*Reading as Collective Action* Nicholas Hengen Fox, 2017-10-01 Literature is powerful It offers respite It provides access to beauty and horror to new places new people and new ideas It can as the phrase goes change your life Good things all of them But also somewhat limited goods they're all pretty passive pretty private you might even say self centered Reading as Collective Action shifts our focus outward to another of literature's powers the power to reshape our world in very public very active ways In this book you will encounter readers who criticized the Bush administration's war on terror by republishing poems by writers ranging from Shakespeare to Amiri Baraka everywhere from lampposts to the New York Times You will read about people in Michigan and Tennessee who leveraged a community reading program on John Steinbeck's *The Grapes of Wrath* to organize support for those in need during the Great Recession and to engage with their neighbors about immigration You will meet a pair of students who took to public transit to talk with strangers about working class literature and a trio who created a literary website that reclaimed the working class history of the Pacific Northwest This book challenges dominant academic modes of reading For adherents of the civic turn it suggests how we can create more politically effective forms of service learning and community engagement grounded in a commitment to tactical grassroots actions Whether you're a social worker or a student a zine maker a librarian a professor or just a passionate reader with a desire to better your community this book shows that when we read texts as tactics that book changed my life can become that book changed our lives
