Understanding Penal Practice Ioan Durnescu,Fergus McNeill,2013-10-30 Criminological and penological scholarship has in recent years explored how and why institutions and systems of punishment change and how and why these changes differ

in different contexts Important though these analyses are this book focuses not so much on the changing nature of institutions and systems but rather the changing nature of penal practice and practitioners Bringing together leading researchers from around the world this collection unites studies that aim to describe and critically analyse penal practice with studies that investigate its effectiveness and prescribe its future development Reversing penology's usual preoccupation with the prison the book focuses mainly on penal practice in the community i.e. on probation parole offender supervision and community corrections The first part of the book focuses on understanding practice and practitioners exploring how changing social cultural political and organisational contexts influence practice and how training development professional socialisation and other factors influence practitioners The second part is concerned with how practitioners can be best supported to develop the skills and approaches that seem most likely to generate positive impacts It contains accounts of new practice models and approaches as well as reports of research projects seeking both to discover and to encourage effective practices This book explores internationally significant and cutting edge theoretical and empirical work on the cultures practices roles and impacts of frontline practitioners in delivering penal sanctions As such it will be of interest to researchers in criminology social work and social policy as well as correctional policy makers and those involved in community supervision

Incapacitation Marijke Malsch, Marius Duker, 2016-05-23 In many criminal justice systems a new trend towards incapacitation can be witnessed A ubiquitous want for control seems to have emerged as a consequence of perceived safety risks This can be seen not only in the mass incarceration of offenders but also in the disqualification of offenders from jobs in chemical castration in cases of sexual crimes the increased use of electronic monitoring and in the life long monitoring of individuals who pose certain risks Trends towards incapacitation are now even spreading to public administration and the employment sector in the refusal of licenses and the rejection of employees with past criminal records This book discusses the topic of incapacitation from various angles and perspectives It explores how theories of punishment are affected by the more recent emphasis on incapacitation and how criminal justice practice is changing as a consequence

of this new emphasis Many contributors express criticisms with this trend towards incapacitation They argue for a better calibration of measures to the severity of the misconduct In addressing an increasingly important development in criminal justice the book will be an essential resource for students researchers and policy makers working in the areas of criminal law sentencing probation and crime prevention
