Auditoría a los sistemas de información de costos y presupuestos Carlos Augusto Rincón, 2022-12-06 El presente documento académico preparado por un equipo de profesionales en el marco de procesos de control en el área de las ciencias administrativas pretende brindar herramientas de auditoría de costos y presupuestos a quienes tienen esta responsabilidad en una empresa. Es por tanto un valioso aporte a este propósito. La auditoría de costos y presupuestos permite mediante la revisión detallada de datos incrementar la confianza en el Sistema de Información de Costos (SIC) y presupuestos, así como en aquellos cambios necesarios para mitigar la incertidumbre y posibles riesgos en los datos al momento de tomar decisiones con los costos y la proyección de la información que permitan analizar la situación de la misma.

Presupuestos Carlos Enrique Pacheco Coello, 2015-05-15 Pocas empresas elaboran su planeación formal con la importante herramienta administrativa que es el presupuesto y menos aún consideran un enfoque gerencial derivado de la dinámica del entorno en que se mueven los negocios. Es común que las empresas al elaborar sus presupuestos lo hagan solo de manera cuantitativa sin una orientación cualitativa y de estrategias. Por ello en este trabajo se abordan los diferentes planes de una empresa de producción de tal forma que los interesados en este tema puedan tomar como referencia los puntos afines a su negocio, reflexionar y adaptarlos a sus necesidades. En esta obra se presenta la elaboración de presupuestos maestros, estáticos o inflexibles que suponen niveles fijos de actividad; también se incluye el tema del presupuesto flexible en el cual se consideran las variaciones que pudieran existir en los niveles de venta y en los de producción, así como en los gastos relacionados con los mismos. En esta edición se ha introducido un subcapítulo denominado Temas selectos al final de varios capítulos lo cual enriquece su contenido general. Además este libro contiene un caso práctico con el que se puede obtener un presupuesto maestro integral que permitir tener una visión completa del negocio. Asimismo cada capítulo incluye una autoevaluación para reforzar el conocimiento adquirido.
