law v CFPB* and *Collins v Yellen* In depth exploration of the impact of partisan polarization on

the legislative presidency and effective governance Analysis of the 2020 election and its aftermath Expanded discussion of impeachment to incorporate Trump's two impeachments Examination of presidential emergency powers with special attention to Trump's border wall declaration Review of Biden's and Trump's impact on the judiciary Assessment of Biden's and Trump's place in political time

A Brief History of Public Policy since the New Deal Andrew E. Busch, 2019-09-10

A Brief History of Public Policy Since the New Deal traces the development of national domestic policy from the Great Depression through the early Trump years A chronological look that illuminates the cumulative effects of policy change the book also focuses on themes such as the interplay of ideas events politics and people models such as incrementalism multiple streams and punctuated equilibrium the importance of foreign policy issues to the development of domestic policy and features including the importance of problem definition and the law of unanticipated consequences Following the narrative each chapter includes a summary of seven key policy areas economic policy social welfare civil rights environmental and education policy moral cultural issues and federalism The material is organized by eras identified by presidencies and by whether the era represented a burst of policymaking made possible because key inputs of ideas events politics and people aligned for change or a rough equilibrium Although presidencies are used to define eras the role of all the institutions are given their due

Franklin D. Roosevelt and the Formation of the Modern World William D. Pederson, Steve Howard, 2016-09-16

No event shaped the twentieth century more than World War II and no leader shaped the conduct of the war and the formation of the modern world more than President Franklin D. Roosevelt In this anthology leading scholars examine Roosevelt's role in the international arena focusing on his diplomacy with Europe Russia the Baltic States Canada and the Caribbean his relations with American Jews in the face of the Holocaust his military appointments and the operation of the Civilian War Services Division

Gale Researcher Guide for The President as Chief Communicator in the United States is selected from Gale's academic platform Gale Researcher These study guides provide peer reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research

Governing the White House Charles Eliot Walcott, Karen Marie Hult, 1995

Charles Walcott and Karen Hult maintain that the organization of the White House influences presidential performance much more than commonly thought and that organization theory is an essential tool for understanding that influence Their book offers the first systematic application of organizational governance theory to the structures and operations of the White House Office Using organizational theory to analyze what at times has been a rather ad hoc and disorganized office might seem quixotic After all the White House Office exists within a turbulent political environment that encourages expedient decision making And every four to eight years it must be reinvented by presidents who have their own theories and preferences about how to organize a staff to serve their policy needs But Walcott and Hult argue that White House staffs are not simply puppets of presidential preference and style Yes staff structures evolve

primarily from presidents strategic responses to external demands But those structures in turn significantly influence how the executive branch perceives and responds to further demands The first part of their book lays out the theoretical argument The second examines White House outreach congressional liaison press relations personnel selection executive branch oversight and interest group and intergovernmental liaison The third focuses on White House handling of policy development and implementation The fourth analyzes staff structures that facilitate the operation of the presidency itself presidential writing and scheduling staff management and cabinet coordination The book concludes by identifying general patterns in the emergency nature and stability of governance structures in the White House Original and instructive *Governing the White House* provides a much needed primer on the inner workings of the White House staff and will be an essential volume for anyone studying the presidency

Politics In The American States: A Comparative Analysis

Virginia Gray, Russell L. Hanson, Thad Kousser, 2013 Fully updated and with new coeditor Thad Kousser the tenth edition brings together the high caliber research you expect from this trusted text with comprehensive and comparative analysis of the fifty states Students will appreciate the book's glossary the fully up to date tables and figures and the maps showcasing comparative data A companion website includes downloadable graphics and data

The Art of Political Leadership Fred I. Greenstein, 2006 Fred Greenstein has been a paragon of scholarship and practical advice in his many years of work on the presidency Here some of the leading scholars of the presidency and leadership studies come together to pay tribute to Greenstein and his work Original essays reflect the broad sweep of Greenstein's scholarship from the systematic study of personality and politics to the analysis of chief executives from Woodrow Wilson on The essayists pay special attention to the political styles advisory systems and decision making processes of presidents from the 1920s to today In his studies of the American presidency Greenstein pioneered the use of archival documents to test hypotheses and illuminate issues that bear on the performance of the modern executive office The distinguished list of contributors to this volume include John Burke Robert A Dahl Alexander and Juliette George Betty Glad Alonzo Hamby Erwin Hargrove John Kessel Anthony King Kenneth Kitts J Donald Moon and Fred Greenstein's first and last graduate students at Princeton Larry Berman and Meena Bose Greenstein himself generously writes a new essay on Plumbing the Presidential Psyche adding to his substantial contributions to political psychology

Leadership and Politics Bryan D. Jones, 1989 In twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved The approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead

The Oxford Handbook of the American Presidency George C. Edwards, William G. Howell, 2011-08-04 With engaging new contributions from major figures in the field The Oxford Handbook of the American Presidency provides the key point of reference for anyone working in American politics today

The Presidency and the Political System Michael Nelson, 2018-03-08 Written by top

notch presidency scholars and carefully edited into a text reader format The Presidency and the Political System Eleventh Edition showcases a collection of original essays focused on a range of topics institutions and issues relevant to understanding the American presidency
